Section 1. Requirements for entry on real property by agent of a homeowners' association – exceptions. (1) (a) A homeowners' association must receive permission from an owner of real property before an agent of the homeowners' association may enter the property.

(b) When seeking permission for an agent of the homeowners' association to enter the property, the homeowners' association shall:

(i) seek to establish a date and time to enter the property that is convenient to the owner; and

(ii) specify what part of the property the agent of the homeowners' association seeks to access.

(2) An owner of real property may require that the owner or the owner's agent be present when an agent of the homeowners' association enters the property.

CHAPTER NO. 453

[HB 441]

AN ACT REVISING WATER LAWS TO ALIGN PROVISIONAL WATER RIGHTS WITH FINAL DECREES; CLARIFYING PROCESSES FOR POST-DECREE PETITIONS TO REDUCE, MODIFY, OR REVOKE PERMITS; CLARIFYING POST-DECREE VERIFICATION OF PERMITS AND CHANGES IN APPROPRIATION RIGHTS; AND AMENDING SECTIONS 85-2-313, 85-2-315, AND 85-2-402, MCA.

Be it enacted by the Legislature of the State of Montana:

Section 1. Section 85-2-313, MCA, is amended to read:

~~"85-2-313. Provisional permit. (1) A permit issued prior to a final determination of existing water rights is provisional and is subject to that final determination. Upon petition, the amount of the appropriation granted in a provisional permit must be reduced, modified, or revoked by the department following a show cause hearing in which it is determined that reduction,~~

modification, or revocation is necessary to protect and guarantee existing water rights determined in the final decree. Because a provisional permit is issued on a reasonable determination of legal availability under 85-2-311(1)(b), in a show cause hearing under this section, legal availability must be determined on a consideration of the final decree in the affected basin or subbasin. A permit authorized prior to the issuance of a final decree pursuant to 85-2-234 in the basin where the permit is located is provisional and is subject to that final decree. A person may not obtain any vested right to an appropriation obtained under a provisional permit by virtue of construction of diversion works, purchase of equipment to apply water, planting of crops, or other action where in which the permit would have been denied or modified if the final decree had been available to the department.

(2) (a) Within 60 days after the issuance of a final decree pursuant to 85-2-234, the department shall serve, by first-class mail, owners of record of existing water rights and provisional permits within the decreed basin with a notice of final decree and opportunity to petition for the reduction, modification, or revocation of a provisional permit located in the decreed basin.

(b) The department shall also provide notice to other interested persons who request service of the notice of final decree from the department.

(c) For basins in which a final decree was issued prior to January 1, 2026, the department shall provide notice by January 31, 2026, in accordance with subsections (2)(a) and (2)(b).

(3) (a) An owner of an existing water right in the decreed basin may file a correct and complete petition to reduce, modify, or revoke a provisional permit issued prior to the final decree in the subject basin. Within 180 days of issuance of the notice required under subsection (2), the petition must be:

(i) made on a form prescribed by the department;

(ii) filed with the department; and

(iii) served by first-class mail on all owners of record of the provisional permit.

(b) The department shall notify the petitioner of any defects in a petition within 60 days of the close of the petition period described in subsection (3)(a). A petition that is not corrected and completed within 30 days of the notice of the defects is terminated. If the department does not notify the petitioner of any defects within 60 days, the petition must be treated as correct and complete.

(c) The department shall provide notice of a correct and complete petition to the petitioner and each owner of record of the provisional permit identified in the petition by first-class mail. Within 60 days of the notice, the owner of a provisional permit identified in a petition may file a response to the petition with the department and serve the response on the petitioner by first-class mail.

(d) The petitioner shall prove by a preponderance of the evidence that:

(i) reduction, modification, or revocation of the provisional permit is necessary to protect the petitioner's existing water right determined in the final decree;

(ii) the provisional permit would have been denied or modified if the final decree had been available to the department; and

(iii) based on the findings of the final decree, water could not be considered legally available at the time of issuance of the permit.

(e) Within 120 days of the close of the 60-day response period provided in subsection (3)(c), the department shall deny the petition or propose to reduce, modify, or revoke the provisional permit based on the information in the petition, the response, the final decree, the records of the department, and other evidence submitted to the department. The department shall consider whether, based on

the final decree, unappropriated waters or legally available water existed at the time the provisional permit was issued.

(i) If the department proposes to reduce, modify, or revoke a provisional permit, the department shall provide the owner of the provisional permit with an opportunity to show cause why the department should not take the proposed action. If the owner of the provisional permit fails to show sufficient cause, the department shall reduce, modify, or revoke the provisional permit in accordance with the department's findings and conclusions.

(ii) A department determination to deny a petition is final.

(4) If no petition to reduce, modify, or revoke a provisional permit is filed pursuant to subsection (3), the department shall issue a certificate of water right in accordance with 85-2-315."

Section 2. Section 85-2-315, MCA, is amended to read:

"85-2-315. Certificate of water right. (1) (a) ~~Upon~~ *On* actual application of water to the proposed beneficial use within the time allowed, the permittee shall notify the department that the appropriation has been completed. The notification must contain a certified statement by a person with experience in the design, construction, or operation of appropriation works describing how the appropriation was completed. The department shall review the certified statement and may then inspect the appropriation, ~~and if it determines that the appropriation has been completed in substantial accordance with the permit, it shall issue the permittee a certificate of water right to verify whether the appropriation was completed in substantial accordance with the terms of the permit, including any reduction or modification pursuant to 85-2-313. The original of the certificate shall be sent to the permittee, and a duplicate shall be kept in the office of the department in Helena.~~

(b) If the department determines that the appropriation has been completed in substantial accordance with the terms, conditions, restrictions, and limitations of the permit approval and any reduction or modification pursuant to 85-2-313, the department shall issue a certificate of water right for the permit.

(c) If the department determines that the appropriation was not completed in substantial accordance with the terms, conditions, restrictions, and limitations of the permit approval, including any reduction or modification pursuant to 85-2-313, the department may, after notice, require the permittee to show cause why the permit should not be modified or revoked pursuant to 85-2-314.

(2) After a final decree is issued in a basin pursuant to 85-2-234, the department shall issue a certificate of water right for a change in appropriation right that is verified or modified pursuant to 85-2-402(9) and (10).

(3) The original of a certificate of water right must be sent to the owner of the permit or change in appropriation right and a duplicate must be maintained in the department's centralized database."

Section 3. Section 85-2-402, MCA, is amended to read:

"85-2-402. Changes in appropriation rights – definition. (1) (a) The right to make a change in appropriation right subject to the provisions of this section in an existing water right, a permit, or a state water reservation is recognized and confirmed. In a change in appropriation right proceeding under this section, there is no presumption that an applicant for a change in appropriation right cannot establish lack of adverse effect prior to the adjudication of other rights in the source of supply pursuant to this chapter. Except as provided in 85-2-410 and subsections (15) and (16) of this section, an appropriator may not make a change in an appropriation right without the approval of the department or, if applicable, of the legislature. An applicant shall submit a correct and complete application.

(b) If an application involves a change in a point of diversion, conveyance, or place of use located on national forest system lands, the application is not correct and complete until the applicant has submitted proof to the department of any written special use authorization required by federal law for the proposed change in occupancy, use, or traverse of national forest system lands for the purpose of diversion, impoundment, storage, transportation, withdrawal, use, or distribution of water.

(2) Except as provided in subsections (4) through (6), (15), (16), and (18) and, if applicable, subject to subsection (17), the department shall approve a change in appropriation right if the appropriator proves by a preponderance of evidence that the following criteria are met:

(a) The proposed change in appropriation right will not adversely affect the use of the existing water rights of other persons or other perfected or planned uses or developments for which a permit or certificate has been issued or for which a state water reservation has been issued under part 3. For purposes of this section, adverse effects analysis is specific to the proposed change in appropriation right and a determination that water is not legally available pursuant to 85-2-311 does not necessarily mean that an adverse effect will occur.

(b) The proposed means of diversion, construction, and operation of the appropriation works are adequate, except for:

(i) a change in appropriation right for instream flow pursuant to 85-2-320 or 85-2-436;

(ii) a temporary change in appropriation right for instream flow pursuant to 85-2-408; or

(iii) a change in appropriation right pursuant to 85-2-420 for mitigation or marketing for mitigation.

(c) The proposed use of water is a beneficial use.

(d) The applicant has a possessory interest, or the written consent of the person with the possessory interest, in the property where the water is to be put to beneficial use or, if the proposed change involves a point of diversion, conveyance, or place of use on national forest system lands, the applicant has any written special use authorization required by federal law to occupy, use, or traverse national forest system lands for the purpose of diversion, impoundment, storage, transportation, withdrawal, use, or distribution of water. This subsection (2)(d) does not apply to:

(i) a change in appropriation right for instream flow pursuant to 85-2-320 or 85-2-436;

(ii) a temporary change in appropriation right for instream flow pursuant to 85-2-408; or

(iii) a change in appropriation right pursuant to 85-2-420 for mitigation or marketing for mitigation.

(e) If the change in appropriation right involves salvaged water, the proposed water-saving methods will salvage at least the amount of water asserted by the applicant.

(f) The water quality of an appropriator will not be adversely affected.

(g) The ability of a discharge permit holder to satisfy effluent limitations of a permit issued in accordance with Title 75, chapter 5, part 4, will not be adversely affected.

(3) The applicant is required to prove that the criteria in subsections (2)(f) and (2)(g) have been met only if a valid objection is filed. A valid objection must contain substantial credible information establishing to the satisfaction of the department that the criteria in subsection (2)(f) or (2)(g), as applicable, may not be met.

(4) The department may not approve a change in purpose of use or place of use of an appropriation of 4,000 or more acre-feet of water a year and 5.5 or more cubic feet per second of water unless the appropriator proves by a preponderance of evidence that:

- (a) the criteria in subsection (2) are met; and
- (b) the proposed change in appropriation right is a reasonable use. A finding of reasonable use must be based on a consideration of:

- (i) the existing legal demands of water rights on the state water supply, as well as projected legal demands of water rights for future beneficial purposes, including municipal water supplies, irrigation systems, and minimum streamflows for the protection of existing water rights and aquatic life;

- (ii) the benefits to the applicant and the state;

- (iii) the effects on the quantity and quality of water for existing uses in the source of supply;

- (iv) the availability and feasibility of using low-quality water for the purpose for which application has been made;

- (v) the effects on private property rights by any creation of or contribution to saline seep; and

- (vi) the probable significant adverse environmental impacts of the proposed use of water as determined by the department pursuant to Title 75, chapter 1, or Title 75, chapter 20.

(5) The department may not approve a change in purpose of use or place of use for a diversion that results in 4,000 or more acre-feet of water a year and 5.5 or more cubic feet per second of water being consumed unless:

- (a) the applicant proves by clear and convincing evidence and the department finds that the criteria in subsections (2) and (4) are met; and

- (b) for the withdrawal and transportation of appropriated water for out-of-state use, the department then petitions the legislature and the legislature affirms the decision of the department after one or more public hearings.

(6) The state of Montana has long recognized the importance of conserving its public waters and the necessity to maintain adequate water supplies for the state's water requirements, including requirements for federal non-Indian and Indian reserved water rights held by the United States for federal reserved lands and in trust for the various Indian tribes within the state's boundaries. Although the state of Montana also recognizes that, under appropriate conditions, the out-of-state transportation and use of its public waters are not in conflict with the public welfare of its citizens or the conservation of its waters, the following criteria must be met before out-of-state use may occur:

- (a) The department and, if applicable, the legislature may not approve a change in appropriation right for the withdrawal and transportation of appropriated water for use outside the state unless the appropriator proves by clear and convincing evidence and, if applicable, the legislature approves after one or more public hearings that:

- (i) depending on the volume of water diverted or consumed, the applicable criteria and procedures of subsection (2) or (4) are met;

- (ii) the proposed out-of-state use of water is not contrary to water conservation in Montana; and

- (iii) the proposed out-of-state use of water is not otherwise detrimental to the public welfare of the citizens of Montana.

- (b) In determining whether the appropriator has proved by clear and convincing evidence that the requirements of subsections (6)(a)(ii) and (6)(a)(iii) will be met, the department and, if applicable, the legislature shall consider the following factors:

(i) whether there are present or projected water shortages within the state of Montana;

(ii) whether the water that is the subject of the proposed change in appropriation might feasibly be transported to alleviate water shortages within the state of Montana;

(iii) the supply and sources of water available to the applicant in the state where the applicant intends to use the water; and

(iv) the existing legal demands of water rights placed on the applicant's supply in the state where the applicant intends to use the water.

(c) When applying for a change in appropriation right to withdraw and transport water for use outside the state, the applicant shall submit to and comply with the laws of the state of Montana governing the appropriation and use of water.

(7) For any application for a change in appropriation right involving 4,000 or more acre-feet of water a year and 5.5 or more cubic feet per second of water, the department shall give notice of the proposed change in appropriation right in accordance with 85-2-307 and shall hold one or more hearings in accordance with 85-2-309 prior to its approval or denial of the proposed change in appropriation right. The department shall provide notice and may hold one or more hearings upon any other proposed change in appropriation right if it determines that the proposed change in appropriation right might adversely affect the rights of other persons.

(8) The department or the legislature, if applicable, may approve a change in appropriation right subject to the terms, conditions, restrictions, and limitations that it considers necessary to satisfy the criteria of this section, including limitations on the time for completion of the change in appropriation right. The department may extend time limits specified in the change in appropriation right approval under the applicable criteria and procedures of 85-2-312.

(9) ~~Upon~~ *On* actual application of water to the proposed beneficial use within the time allowed, the appropriator shall notify the department that the appropriation has been completed. The notification must contain a certified statement by a person with experience in the design, construction, or operation of appropriation works describing how the appropriation was completed. *The department shall review the certified statement and may inspect the appropriation to verify whether the appropriation was completed in substantial accordance with the terms of the change in appropriation right.*

(a) For a change in appropriation right of an existing water right granted prior to issuance of a final decree in the basin where the existing water right is located, the department shall verify that the elements and conditions of the change in appropriation right are in substantial accordance with the elements of the existing water right as adjudicated in the final decree. If the notice of completion of the change in appropriation of an existing water right was verified prior to issuance of a final decree in the basin where the existing water right is located, the department shall verify that the elements and conditions of the change in appropriation right are in substantial accordance with the elements of the existing water right as adjudicated in the final decree. The department verification is subject to any modifications to the final decree based on an appeal under 85-2-235.

(b) For a change in appropriation right on a provisional permit granted before issuance of a final decree in the basin where the provisional permit is located, the department shall verify that the elements and conditions of the change in appropriation right are in substantial accordance with any modification or reduction of the provisional permit pursuant to 85-2-313. If the notice of

completion for a change in appropriation right was verified by the department prior to an order reducing or modifying the provisional permit pursuant to 85-2-313, the department shall verify that the elements and conditions of the change in appropriation right are in substantial accordance with the reduction or modification of the provisional permit.

(10) If a change in appropriation right is not completed as approved by the department or legislature, ~~or~~ if the terms, conditions, restrictions, and limitations of the change in appropriation right approval are not complied with, *or if the elements of the change in appropriation right are not in substantial accordance with the elements of the existing water right in the final decree or with the reduction or modification of the provisional permit pursuant to 85-2-313*, the department may, after notice and opportunity for hearing, require the appropriator to show cause why the change in appropriation right approval should not be modified or revoked. If the appropriator fails to show sufficient cause, the department may modify or revoke the change in appropriation right approval.

(11) The original of a change in appropriation right approval issued by the department must be sent to the applicant, and a duplicate must be kept in the office of the department in Helena.

(12) A person holding an issued permit or change in appropriation right approval that has not been perfected may change the place of diversion, place of use, purpose of use, or place of storage by filing an application for change in appropriation right pursuant to this section.

(13) A change in appropriation right contrary to the provisions of this section is invalid. An officer, agent, agency, or employee of the state may not knowingly permit, aid, or assist in any manner an unauthorized change in appropriation right. A person or corporation may not, directly or indirectly, personally or through an agent, officer, or employee, attempt to change an appropriation right except in accordance with this section.

(14) The department may adopt rules to implement the provisions of this section.

(15) (a) An appropriator may change an appropriation right for a replacement well without the prior approval of the department if:

(i) the appropriation right is for:

(A) ground water outside the boundaries of a controlled ground water area;

or

(B) ground water inside the boundaries of a controlled ground water area and if the provisions of the rule establishing the controlled ground water area do not restrict a change in appropriation right;

(ii) the change in appropriation right is to replace an existing well and the existing well will no longer be used;

(iii) the rate and volume of the appropriation from the replacement well are equal to or less than that of the well being replaced and do not exceed:

(A) 450 gallons a minute for a municipal well; or

(B) 35 gallons a minute and 10 acre-feet a year for all other wells;

(iv) the water from the replacement well is appropriated from the same aquifer as the water appropriated from the well being replaced; and

(v) a timely, correct and complete notice of replacement well is submitted to the department as provided in subsection (15)(b).

(b) (i) After completion of a replacement well and appropriation of ground water for a beneficial use, the appropriator shall file a notice of replacement well with the department on a form provided by the department.

(ii) (A) The department shall review the notice of replacement well and shall issue an authorization of a change in an appropriation right if all of the criteria in subsection (15)(a) have been met and the notice is correct and complete.

(B) If the replacement well is located on national forest system lands, the notice is not correct and complete under this subsection (15) until the appropriator has submitted proof of any written special use authorization required by federal law to occupy, use, or traverse national forest system lands for the purpose of constructing the replacement well.

(iii) The department may not issue an authorization of a change in appropriation right until a correct and complete notice of replacement well has been filed with the department. The department shall return a defective notice to the appropriator, along with a description of defects in the notice. The appropriator shall refile a corrected and completed notice of replacement well within 30 days of notification of defects or within a further time as the department may allow, not to exceed 6 months.

(iv) If a notice of replacement well is not completed within the time allowed, the appropriator shall:

(A) cease appropriation of water from the replacement well pending approval by the department; and

(B) submit an application for a change in appropriation right to the department pursuant to subsections (1) through (3).

(c) The provisions of this subsection (15) do not apply to an appropriation right abandoned under 85-2-404.

(d) For each well that is replaced under this subsection (15), the appropriator shall follow the well abandonment procedures, standards, and rules adopted by the board of water well contractors pursuant to 37-43-202.

(e) The provisions of subsections (2), (3), (9), and (10) do not apply to a change in appropriation right that meets the requirements of subsection (15)(a).

(16) (a) An appropriator may change an appropriation right without the prior approval of the department for the purpose of constructing a redundant water supply well in a public water supply system, as defined in 75-6-102, if the redundant water supply well:

(i) withdraws water from the same ground water source as the original well; and

(ii) is required by a state or federal agency.

(b) The priority date of the redundant water supply well is the same as the priority date of the original well. Only one well may be used at one time.

(c) Within 60 days of completion of a redundant water supply well, the appropriator shall file a notice of construction of the well with the department on a form provided by the department. The department may return a defective notice of construction to the appropriator for correction and completion. If the redundant water supply well is located on national forest system lands, the notice is not correct and complete under this subsection until the appropriator has submitted proof of any written special use authorization required by federal law to occupy, use, or traverse national forest system lands for the purpose of constructing the redundant water supply well.

(d) The provisions of subsections (9) and (10) do not apply to a change in appropriation right that meets the requirements of this subsection (16).

(17) The department shall accept and process an application for a change in appropriation right for instream flow to protect, maintain, or enhance streamflows pursuant to 85-2-320 and this section and to benefit the fishery resource pursuant to 85-2-436 and this section.

(18) (a) An appropriator may change an appropriation right for a replacement point of diversion without the prior approval of the department if:

(i) the existing point of diversion is inoperable due to natural causes or deteriorated infrastructure;

(ii) there are no other changes to the water right;

(iii) the capacity of the diversion is not increased;

(iv) there are no points of diversion or intervening water rights between the existing point of diversion and the replacement point of diversion or the appropriator obtains written waivers from all intervening water right holders;

(v) the replacement point of diversion is on the same surface water source and is located as close as reasonably practicable to the existing point of diversion;

(vi) the replacement point of diversion replaces an existing point of diversion and the existing point of diversion will no longer be used;

(vii) the appropriator can show that the existing point of diversion has been used in the 10 years prior to the notice for change of appropriation right for a replacement point of diversion;

(viii) the appropriator can show the change will not increase access to water availability, change the method of irrigation, if applicable, or increase the amount of water diverted, used, or consumed; and

(ix) a timely, correct and complete notice of replacement point of diversion is submitted to the department as provided in subsection (18)(b).

(b) (i) Within 60 days after completion of a replacement point of diversion, the appropriator shall file a notice of replacement point of diversion with the department on a form provided by the department.

(ii) The department shall review the notice of replacement point of diversion and shall issue an authorization of a change in an appropriation right if all of the criteria in subsection (18)(a) have been met and the notice is correct and complete. The department may inspect the diversion to confirm that the criteria under subsection (18)(a) have been met. If the department issues an authorization of a change in an appropriation right for a replacement point of diversion, the department shall prepare a notice of the authorization and provide notice of the authorization in the same manner as required in 85-2-307 for applications.

(iii) The department may not issue an authorization of a change in appropriation right until a correct and complete notice of replacement point of diversion has been filed with the department. The department shall return a defective notice to the appropriator, along with a description of defects in the notice. The appropriator shall refile a corrected and completed notice of replacement point of diversion within 30 days of notification of defects or within a further time as the department may allow, not to exceed 6 months.

(iv) If a notice of replacement point of diversion is not filed and completed within the time allowed or if the department determines the criteria under subsection (18)(a) have not been met, the appropriator shall:

(A) cease appropriation of water from the replacement point of diversion pending approval by the department; and

(B) submit an application for a change in appropriation right to the department pursuant to subsections (1) through (3).

(c) The provisions of this subsection (18) do not apply to an appropriation right abandoned under 85-2-404.

(d) The provisions of subsections (2), (3), (9), and (10) do not apply to a change in appropriation right that meets the requirements of subsection (18)(a).

(e) (i) An appropriator may file a correct and complete objection with the department alleging that the change in appropriation right for a replacement point of diversion will adversely affect the use of the existing water rights of other persons or other perfected or planned uses or developments for which a permit or certificate has been issued or for which a state water reservation has been issued under Title 85, chapter 2, part 3.

(ii) If the department determines after a contested case hearing between the appropriator and the objector that the rights of other appropriators have been or will be adversely affected, it may revoke the change or make the change subject to terms, conditions, restrictions, or limitations necessary to protect the rights of other appropriators.

(iii) The burden of proof to prove lack of adverse effect at the hearing is on the appropriator changing the point of diversion."

[HB 573]

AN ACT REVISING LAWS RELATED TO TRANSFORMATIONAL LEARNING; MOVING THE TERMINATION OF THE EXISTING TRANSFORMATIONAL LEARNING GRANT PROGRAM UP BY 1 YEAR; ESTABLISHING A TRANSFORMATIONAL LEARNING PHASE II GRANT PROGRAM AND REQUIREMENTS FOR ADMINISTERING THE PROGRAM FOR THE SUPERINTENDENT OF PUBLIC INSTRUCTION AND THE BOARD OF PUBLIC EDUCATION; RELOCATING A DEFINITION; AMENDING SECTIONS 20-7-1601 AND 20-7-1602, MCA; AMENDING SECTION 7, CHAPTER 402, LAWS OF 2019; AND PROVIDING AN EFFECTIVE DATE AND A TERMINATION DATE.

Be it enacted by the Legislature of the State of Montana:

Section 1. Section 20-7-1601, MCA, is amended to read:

"20-7-1601. Forms of personalized learning – legislative intent.

(1) The legislature finds and declares pursuant to Article X, section 1, of the 1972 Montana constitution that forms of personalized learning authorized under Montana law, including but not limited to work-based learning pursuant to 20-7-1510, proficiency-based learning as defined in subsection (2) of this section, determinations of course equivalency by an elected board of trustees under 20-3-324(18), remote instruction under 20-7-118, and transformational learning, are appropriate means of fulfilling the people's goal of developing the full educational potential of each person. The provision of and participation in forms of personalized learning under this part and in compliance with accreditation standards of the board of public education are constitutionally

compliant and protected. The legislature declares that any public or private regulation that discriminates against a district or pupil participating in forms of personalized learning referenced in this section is inconsistent with constitutional goals and guarantees under Article X of the Montana constitution.

(2) As used in this title, unless the context clearly indicates otherwise, the following definitions apply:

(a) “Proficiency” means a measure of competence that is demonstrated through application in a performance assessment.

(b) “Proficiency-based learning” means an education system in which student progress is based on a student’s demonstration of competence rather than on the basis of seat time or the age or grade level of the student.

(c) *“Transformational learning” means a flexible system of pupil-centered and proficiency-based learning that is designed to develop the full educational potential of each pupil that:*

(i) is customized to address each pupil’s strengths, needs, and interests; and

(ii) actively engages each pupil in determining what, how, when, and where each pupil learns.”

Section 2. Section 20-7-1602, MCA, is amended to read:

“20-7-1602. (Temporary) Incentives for creation of transformational learning programs. (1) (a) A school district as defined in 20-6-101 that satisfies the conditions of subsection (2) and is qualified by the board of public education pursuant to subsection (4) is eligible for a 4-consecutive-year provision of the transitional funding and flexibilities in subsections (5) and (6).

(b) A school district may be qualified by the board of public education for no more than one 4-consecutive-year provision of transitional funding and flexibilities in any 8-year period.

(2) To qualify for the transitional funding and flexibilities in subsections (5) and (6), the board of trustees of a district shall submit an application that has been approved by motion of the board of trustees and signed by the presiding officer to the board of public education for approval of a transformational learning program on a form provided by the superintendent of public instruction. The school board’s application must:

(a) identify the number of full-time equivalent educators meeting the criteria of 20-9-327(3) who will participate in the district’s transformational learning program, with full-time equivalence calculated and reported by the district based on the planned portion of each qualifying educator’s full-time equivalent assignment that is dedicated to the district’s transformational learning program;

(b) include the district’s definition of proficiency within the meaning of the term as used in 20-9-311(4)(d). The definition must be incorporated in the district’s policies and must be used for purposes of determining content and course proficiency and other progress, promotion from grade to grade, grades, and graduation for pupils enrolled in the district’s transformational learning program. The district must also describe the district’s plans for the implementation of proficiency-based learning as defined in 20-7-1601; and

(c) include a strategic plan with appropriate planning horizons for implementation, measurable objectives to ensure accountability, and planned strategies to:

(i) develop a transformational learning plan for each participating pupil that honors individual interests, passions, strengths, needs, and culture and that is rooted in relationships with teachers, family, peers, and community members;

(ii) embed community-based, experiential, online, and work-based learning opportunities and foster a learning environment that incorporates both face-to-face and virtual connections;

(iii) provide effective professional development to assist employees in transitioning to a transformational learning model; and

(iv) ensure equality of educational opportunity to participate by all pupils of the district.

(3) The board of public education shall establish by rule the opening and closing dates for receipt of applications and annual reports.

(4) The board of public education shall:

(a) on an annual basis, qualify districts that submit an application meeting, in the determination of the board or the board's designee, the requirements of subsection (2) for the funding in subsection (5) and the flexibilities in subsection (6) until the annual appropriation is exhausted, after which further applications, including first-time applications and annual reports requesting an expansion of a previously approved plan, are to be deferred for consideration in a subsequent year, in the order of a lottery system draw, if and when additional funds become available for distribution. The lottery system shall assign every first-time application or request for expansion of a previously approved plan a number that will be placed into a lottery system draw that will be done by a third party. The applications will be assigned a position in the order in which the numbers are drawn. The drawing will continue until all districts are on the qualification list for the current year funding or deferred for consideration in a subsequent year.

(b) require each participating school district to submit an annual report demonstrating, in the determination of the board or the board's designee, continued qualification for funding under this section and including a report of progress toward measurable objectives under the school district's transformational learning plan. The school district shall include any decrease or requested increase in the number of participating full-time equivalent educators under subsection (2)(a) for adjustments to its funding. Any increase in funding based on requested increased levels of participation under subsection (2)(a) must be determined in the year in which the request for a funding increase is received and augmented with a lottery system among all first-time applications and annual reports requesting an expansion of a previously approved plan and must be contingent on the availability of funds within any appropriation of the legislature. An application deferred for consideration in a subsequent year due to lack of funding must be annually updated each year after more than 1 full fiscal year has passed from the date of original submission of the application in order for the application to retain its priority by original date received.

(c) report in accordance with 5-11-210 to the education interim committee on the progress made by districts as submitted in the annual report and strategic plan operating under approved and funded transformational learning plans.

(5) (a) For a period of 4 consecutive fiscal years following the fiscal year in which a district is qualified by the board of public education and contingent on satisfying the annual reporting requirements under subsection (4), the superintendent of public instruction shall provide a transformational learning aid payment to the district equivalent to 50% of the quality educator payment defined in 20-9-306 from the immediate prior fiscal year multiplied by the number of the district's full-time equivalent educators reported under subsection (2)(a) of this section.

(b) The payment under this subsection (5) must be distributed directly to the school district's flexibility fund established under 20-9-543 by October 1 of

each year of funding by the superintendent of public instruction. The money must be expended by the district only for the purposes set forth in the district's approved transformational learning program and within ~~2 years of the date of distribution~~ *6 years of the first year of funding*.

(c) A school district may not receive more than 25% of the total amount of payments made under this subsection (5).

(6) During each year that a school district remains qualified for funding under subsection (5), the district's trustees may:

(a) if the obligations of transparency set forth in 20-9-116 are met, levy an annual permissive property tax not to exceed 100% of any funds distributed to the district under subsection (5). Proceeds of the levy must be deposited in the district's flexibility fund established under 20-9-543 and must be expended by the district only for the purposes of the district's approved transformational learning plan.

(b) transfer state or local revenue from any budgeted or nonbudgeted fund, other than the debt service fund or retirement fund, to the district's flexibility fund.

(7) (a) Any funds transferred pursuant to subsection (6)(b) may be expended by the district solely for the purposes of implementing the district's approved transformational learning plan. Any transfers of funds are not considered expenditures to be applied against budget authority.

(b) Any transfers that are not expended for the purposes of implementing the district's approved transformational learning plan within 2 full school fiscal years after the funds are transferred must be transferred back to the originating fund from which the revenue was transferred.

(c) The intent of subsection (6)(b) and this subsection (7) is to increase the flexibility and efficiency of school districts without an increase in local taxes. In furtherance of this intent, if transfers of funds are made from any school district fund supported by a nonvoted levy, the district may not increase its nonvoted levy for the purpose of restoring the amount of funds transferred.

(8) The present law base calculated for K-12 local assistance under Title 17, chapter 7, part 1, must include transformational learning aid as defined in subsection (9).

(9) For the purposes of this title, the following definitions apply:

(a) "Transformational learning" means a flexible system of pupil-centered and proficiency-based learning that is designed to develop the full educational potential of each pupil that:

(i) is customized to address each pupil's strengths, needs, and interests; and

(ii) actively engages each pupil in determining what, how, when, and where each pupil learns.

(b) "Transformational learning aid" means 50% of the quality educator payment defined in 20-9-306 multiplied by 10% of the statewide number of full-time equivalent educators from the fiscal year immediately preceding the year to which distribution of transformational aid applies calculated as provided in 20-9-327. (Terminates June 30, ~~2027~~ 2026--sec. 7, Ch. 402, L. 2019.)"

The amount, method, and time of payment must be determined in the same manner as provided for in 46-18-244.

(7) As used in subsections (3) and (4), an act "in the course of committing sexual intercourse without consent" includes an attempt to commit the offense or the act of flight after the attempt or commission.

(1) A person commits the offense of incest if the person knowingly marries, cohabits with, has sexual intercourse with, or has sexual contact, as defined in 45-2-101, with an ancestor, a descendant, a brother or sister of the whole or half blood, a nephew or niece, or any stepson or stepdaughter. The relationships referred to in this subsection include blood relationships without regard to legitimacy, relationships of parent and child by adoption, and relationships involving a stepson or stepdaughter.

(2) (a) Consent is a defense to incest with or upon a stepson or stepdaughter, but consent is ineffective if the stepson or stepdaughter is less than 18 years of age and the stepparent is 4 or more years older than the stepson or stepdaughter.

(b) A person who is less than 18 years of age is not legally responsible or legally accountable for the offense of incest and is considered a victim of the offense of incest if the other person in the incestuous relationship is 4 or more years older than the victim.

(3) Except as provided in subsections (4) and (5), a person convicted of incest shall be punished by life imprisonment or by imprisonment in the state prison for a term not to exceed 100 years or be fined an amount not to exceed \$50,000.

(4) If the victim is under 16 years of age and the offender is 3 or more years older than the victim or if the offender inflicts bodily injury upon anyone in the course of committing incest, the offender shall be punished by life imprisonment or by imprisonment in the state prison for a term of not less than 4 years or more than 100 years and may be fined not more than \$50,000.

(5) (a) If the victim was 12 years of age or younger, the offender was 18 years of age or older at the time of the offense, the offender:

(i) shall be punished by imprisonment in a state prison for a term of 100 years. The court may not suspend execution or defer imposition of the first 25 years of a sentence of imprisonment imposed under this subsection (5)(a)(i) except as provided in 46-18-222(1) through (5), and during the first 25 years of imprisonment, the offender is not eligible for parole. The exception provided in 46-18-222(6) does not apply.

Section 6. Section 46-18-101, MCA, is amended to read:

“46-18-101. Correctional and sentencing policy. (1) It is the purpose of this section to establish the correctional and sentencing policy of the state of Montana. Laws for the punishment of crime are drawn to implement the policy established by this section.

(2) The correctional and sentencing policy of the state of Montana is to:

(a) punish each offender commensurate with the nature and degree of harm caused by the offense and to hold an offender accountable;

(b) protect the public, reduce crime, and increase the public sense of safety by incarcerating violent offenders and serious repeat offenders;

(c) provide restitution, reparation, and restoration to the victim of the offense; and

(d) encourage and provide opportunities for the offender’s self-improvement to provide rehabilitation and reintegration of offenders back into the community.

(3) To achieve the policy outlined in subsection (2), the state of Montana adopts the following principles:

(a) Sentencing and punishment must be certain, timely, consistent, and understandable.

(b) Sentences should be commensurate with the punishment imposed on other persons committing the same offenses.

(c) Sentencing practices must be neutral with respect to the offender’s race, gender, religion, national origin, or social or economic status.

(d) Sentencing practices must permit judicial discretion to consider aggravating and mitigating circumstances.

(e) Sentencing practices must include punishing violent and serious repeat felony offenders with incarceration.

(f) Sentencing practices must provide alternatives to imprisonment for the punishment of those nonviolent felony offenders who do not have serious criminal records.

(g) Sentencing and correctional practices must emphasize that the offender is responsible for obeying the law and must hold the offender accountable for the offender’s actions.

(h) Sentencing practices must emphasize restitution to the victim by the offender. A sentence must require an offender ~~who is financially able to do so~~ to pay restitution, costs as provided in 46-18-232, costs of assigned counsel, as provided in 46-8-113, and, if the offender is a sex offender, costs of any chemical treatment.

(i) Sentencing practices should promote and support practices, policies, and programs that focus on restorative justice principles.”

Section 7. Section 46-18-242, MCA, is amended to read:

“46-18-242. Investigation and report of victim’s loss. (1) (a) Whenever the court believes that a victim may have sustained a pecuniary loss or whenever the prosecuting attorney requests, the court shall order the probation officer, restitution officer, or other designated person to include in the presentence investigation and report if requested pursuant to 46-18-111:

(a)(i) a list of the offender’s assets; and

(b)(ii) an affidavit that specifically describes the victim’s pecuniary loss and the replacement value in dollars of the loss, submitted by the victim.

(b) *If the court does not order the probation officer, restitution officer, or other designated person to include information about a victim’s pecuniary loss or loss of property in a presentence investigation, nothing precludes the victim from providing that information to the probation officer, restitution officer, or other designated person making the presentence investigation and report.*

(2) When a presentence report is not requested, the court shall accept evidence of the victim’s loss at the time of sentencing.”

Section 8. Section 46-18-246, MCA, is amended to read:

“46-18-246. Waiver or modification of payment. (1) *Except as limited by subsection (2), An* an offender may at any time petition the sentencing court to adjust or otherwise waive payment of any part of any ordered restitution or amount to be paid pursuant to 46-18-241(2)(a).

(2) *A court may not waive or adjust a restitution order within 1 year of imposition of the order or during any period while an offender is in the custody of the department of corrections.*

(3) The court shall schedule a hearing and give a victim to whom restitution was ordered notice of the hearing date, place, and time and inform the victim that the victim will have an opportunity to be heard.

(4) If the court finds that the circumstances ~~upon~~ on which it based the imposition of restitution, amount of the victim’s pecuniary loss, or method or time of payment no longer exist or that it otherwise would be unjust to require payment as imposed, the court may adjust or waive unpaid restitution or the amount to be paid pursuant to 46-18-241(2)(a) or modify the time or method of making restitution.

(5) The court may extend the restitution schedule.”

CHAPTER NO. 464

[HB 587]

AN ACT REVISING MINE RECLAMATION LAWS; REVISING THE DEFINITION OF MATERIAL DAMAGE; CLARIFYING HYDROLOGIC AND GEOLOGIC INFORMATION FOR A PERMIT; PROVIDING RULEMAKING AUTHORITY; AMENDING SECTIONS 82-4-203 AND 82-4-222, MCA; PROVIDING FOR CONTINGENT VOIDNESS; AND PROVIDING AN IMMEDIATE EFFECTIVE DATE AND A RETROACTIVE APPLICABILITY DATE.

Be it enacted by the Legislature of the State of Montana:

Section 1. Section 82-4-203, MCA, is amended to read:

“82-4-203. Definitions. Unless the context requires otherwise, in this part the following definitions apply:

(1) “Abandoned” means an operation in which a mineral is not being produced and that the department determines will not continue or resume operation.

(2) “Adjacent area” means the area outside the permit area where a resource or resources, determined in the context in which the term is used, are or could reasonably be expected to be adversely affected by proposed mining operations, including probable impacts from underground workings.

(3) “Affected drainage basin” means an area of land where surface water and ground water quality and quantity are affected by mining activities and where they drain to a common point.

(4) (a) “Alluvial valley floor” means the unconsolidated stream-laid deposits holding streams where water availability is sufficient for subirrigation or flood irrigation agricultural activities.

(b) The term does not include upland areas that are generally overlain by a thin veneer of colluvial deposits composed chiefly of debris from sheet erosion and deposits by unconcentrated runoff or slope wash, together with talus, other mass movement accumulation, and windblown deposits.

(5) “Amendment” means a change in the mine or reclamation plan that increases the operation’s permitted boundaries. The term includes major revisions but does not include incidental boundary revisions or minor revisions.

(6) “Approximate original contour” means that surface configuration achieved by backfilling and grading of the mined area so that the reclaimed area, including any terracing or access roads, closely resembles the general surface configuration of the land prior to mining and blends into and complements the drainage pattern of the surrounding terrain, with all highwalls, spoil piles, and coal refuse piles eliminated, so that:

(a) the reclaimed terrain closely resembles the general surface configuration if it is comparable to the premine terrain. For example, if the area was basically level or gently rolling before mining, it should retain these features after mining, recognizing that rolls and dips need not be restored to their original locations and that level areas may be increased.

(b) the reclaimed area blends with and complements the drainage pattern of the surrounding area so that water intercepted within or from the surrounding terrain flows through and from the reclaimed area in an unobstructed and controlled manner;

(c) postmining drainage basins may differ in size, location, configuration, orientation, and density of ephemeral drainageways compared to the premining topography if they are hydrologically stable, soil erosion is controlled to the extent appropriate for the postmining land use, and the hydrologic balance is protected; and

(d) the reclaimed surface configuration is appropriate for the postmining land use.

(7) “Aquifer” means any geologic formation or natural zone beneath the earth’s surface that contains or stores water and transmits it from one point to another in quantities that permit or have the potential to permit economic development as a water source.

(8) (a) “Area of land affected” means the area of land from which overburden is to be or has been removed and upon which the overburden is to be or has been deposited.

(b) The term includes:

(i) all land overlying any tunnels, shafts, or other excavations used to extract the mineral;

(ii) lands affected by the construction of new railroad loops and roads or the improvement or use of existing railroad loops and roads to gain access and to haul the mineral;

(iii) processing facilities at or near the mine site or other mine-associated facilities, waste deposition areas, treatment ponds, and any other surface or subsurface disturbance associated with strip mining or underground mining; and

(iv) all activities necessary and incident to the reclamation of the mining operations.

(9) "Bench" means the ledge, shelf, table, or terrace formed in the contour method of strip mining.

(10) "Board" means the board of environmental review provided for in 2-15-3502.

(11) "Coal conservation plan" means the planned course of conduct of a strip- or underground-mining operation and includes plans for the removal and use of minable and marketable coal located within the area planned to be mined.

(12) (a) "Coal preparation" means the chemical or physical processing of coal and its cleaning, concentrating, or other processing or preparation.

(b) The term does not mean the conversion of coal to another energy form or to a gaseous or liquid hydrocarbon, except for incidental amounts that do not leave the plant, nor does the term mean processing for other than commercial purposes.

(13) "Coal preparation plant" means a commercial facility where coal is subject to coal preparation. The term includes commercial facilities associated with coal preparation activities but is not limited to loading buildings, water treatment facilities, water storage facilities, settling basins and impoundments, and coal processing and other waste disposal areas.

(14) "Contour strip mining" means that strip-mining method commonly carried out in areas of rough and hilly topography in which the coal or mineral seam outcrops along the side of the slope and entrance are made to the seam by excavating a bench or table cut at and along the site of the seam outcropping, with the excavated overburden commonly being cast down the slope below the mineral seam and the operating bench.

(15) "Cropland" means land used for the production of adapted crops for harvest, alone or in rotation with grasses and legumes, that include row crops, small grain crops, hay crops, nursery crops, orchard crops, and other similar crops.

(16) "Degree" means a measurement from the horizontal. In each case, the measurement is subject to a tolerance of 5% error.

(17) "Department" means the department of environmental quality provided for in 2-15-3501.

(18) "Developed water resources" means land used for storing water for beneficial uses, such as stockponds, irrigation, fire protection, flood control, and water supply.

(19) "Ephemeral drainageway" means a drainageway that flows only in response to precipitation in the immediate watershed or in response to the melting of snow or ice and is always above the local water table.

(20) "Failure to conserve coal" means the nonremoval or nonuse of minable and marketable coal by an operation. However, the nonremoval or nonuse of minable and marketable coal that occurs because of compliance with reclamation standards established by the department is not considered failure to conserve coal.

(21) "Fill bench" means that portion of a bench or table that is formed by depositing overburden beyond or downslope from the cut section as formed in the contour method of strip mining.

(22) "Fish and wildlife habitat" means land dedicated wholly or partially to the production, protection, or management of species of fish or wildlife.

(23) "Forestry" means land used or managed for the long-term production of wood, wood fiber, or wood-derived products.

(25) "Higher or better uses" means postmining land uses that have a higher economic value or noneconomic benefit to the landowner or the community than the premining land uses.

(26) "Hydrologic balance" means the relationship between the quality and quantity of water inflow to, water outflow from, and water storage in a hydrologic unit, such as a drainage basin, aquifer, soil zone, lake, or reservoir, and encompasses the dynamic relationships among precipitation, runoff, evaporation, and changes in ground water and surface water storage.

(27) "Imminent danger to the health and safety of the public" means the existence of any condition or practice or any violation of a permit or other requirement of this part in a strip- or underground-coal-mining and reclamation operation that could reasonably be expected to cause substantial physical harm to persons outside the permit area before the condition, practice, or violation can be abated. A reasonable expectation of death or serious injury before abatement exists if a rational person, subjected to the same conditions or practices giving rise to the peril, would not willingly be exposed to the danger during the time necessary for abatement.

(28) "Incidental boundary revision" means a change in the permit boundary necessary for reasons unforeseen in the original permit application that is small in relation to the original or amended permit area with insignificant impacts relative to the entire operation.

(29) "Industrial or commercial" means land used for:

(a) extraction or transformation of materials for fabrication of products, wholesaling of products, or long-term storage of products. This includes all heavy and light manufacturing facilities.

(b) retail or trade of goods or services, including hotels, motels, stores, restaurants, and other commercial establishments.

(30) (a) "In situ coal gasification" means a method of in-place coal mining where limited quantities of overburden are disturbed to install a conduit or well and coal is mined by injecting or recovering a liquid, solid, sludge, or gas that causes the leaching, dissolution, gasification, liquefaction, or extraction of the coal.

(b) In situ coal gasification does not include the storage of carbon dioxide in a geologic storage reservoir, the primary or enhanced recovery of naturally occurring oil and gas, or any related process regulated by the board of oil and gas conservation pursuant to Title 82, chapter 11.

(32) "Land use" means specific uses or management-related activities, rather than the vegetative cover of the land. Land uses may be identified in combination when joint or seasonal uses occur and may include land used for support facilities that are an integral part of the land use. Land use categories

include cropland, developed water resources, fish and wildlife habitat, forestry, grazing land, industrial or commercial, pastureland, land occasionally cut for hay, recreation, or residential.

(33) "Major revision" means a change in the mining or reclamation plan that:

(b) adversely affects the reclaimability of the area or the hydrologic balance on or off the permitted area.

(34) "Marketable coal" means a minable coal that is economically feasible to mine and is fit for sale in the usual course of trade.

(35) "Material damage" means:

(a) with respect to ~~protection of the hydrologic balance, degradation or reduction by coal mining and reclamation operations of the quality or quantity of water outside of the permit area in a manner or to an extent that land uses or beneficial uses of water are adversely affected, water quality standards are violated, or water rights are impacted. Violation of a water quality standard, whether or not an existing water use is affected, is material damage~~ *the hydrologic balance outside the permit area, a quantifiable adverse impact from surface coal mining and reclamation operations on the quality or quantity of surface water or ground water that precludes an existing or reasonably foreseeable use of surface water or ground water outside the permit area. A quantifiable adverse impact is an effect that can be quantified and measured to a significant degree of confidence. Existing or reasonably foreseeable uses of surface water or ground water are those beneficial uses recognized in the classification of state waters pursuant to Title 75, chapter 5, part 3.*

(b) *with respect to an alluvial valley floor, degradation or reduction by coal mining and reclamation operations of the water quality or quantity supplied to the alluvial valley floor that significantly decreases the capability of the alluvial valley floor to support agricultural activities; and*

(c) *with respect to subsidence caused by underground coal mining:*

(i) *a functional impairment of surface lands, features, structures, or facilities;*

(ii) *a physical change that has a significant adverse impact on the affected land's capability to support any current or reasonably foreseeable uses or causes significant loss in production or income; or*

(iii) *a significant change in the condition, appearance, or utility of a structure or facility from its presubsidence condition.*

(36) "Method of operation" means the method or manner by which the cut, open pit, shaft, or excavation is made, the overburden is placed or handled, water is controlled, and other acts are performed by the operator in the process of uncovering and removing the minerals that affect the reclamation of the area of land affected.

The term includes expansion into an adjacent permitted area provided the expansion does not significantly increase the impact from either permitted area.

(40) "Operation" means:

(a) all of the premises, facilities, railroad loops, roads, and equipment used in the process of producing and removing mineral from and reclaiming a designated strip-mine or underground-mine area, including coal preparation plants; and

(a) meets the criteria for prime farmland prescribed by the United States secretary of agriculture in the Federal Register; and

(b) historically has been used for intensive agricultural purposes.

(47) "Prospecting" means:

(a) the gathering of surface or subsurface geologic, physical, or chemical data by mapping, trenching, or geophysical or other techniques necessary to determine:

(ii) the location, quantity, or quality of a mineral deposit; or

(b) the gathering of environmental data to establish the conditions of an area before beginning strip- or underground-coal-mining and reclamation operations under this part.

(48) "Reclamation" means backfilling, subsidence stabilization, water control, grading, highwall reduction, topsoiling, planting, revegetation, and other work conducted on lands affected by strip mining or underground mining under a plan approved by the department to make those lands capable of supporting the uses that those lands were capable of supporting prior to any mining or to higher or better uses.

(51) "Reference area" means a land unit maintained under appropriate management for the purpose of measuring vegetation ground cover, productivity, and plant species diversity that are produced naturally or by crop production methods approved by the department. Reference areas must be representative of geology, soil, slope, and vegetation in the permit area.

(52) "Remining" means conducting surface coal mining and reclamation operations that affect previously mined areas (for example, the recovery of additional mineral from existing gob or tailings piles).

(53) "Residential" means land used for single- and multiple-family housing, mobile home parks, or other residential lodgings.

(54) "Restore" or "restoration" means reestablishment after mining and reclamation of the land use that existed prior to mining or to higher or better uses.

(55) (a) "Strip mining" means any part of the process followed in the production of mineral by the opencut method, including mining by the auger method or any similar method that penetrates a mineral deposit and removes mineral directly through a series of openings made by a machine that enters the deposit from a surface excavation or any other mining method or process in which the strata or overburden is removed or displaced in order to recover the mineral.

(b) For the purposes of this part only, strip mining also includes remining and coal preparation.

(c) The terms "remining" and "coal preparation" are not included in the definition of "strip mining" for purposes of Title 15, chapter 35, part 1.

(b) the failure to abate any violation of a permit or of this part because of indifference, lack of diligence, or lack of reasonable care.

(61) "Waiver" means a document that demonstrates the clear intention to release rights in the surface estate for the purpose of permitting the extraction of subsurface minerals by strip-mining methods.

(62) "Wildlife habitat enhancement feature" means a component of the reclaimed landscape, established in conjunction with land uses other than fish and wildlife habitat, for the benefit of wildlife species, including but not limited to tree and shrub plantings, food plots, wetland areas, water sources, rock outcrops, microtopography, or raptor perches.

If so, the applicant shall certify the fact. The information required in this subsection (1)(g) must be updated and approved by the department in the event of a change in the parties specified in this subsection (1)(g)(i) as a result of bankruptcy or reorganization.

If test borings or core samplings are submitted, each permit application must contain two sets of geologic cross sections accurately depicting the known geologic makeup beneath the surface of the affected land. Each set must depict subsurface conditions at intervals the department requires across the surface and must run at a 90-degree angle to the other set. The department may not require intervals of less than 500 feet. Each cross section must depict the thickness and geologic character of all known strata, beginning with the topsoil. In addition, each application for an underground-mining permit must be accompanied by cross sections and maps showing the proposed underground locations of all shafts, entries, and haulageways or other excavations to be excavated during the permit period. These cross sections must also include all existing shafts, entries, and haulageways.

However, this determination is not required until hydrologic information on the general area prior to mining is made available from an appropriate federal or state agency *if the information is available. If the information is not available, the department shall make a determination using hydrologic and geologic information collected by the applicant for the*

purposes of completing the permit application. The permit may not be approved until the information is available and is incorporated into the application. The determination of probable hydrologic consequences must include findings on:

- (i) whether adverse impacts may occur to the hydrologic balance;
- (ii) whether acid-forming or toxic-forming materials are present that could result in the contamination of ground water or surface water supplies;
- (iii) whether the proposed operation may proximately result in contamination, diminution, or interruption of an underground or surface source of water within the proposed permit or adjacent areas that is used for domestic, agricultural, industrial, or other beneficial use; and
- (iv) what impact the operation will have on:
 - (A) sediment yields from the disturbed area;
 - (B) acidity, total suspended and dissolved solids, and other important water quality parameters of local impact;
 - (C) flooding or streamflow alteration;

 - (iii) projected elevations of primary drainageways and associated drainage divides and generalized slopes with the level of detail appropriate to project the approximate original contour;
- (p) the condition of the land to be covered by the permit prior to any mining, including:
 - (i) the land uses existing at the time of the application and, if the land has a history of previous mining, the uses that preceded any mining;
 - (ii) the capability of the land prior to any mining to support a variety of uses, giving consideration to soil characteristics, topography, and vegetative cover; and
 - (iii) the productivity of the land prior to mining, including appropriate classification as prime farm land, as well as the average yield of food, fiber, forage, or wood products from land under high levels of management;
- (q) a coal conservation plan;
- (r) other or further information as the department may require.
- (2) The application for a permit must be accompanied by maps meeting the requirements of subsections (2)(a) through (2)(n). The maps must:
 - (a) identify the area to correspond with the application;
 - (b) show any adjacent deep mining or surface mining, the boundaries of surface properties, and names of owners of record of the affected area and within 1,000 feet of any part of the affected area;

(e) show the date on which the map was prepared and the north point;

(f) show the final surface and underground water drainage plan on and away from the area of land affected. This plan must indicate the directional and volume flow of water, constructed drainways, natural waterways used for drainage, and the streams or tributaries receiving the discharge.

(g) show the proposed location of waste or refuse area;

(h) show the proposed location of temporary subsoil and topsoil storage area;

(i) show the proposed location of all facilities;

(j) show the location of test boring holes;

(k) show the surface location lines of any geologic cross sections that have been submitted;

(l) show a listing of plant species encountered in the area to be affected and their relative dominance in the area, together with an enumeration of tree species and the approximate number of each species occurring per acre on the area to be affected, and the locations generally of the various species of plants;

(m) be certified by a professional engineer or professional land surveyor licensed as provided by Title 37, chapter 67; and

(n) contain other or further information as the department may require.

(3) If the department finds that the probable total annual production at all locations of any strip-mining or underground-coal-mining operation applied for will not exceed 100,000 tons, any determination of probable hydrologic consequences that the department requires and the statement of result of test borings or core samplings must, upon written request of the operator, be performed by a qualified public or private laboratory designated by the department. The department shall assume the cost of the determination and statement to the extent that it has received funds for this purpose.

(4) In addition to the information and maps required by this section, each application for a permit must be accompanied by detailed plans or proposals showing the method of operation, the manner, time or distance, and estimated cost for backfilling, subsidence stabilization, water control, grading work, highwall reduction, topsoiling, planting, and revegetating, and a reclamation plan for the area affected by the operation, which proposals must meet the requirements of this part and rules adopted under this part. The reclamation plan must address the life of the operation and indicate the size, sequence, and the timing of the subareas for which it is anticipated that individual permits will be sought.

(5) Each applicant for a coal mining permit shall submit as part of the application a certificate issued by an insurance company authorized to do business in the state, certifying that the applicant has in force for the strip-mining or underground-mining and reclamation operations for which the permit is sought a public liability insurance policy or evidence that the applicant has satisfied other state or federal self-insurance requirements. This policy must provide for personal injury and property damage protection in an amount adequate to compensate any persons damaged as a result of strip-mining or underground-coal-mining and reclamation operations, including use of explosives, and entitled to compensation under applicable provisions of state law. The permittee shall maintain the policy in full force

and effect during the term of the permit and any renewal until all reclamation operations have been completed.

(6) An applicant may revise an application for a permit, a permit amendment, or a permit revision that is pending on January 1, 2004, in order to incorporate the provisions of this part.

(7) A permittee may apply to revise and the department may approve an application to incorporate the provisions of this part into a reclamation plan approved before January 1, 2004. The reclamation plan may be revised whether or not reclamation has been completed pursuant to the reclamation plan.

(8) Each applicant for a strip-mining or underground-mining reclamation permit shall file a copy of the applicant's application for public inspection with the clerk and recorder at the courthouse of the county in which the major portion of mining is proposed to occur or at another accessible public office or facility approved by the department. (Bracketed language in subsection (1)(g)(iii) terminates on occurrence of contingency--sec. 4, Ch. 484, L. 2019.)"

Section 3. Severability. If a portion of [this act] is invalid, all valid portions that are severable from the invalid portion remain in effect. If a portion of [this act] is invalid in one or more of its applications, the portion remains in effect in all valid applications that are severable from the invalid applications.

Section 4. Contingent voidness. (1) If any provision of [this act] is disapproved by the United States secretary of the interior pursuant to 30 CFR 732, then that portion of [this act] is void.

(2) Within 15 days of the effective date of the disapproval under subsection (1), the department of environmental quality shall notify the code commissioner, certifying that the disapproval under subsection (1) has occurred.

Section 5. Effective date. [This act] is effective on passage and approval.

Section 6. Retroactive applicability. [This act] applies retroactively, within the meaning of 1-2-109, to actions for judicial review or other causes of action challenging the issuance of a permit petition for review, amendment, license, arbitration, action, certificate, or inspection that are pending but not yet decided on or after [the effective date of this act].

Section 2. Section 20-3-302, MCA, is amended to read:

"20-3-302. Legislative intent to elect less than majority of trustees.

(1) It is the intention of the legislature that the terms of a majority of the trustee positions of any district with elected trustees may not regularly expire and be subject to election on the same regular school election day. In elementary districts, there may not be more than three trustee positions in first-class districts, two trustee positions in second-class districts or third-class districts having five trustee positions, or one trustee position in third-class districts having three trustee positions regularly subject to election at the same time. In high school districts there may not be more than two additional trustee positions in first- or second-class districts or more than one in third-class districts regularly subject to election at the same time. In county high school districts, there may not be more than two trustee positions to be filled by members residing in the elementary district where the county high school building is located or more than one trustee position to be filled by members residing outside of the elementary district where the county high school building is located subject to election at the same time.

(2) In the following circumstances relating to newly created trustee positions, the initial terms may be shortened to comply with the intent of subsection (1):

(a) ~~the consolidation~~ *reorganization of school districts* under the provisions of 20-6-423 of ~~two or more elementary districts to form an elementary district, of two or more high school districts to form a high school district, or of two or more K-12 districts to form a K-12 district;~~

(3) If the change of a district's classification under 20-6-201 or 20-6-301 decreases the number of trustee positions, the positions must be eliminated in a manner that complies with the intent of subsection (1).

(4) Although the legislature intends that the terms of a majority of trustees of any district may not regularly expire and be subject to election at the same time, it is recognized that filling a vacancy under 20-3-308 may lead to a subsequent school election in which a majority of trustee positions are subject to election at the same time."

Section 3. Section 20-3-312, MCA, is amended to read:

"20-3-312. Trustees of district affected by boundary change. The trustees of any district to which the territory of another district is attached as a result of annexation, abandonment, territory transfer, or any other method of changing district boundaries, except by the ~~consolidation~~ *reorganization* of districts *under 20-6-423*, continue to be the trustees of the district with the same powers, duties, and responsibilities and subject to the same limitations provided by law as if there had been no boundary change. In the case of district ~~consolidation~~ *reorganization*, the appointed trustees of the resulting district shall assume their trustee positions under the authority of 20-6-423."

Section 4. Section 20-3-342, MCA, is amended to read:

"20-3-342. Determination of terms after consolidation reorganization of elementary districts. Whenever the trustees are elected at one regular school election under the circumstances described in 20-3-302(2)(a), the members who are elected shall draw by lot to determine their terms of office. The terms of office by trustee position must be:

(1) three for 3 years, two for 2 years, and two for 1 year in a first-class elementary district;

(2) two for 3 years, two for 2 years, and one for 1 year in second-class elementary districts and third-class elementary districts having five trustee positions; or

Section 5. Section 20-6-202, MCA, is amended to read:

"20-6-202. Time limitation for boundary changes. An elementary district may not be created and elementary district boundaries may not be changed between the first day of January and the fourth Monday of August of any calendar year except when:

(1) the entire territory of a district is annexed or attached to another district;
(2) the entire territory of the portion of a joint district located in one county is annexed or attached to another district; or

(3) two or more districts are ~~consolidated~~ *reorganized* in their entirety."

Section 6. Section 20-6-314, MCA, is amended to read:

"20-6-314. Time limitations for boundary changes. A high school district may not be created and a high school district boundary may not be changed between the first day of January and the fourth Monday of August of any calendar year except when:

(2) the entire territory or portion of a joint high school district located in one county is annexed or attached to another high school district; or

(3) two or more districts are ~~consolidated~~ *reorganized* in their entirety.”

Section 7. Section 20-6-410, MCA, is amended to read:

“20-6-410. Tenure protected -- hiring preference for employees.

(1) Whenever two or more school districts ~~consolidate~~ *reorganize* or join through annexation to ~~organize into form~~ a single district in the manner provided for in Title 20, chapter 6, a principal, teacher, or other certified employee of the school districts who has a right of tenure under Montana law must be given absolute preference in hiring for the first school fiscal year for any vacant position with the ~~consolidated~~ *reorganized* or enlarged district for which the employee is qualified with the required certification endorsements. Upon acceptance of a position, the certified employee continues to have tenure in the ~~consolidated~~ *reorganized* or enlarged district and the board of trustees of the ~~consolidated~~ *reorganized* or enlarged school district in which the person will perform duties shall recognize and give effect to the right of tenure.

(2) A noncertified, nonprobationary employee of a school district that ~~consolidates~~ *reorganizes* or joins another district through annexation must be given preference in hiring for the first school fiscal year for any vacant position with the ~~consolidated~~ *reorganized* or enlarged district for which the employee has substantially equal qualifications and, upon acceptance of a position, may not be given probationary status.”

Section 8. Section 20-6-411, MCA, is amended to read:

“20-6-411. Bonded indebtedness to remain with original territory except when assumed by election. Whenever district boundaries are changed in any manner prescribed in this title, the existing bonded indebtedness against any district or territory affected by a change of boundaries remains the indebtedness of the original territory against which the bonds were issued and must be paid by levies on the original territory, except when districts are ~~consolidated~~ *reorganized* with the mutual assumption of bonded indebtedness or when a district is annexed with a joint assumption of the annexing district's bonded indebtedness. Any money to the credit of the debt service fund of a district when its boundaries are changed must be used to pay the existing bond principal and interest of the original territory issuing the bonds as it becomes due or for bond redemption under the bonding provisions of this title.”

Section 9. Section 20-6-413, MCA, is amended to read:

“20-6-413. Cash disposition when district ceases to exist -- special levy for tuition debt. Whenever a district ceases to exist in any manner prescribed in this title, except when districts are ~~consolidated~~ *reorganized* under 20-6-423, the cash on hand to the credit of the funds of the district and the debts of the former district must be allocated in the following manner:

(1) Any cash to the credit of the district must be used to pay any debts of the district, including bonded indebtedness, except that any cash available in the debt service fund must be used first to pay bond interest and all outstanding bonds.

(2) If any cash remains to the credit of the district after paying its debts, the cash must be transferred by the county treasurer to the credit of the district or districts assuming its territory. When the territory is assumed by more than one district, the remaining cash must be prorated between the districts on the basis of the taxable value of the territory assumed by each district as determined by the county superintendent.

(3) If any tuition debt remains as an obligation of the district, the tuition debt is the obligation of the taxable property of the discontinued district, except when the tuition debt has been assumed by the ~~consolidated~~ *newly formed* or annexing district. The tuition debt must be financed by a mill levy on the property of the discontinued district and paid from these proceeds by the county superintendent.

(4) If any debts, other than bonded indebtedness and tuition, remain as an obligation of the district after the cash has been utilized under the provisions of subsection (1), the debts must be assigned in the same manner prescribed for the transfer of cash under subsection (2)."

Section 10. Section 20-6-414, MCA, is amended to read:

"20-6-414. Cash disposition when districts ~~consolidated~~ reorganize. Whenever two or more districts are ~~consolidated~~ *reorganized* without the mutual assumption of bonded indebtedness, all cash and debts, other than cash credited to the debt service fund and debts for bonded indebtedness, must be credited or debited to the same types of funds of the ~~consolidated~~ *newly formed* district as the funds from which they were transferred by the county treasurer. In addition, when two or more districts are ~~consolidated~~ *reorganized* with the mutual assumption of bonded indebtedness, the cash credited to the debt service fund and the bonded indebtedness also must be transferred to a similar fund of the ~~consolidated~~ *newly formed* district."

Section 11. Section 20-6-423, MCA, is amended to read:

"20-6-423. District ~~consolidation~~ reorganization. (1) (a) Any two or more contiguous elementary school districts may ~~consolidate to organize an~~ *reorganize to form a single* elementary district.

(b) Any two or more contiguous high school districts may ~~be consolidated to organize a~~ *reorganize to form a single* high school district.

(c) Any two or more contiguous K-12 school districts may ~~be consolidated to organize a~~ *reorganize to form a single* K-12 school district.

(d) *Any two or more school districts may reorganize to form a single K-12 school district.*

(e) ~~The consolidation~~ *reorganization* must be conducted as provided in this section.

(2) (a) A ~~consolidation~~ *reorganization* proposition may be introduced, individually, in each of the districts by either of the two following methods:

(i) the trustees may pass a resolution requesting the county superintendent of the county where the district is located to order an election to consider a ~~consolidation~~ *reorganization* proposition involving their district; or

(ii) not less than 20% of the electors of an individual district who are qualified to vote under the provisions of 20-20-301 may petition the county superintendent of the county where the district is located requesting an election to consider a ~~consolidation~~ *reorganization* proposition involving their district.

(b) (i) ~~The~~ *When two or more districts reorganize under subsections (1)(a) through (1)(c), the* resolution or petition must state whether the ~~consolidation~~ *reorganization* is to be made with or without the joint assumption of the bonded indebtedness of each district by all districts included in the ~~consolidation~~ *reorganization*. The resolution or petition from each district must agree on whether or not there will be joint assumption of bonded indebtedness. Without agreement, the ~~consolidation~~ *reorganization* proposition may not be considered further.

(ii) *When two or more districts reorganize under subsection (1)(d), any bonded indebtedness of a district remains an obligation of the original territory of the district.*

(3) When a county superintendent has received a resolution or a valid petition from each of the districts included in the ~~consolidation~~ *reorganization* proposition, the county superintendent shall, within 10 days after the receipt of the last resolution or petition and as provided by 20-20-201, order the trustees of each district included in the ~~consolidation~~ *reorganization* proposition to call a ~~consolidation~~ *reorganization* election to be held no later than December 31 preceding the school year in which the ~~consolidation~~ *reorganization* is to become effective. If the districts involved in the ~~consolidation~~ *reorganization* proposition are located in more than one county, the county superintendents in both counties shall jointly order the district to call a ~~consolidation~~ *reorganization* election.

(4) Each district, individually, shall call and conduct an election in the manner prescribed in this title for school elections and subject to additional requirements of subsections (5) and (6). Any elector qualified to vote under the provisions of 20-20-301 may vote.

(5) (a) If the districts to be ~~consolidated~~ *reorganized* are to jointly assume the bonded indebtedness of each district involved in the ~~consolidation~~ *reorganization*, the ballots must read, after stating the ~~consolidation~~ *reorganization* proposition, "FOR ~~consolidation~~ *reorganization* with assumption of bonded indebtedness" and "AGAINST ~~consolidation~~ *reorganization* with assumption of bonded indebtedness".

(b) When the trustees in each district conducting an election canvass the vote under the provisions of 20-20-415, they shall determine the number of votes "FOR" and "AGAINST" the proposition.

(c) The proposition is approved in the district if a majority of those voting approve the proposition.

(6) If the districts to be ~~consolidated~~ *reorganized* are not to jointly assume the bonded indebtedness of each district involved in the ~~consolidation~~ *reorganization*, the ballots must read, after stating the ~~consolidation~~ *reorganization* proposition, "FOR ~~consolidation~~ *reorganization* without assumption of bonded indebtedness" and "AGAINST ~~consolidation~~ *reorganization* without assumption of bonded indebtedness". The ~~consolidation~~ *reorganization* proposition is approved by a district if a majority of those voting in a district approve the proposition. Otherwise it is disapproved.

(7) (a) After the county superintendent of each county where a district involved in the ~~consolidation~~ *reorganization* proposition is located has received the election certification provided for in 20-20-416 from the trustees of each district included in a ~~consolidation~~ *reorganization* proposition, the appropriate county superintendent shall determine if the ~~consolidation~~ *reorganization* proposition has been approved in each district. If each district has approved the ~~consolidation~~ *reorganization* proposition, each county superintendent shall, within 10 days after the receipt of the last election certificate, order the ~~consolidation~~ *reorganization* of the districts effective July 1 of the ensuing school fiscal year. The order must:

(i) for ~~consolidation~~ *reorganization* with the joint assumption of bonded indebtedness, specify that there will be joint assumption of bonded indebtedness between the owners of all taxable real and personal property in each district forming the ~~consolidated~~ *reorganized* district;

(ii) specify the number of the ~~consolidated~~ *reorganized* district;

(iii) for a *reorganization* under subsection (1)(d), order any boundary changes necessary to create the K-12 district; and

(iii)(iv) establish an interim board of trustees for the ~~consolidated~~ *reorganized* district as provided in 20-6-424. The trustees shall serve until

their successors are elected at the next succeeding regular school election and qualified.

(b) Each county superintendent shall send a copy of the order to the board of county commissioners of each county where a district involved in the ~~consolidation~~ *reorganization* proposition is located and to the trustees of each district incorporated in the ~~consolidation~~ *reorganization* order.

(8) If any district included in the ~~consolidation~~ *reorganization* proposition disapproves the ~~consolidation~~ *reorganization* proposition, the ~~consolidation~~ *reorganization* of all districts fails and the appropriate county superintendent shall notify each district of the disapproval of the ~~consolidation~~ *reorganization* proposition.”

Section 12. Section 20-6-424, MCA, is amended to read:

“20-6-424. Interim governance of consolidated reorganized district. (1) Upon passage of a ~~consolidation~~ *reorganization* proposition under the provisions of 20-6-423, an interim board of trustees made up of all of the members of the boards of trustees of the districts that ~~consolidated~~ *reorganized* shall serve as the trustees for the ~~consolidated~~ *newly formed* district from the date of the ~~consolidation~~ *reorganization* order until the newly elected board of the ~~consolidated~~ *newly formed* district is organized under 20-3-321. The interim board of trustees shall elect a presiding officer from among its members.

(2) The trustees of each district incorporated in the ~~consolidation~~ *reorganization* order shall continue to perform those duties related to the operation of their individual districts until the effective date of the ~~consolidation~~ *reorganization*. The interim board of trustees shall perform those duties related to the formation of and transition to the ~~consolidated~~ *newly formed* district, including but not limited to:

(a) calling an election of the new board of trustees for the ~~consolidated~~ *newly formed* district to be held on the regular election day preceding the effective date of the ~~consolidation~~ *reorganization*; and

(b) if necessary, calling an election under 20-9-353 for the ensuing budget year of the ~~consolidated~~ *newly formed* district.

(3) At the next regular school election following the ~~consolidation~~ *reorganization* election, trustees for the ~~consolidated~~ *newly formed* district must be elected in accordance with the election provisions of Title 13 and Title 20. The term of office is 3 years, except that the initial terms of the newly elected trustees must be selected by lot in order to comply with the provisions of 20-3-302.

(4) The interim board of trustees must be dissolved upon the organization of the newly elected trustees pursuant to 20-3-321.”

Section 13. Section 20-6-704, MCA, is amended to read:

“20-6-704. Dissolution of K-12 school district. (1) Except as provided in subsection (2), in order to dissolve a K-12 district under the provisions of this section, the trustees of a district shall submit for approval to the electors of the K-12 district a proposition dissolving the K-12 district for the purpose of annexing or ~~consolidating~~ *reorganizing* the K-12 district’s elementary or high school program with a contiguous school district or districts in an ensuing school fiscal year under the provisions of 20-6-422 or 20-6-423.

(2) If the trustees of the school district determine that the creation or continuation of the K-12 district has resulted in or will result in the loss of federal funding for the elementary or high school programs and that it is in the best interest of the district to dissolve into the original elementary district and high school district that existed prior to the formation of the K-12 district, the trustees may dissolve the district under the following procedure:

(a) The trustees of the district shall pass a resolution requesting the county superintendent to order a dissolution of the district.

(b) When the county superintendent receives the resolution from the district, the county superintendent shall, within 10 days, order the dissolution of the K-12 district into the original elementary district and high school district, to take effect on July 1 of the ensuing school fiscal year. Within 30 days of the order, the county superintendent shall send a copy of the order to the board of county commissioners, the trustees of the district, and the superintendent of public instruction.

(3) If the entire territory of the dissolving K-12 district will be annexed to or ~~consolidated~~ *reorganized* with a contiguous district or districts, the resolution or petition required in subsection (1) or (2) must contain a description of the manner in which the real and personal property and funds of the district are to be apportioned in the dissolution of the district and the subsequent annexation to or ~~consolidation~~ *reorganization* with one or more other districts. If a portion of the dissolving K-12 district will not be annexed or ~~consolidated~~ *reorganized* with another district or districts, the resolution or petition must contain a description of the manner in which the property, funds, and financial obligations, including bonded indebtedness, of the K-12 district are to be apportioned to the district or districts whose territory is not annexed to or ~~consolidated~~ *reorganized* with another district.

(4) After the county superintendent receives the certificate of election provided for in 20-20-416 from the trustees of the K-12 district and from each district included in a ~~consolidation~~ *reorganization* proposition, the county superintendent shall determine whether the dissolution and annexation or ~~consolidation~~ *reorganization* proposition or propositions have been approved. If the K-12 district has approved the dissolution proposition and each district involved in a ~~consolidation~~ *reorganization* has approved the ~~consolidation~~ *reorganization* proposition, the county superintendent shall, within 10 days after the receipt of the election certificate, order the dissolution of the K-12 district into the original elementary district and high school district, to take effect on July 1 of the ensuing school fiscal year. Within 30 days of the order, the county superintendent shall send a copy of the dissolution order to the board of county commissioners, the trustees of the district included in the dissolution order, and the superintendent of public instruction.

(5) Whenever a K-12 district is dissolved, the following provisions apply:

(a) The trustees of the district whose territory is not annexed or ~~consolidated~~ *upon reorganized on* dissolution of the K-12 district are responsible for the execution of remaining financial obligations of the K-12 district and for the apportionment between the elementary and high school programs of any obligations not identified in the resolution required under subsection (3).

(b) The provisions of 20-6-410 apply for tenure teachers in the dissolution of a K-12 district.

(c) For purposes of applying the budget limitation provisions of 20-9-308, the budget of a K-12 district during its last year of operations as a K-12 district will be prorated based on rules promulgated by the superintendent of public instruction."

Section 14. Section 20-9-311, MCA, is amended to read:

"20-9-311. Calculation of average number belonging (ANB) – 3-year averaging. (1) Average number belonging (ANB) must be computed for each budget unit as follows:

(a) compute an average enrollment by adding a count of regularly enrolled pupils who were enrolled as of the first Monday in October of the prior school fiscal year to a count of regularly enrolled pupils on the first Monday in

February of the prior school fiscal year or the next school day if those dates do not fall on a school day, and divide the sum by two; and

(b) multiply the average enrollment calculated in subsection (1)(a) by the sum of 180 and the approved pupil-instruction-related days for the current school fiscal year and divide by 180.

(2) For the purpose of calculating ANB under subsection (1), up to 7 approved pupil-instruction-related days may be included in the calculation.

(3) When a school district has approval to operate less than the minimum aggregate hours under 20-9-806, the total ANB must be calculated in accordance with the provisions of 20-9-805.

(4) (a) Except as provided in subsection (4)(d), for the purpose of calculating ANB, enrollment in an education program:

(i) from 180 to 359 aggregate hours of pupil instruction per school year is counted as one-quarter-time enrollment;

(ii) from 360 to 539 aggregate hours of pupil instruction per school year is counted as half-time enrollment;

(iii) from 540 to 719 aggregate hours of pupil instruction per school year is counted as three-quarter-time enrollment; and

(iv) 720 or more aggregate hours of pupil instruction per school year is counted as full-time enrollment.

(b) Except as provided in subsection (4)(d), enrollment in a program intended to provide fewer than 180 aggregate hours of pupil instruction per school year may not be included for purposes of ANB.

(c) Enrollment in a self-paced program or course may be converted to an hourly equivalent based on the hours necessary and appropriate to provide the course within a regular classroom schedule.

(d) A school district may include in its calculation of ANB a pupil who is enrolled in a program providing fewer than the required aggregate hours of pupil instruction required under subsection (4)(a) or (4)(b) if the pupil has demonstrated proficiency in the content ordinarily covered by the instruction as determined by the school board using district assessments. The ANB of a pupil under this subsection (4)(d) must be converted to an hourly equivalent based on the hours of instruction ordinarily provided for the content over which the student has demonstrated proficiency.

(e) (i) Except as provided in subsection (4)(e)(ii), a pupil in kindergarten through grade 12 who is concurrently enrolled in more than one public school, program, or district may not be counted as more than one full-time pupil for ANB purposes. When a pupil is concurrently enrolled in more than one district, any fractional enrollment under subsection (4)(a) must be attributed first to a pupil's nonresident district.

(ii) A pupil who participates in a jumpstart program under Title 20, chapter 7, part 18, may be counted as up to 1 1/4 enrollment for ANB purposes. A district shall add one-quarter enrollment for a pupil who participated in an early literacy jumpstart program to the pupil's regular enrollment count under this subsection (4) in both the October and February enrollment counts following the student's participation in the jumpstart program.

(5) For a district that is transitioning from a half-time to a full-time kindergarten program, the state superintendent shall count kindergarten enrollment in the previous year as full-time enrollment for the purpose of calculating ANB for the elementary programs offering full-time kindergarten in the current year. For the purposes of calculating the 3-year ANB, the superintendent of public instruction shall count the kindergarten enrollment as one-half enrollment and then add the additional kindergarten ANB to the 3-year average ANB for districts offering full-time kindergarten.

(6) When a pupil has been absent, with or without excuse, for more than 10 consecutive school days, the pupil may not be included in the enrollment count used in the calculation of the ANB unless the pupil resumes attendance prior to the day of the enrollment count.

(7) (a) The enrollment of preschool pupils, as provided in 20-7-117, may not be included in the ANB calculations.

(b) Except as provided in subsection (7)(c), a pupil who has reached 19 years of age by September 10 of the school year may not be included in the ANB calculations.

(c) A pupil with disabilities who is over 19 years of age and has not yet reached 21 years of age by September 10 of the school year and who is receiving special education services from a school district pursuant to 20-7-411(4)(a) may be included in the ANB calculations if:

(i) the student has not graduated;

(ii) the student is eligible for special education services and is likely to be eligible for adult services for individuals with developmental disabilities due to the significance of the student's disability; and

(iii) the student's individualized education program has identified transition goals that focus on preparation for living and working in the community following high school graduation since age 16 or the student's disability has increased in significance after age 16.

(d) A school district providing special education services pursuant to subsection (7)(c) is encouraged to collaborate with agencies and programs that serve adults with developmental disabilities in meeting the goals of a student's transition plan.

(8) The average number belonging of the regularly enrolled pupils for the public schools of a district must be based on the aggregate of all the regularly enrolled pupils attending the schools of the district, except that:

(a) the ANB is calculated as a separate budget unit when:

(i) a school of the district is located more than 20 miles beyond the incorporated limits of a city or town located in the district and at least 20 miles from any other school of the district, the number of regularly enrolled pupils of the school must be calculated as a separate budget unit for ANB purposes and the district must receive a basic entitlement for the school calculated separately from the other schools of the district;

(ii) a school of the district is located more than 20 miles from any other school of the district and incorporated territory is not involved in the district, the number of regularly enrolled pupils of the school must be calculated separately for ANB purposes and the district must receive a basic entitlement for the school calculated separately from the other schools of the district;

(iii) the superintendent of public instruction approves an application not to aggregate when geographic barriers exist affecting transportation, such as poor roads, mountains, rivers, or other obstacles to travel, that would result in an unusual hardship to the pupils of the school if they were transported to another school, the number of regularly enrolled pupils of the school must be calculated separately for ANB purposes and the district must receive a basic entitlement for the school calculated separately from the other schools of the district; or

(iv) two or more districts ~~consolidate~~ *reorganize* or annex under the provisions of 20-6-422 or 20-6-423, the ANB and the basic entitlements of the component districts must be calculated separately for a period of 3 years following the ~~consolidation~~ *reorganization* or annexation. Each district shall retain a percentage of its basic entitlement for 3 additional years as follows:

(A) 75% of the basic entitlement for the fourth year;

(B) 50% of the basic entitlement for the fifth year; and

(C) 25% of the basic entitlement for the sixth year.

(b) when a junior high school has been approved and accredited as a junior high school, all of the regularly enrolled pupils of the junior high school must be considered as high school district pupils for ANB purposes;

(c) when a middle school has been approved and accredited, all pupils below the 7th grade must be considered elementary school pupils for ANB purposes and the 7th and 8th grade pupils must be considered high school pupils for ANB purposes; or

(d) when a school has been designated as nonaccredited by the board of public education because of failure to meet the board of public education's assurance and performance standards, the regularly enrolled pupils attending the nonaccredited school are not eligible for average number belonging calculation purposes, nor will an average number belonging for the nonaccredited school be used in determining the BASE funding program for the district.

(9) The district shall provide the superintendent of public instruction with semiannual reports of school attendance, absence, and enrollment for regularly enrolled students, using a format determined by the superintendent.

(10) (a) Except as provided in subsections (10)(b) and (10)(c), enrollment in a basic education program provided by the district through any combination of in-person or remote instruction may be included for ANB purposes only if the pupil is offered access to the complete range of educational services for the basic education program required by the accreditation standards adopted by the board of public education.

(b) Access to school programs and services for a student placed by the trustees in a private program for special education may be limited to the programs and services specified in an approved individual education plan supervised by the district.

(c) Access to school programs and services for a student who is incarcerated in a facility, other than a youth detention center, may be limited to the programs and services provided by the district at district expense under an agreement with the incarcerating facility.

(d) This subsection (10) may not be construed to require a school district to offer access to activities governed by an organization having jurisdiction over interscholastic activities, contests, and tournaments to a pupil who is not otherwise eligible under the rules of the organization.

(11) A district may include only, for ANB purposes, an enrolled pupil who is otherwise eligible under this title and who is:

(a) a resident of the district or a nonresident student admitted by trustees under a student attendance agreement and who is attending a school or an offsite instructional setting of the district;

(b) unable to attend school due to a medical reason certified by a medical doctor and receiving individualized educational services supervised by the district, at district expense, at a home or facility that does not offer an educational program;

(c) unable to attend school due to the student's incarceration in a facility, other than a youth detention center, and who is receiving individualized educational services supervised by the district, at district expense, at a home or facility that does not offer an educational program;

(d) receiving special education and related services, other than day treatment, under a placement by the trustees at a private nonsectarian school or private program if the pupil's services are provided at the district's expense under an approved individual education plan supervised by the district;

(e) participating in the running start program at district expense under 20-9-706;

(f) receiving educational services, provided by the district, using appropriately licensed district staff at a private residential program or private residential facility licensed by the department of public health and human services;

(g) enrolled in an educational program or course provided at district expense using remote delivery methods, including but not limited to tutoring, distance learning programs, online programs, and technology delivered learning programs. The pupil:

(i) must meet the residency requirements for that district as provided in 1-1-215;

(ii) shall live in the district and must be eligible for educational services under the Individuals With Disabilities Education Act or under 29 U.S.C. 794; or

(iii) must be enrolled in the educational program or course under a mandatory attendance agreement as provided in 20-5-321; or

(iv) must be receiving remote instruction under 20-7-118(1)(c).

(h) a resident of the district attending the Montana youth challenge program or a Montana job corps program under an interlocal agreement with the district under 20-9-707.

(12) A district shall, for ANB purposes, calculate the enrollment of an eligible Montana youth challenge program participant as half-time enrollment.

(13) (a) A district may, for ANB purposes, include in the October and February enrollment counts an individual who is otherwise eligible under this title and who during the prior school year:

(i) resided in the district;

(ii) was not enrolled in the district or was not enrolled full time; and

(iii) completed an extracurricular activity with a duration of at least 6 weeks.

(b) (i) Except as provided in subsection (13)(b)(ii), each completed extracurricular activity under subsection (13)(a) may be counted as one-sixteenth enrollment for the individual, but under this subsection (13) the individual may not be counted as more than one full-time enrollment for ANB purposes.

(ii) Each completed extracurricular activity lasting longer than 18 weeks may be counted as one-eighth enrollment.

(c) For the purposes of this section, "extracurricular activity" means:

(i) a sport or activity sanctioned by an organization having jurisdiction over interscholastic activities, contests, and tournaments;

(ii) an approved career and technical student organization, pursuant to 20-7-306; or

(iii) a school theater production.

(14) (a) For an elementary or high school district that has been in existence for 3 years or more, the district's maximum general fund budget and BASE budget for the ensuing school fiscal year must be calculated using the current year ANB for all budget units or the 3-year average ANB for all budget units, whichever generates the greatest maximum general fund budget.

(b) For a K-12 district that has been in existence for 3 years or more, the district's maximum general fund budget and BASE budget for the ensuing school fiscal year must be calculated separately for the elementary and high school programs pursuant to subsection (14)(a) and then combined.

(15) The term "3-year ANB" means an average ANB over the most recent 3-year period, calculated by:

(a) adding the ANB for the budget unit for the ensuing school fiscal year to the ANB for each of the previous 2 school fiscal years; and

(b) dividing the sum calculated under subsection (15)(a) by three.”

Section 15. Section 20-9-502, MCA, is amended to read:

“20-9-502. Purpose and authorization of building reserve fund – subfund structure. (1) The trustees of any district may establish a building reserve fund to budget for and expend funds for any of the purposes set forth in this section. Appropriate subfunds must be created to ensure separate tracking of the expenditure of funds from voted and nonvoted levies and transfers for school safety pursuant to 20-9-236.

(2) (a) A voted levy may be imposed and a subfund must be created with the approval of the qualified electors of the district for the purpose of raising money for the future construction, equipping, or enlarging of school buildings or for the purpose of purchasing land needed for school purposes in the district. In order to submit to the qualified electors of the district a building reserve proposition for the establishment of or addition to a building reserve, the trustees shall pass a resolution that specifies:

(i) the purpose or purposes for which the new or addition to the building reserve will be used;

(ii) the duration of time over which the new or addition to the building reserve will be raised in annual, equal installments;

(iii) the total amount of money that will be raised during the duration of time specified for the levy; and

(iv) any other requirements under 15-10-425 and 20-20-201 for the calling of an election.

(b) Except as provided in subsection (4)(b), a building reserve tax authorization may not be for more than 20 years.

(c) The election must be conducted in accordance with the school election laws of this title, and the electors qualified to vote in the election must be qualified under the provisions of 20-20-301. The ballot for a building reserve proposition must be substantially in compliance with 15-10-425.

(d) The building reserve proposition is approved if a majority of those electors voting at the election approve the establishment of or addition to the building reserve. The annual budgeting and taxation authority of the trustees for a building reserve is computed by dividing the total authorized amount by the specified number of years. The authority of the trustees to budget and impose the taxation for the annual amount to be raised for the building reserve lapses when, at a later time, a bond issue is approved by the qualified electors of the district for the same purpose or purposes for which the building reserve fund of the district was established. Whenever a subsequent bond issue is made for the same purpose or purposes of a building reserve, the money in the building reserve must be used for the purpose or purposes before any money realized by the bond issue is used.

(3) (a) A subfund must be created to account for revenue and expenditures for school major maintenance and repairs authorized under this subsection (3). The trustees of a district may authorize and impose a levy of no more than 10 mills on the taxable value of all taxable property within the district for that school fiscal year for the purposes of raising revenue for identified improvements or projects meeting the requirements of 20-9-525(2). The 10-mill limit under this subsection (3) must be calculated using the district’s total taxable valuation most recently certified by the department of revenue under 15-10-202. The amount of money raised by the levy, the deposits and transfers authorized under subsection (3)(f) of this section, and anticipated state aid pursuant to 20-9-525(3) may not exceed the district’s school major maintenance

amount. For the purposes of this section, the term “school major maintenance amount” means the sum of \$15,000 and the product of \$110 multiplied by the district’s budgeted ANB for the prior fiscal year. To authorize and impose a levy under this subsection (3), the trustees shall:

(i) following public notice requirements pursuant to 20-9-116, adopt no later than March 31 of each fiscal year a resolution:

(A) identifying the anticipated improvements or projects for which the proceeds of the levy, the deposits and transfers authorized under subsection (3)(f) of this section, and anticipated state aid pursuant to 20-9-525(3) will be used; and

(B) estimating a total dollar amount of money to be raised by the levy, the deposits and transfers authorized under subsection (3)(f) of this section, anticipated state aid pursuant to 20-9-525(3), and the resulting estimated number of mills to be levied using the district’s taxable valuation most recently certified by the department of revenue under 15-10-202; and

(ii) include the amount of any final levy to be imposed as part of its final budget meeting noticed in compliance with 20-9-131.

(b) Proceeds from the levy may be expended only for the purposes under 20-9-525(2), and the expenditure of the money must be reported in the annual trustees’ report as required by 20-9-213.

(c) Whenever the trustees of a district impose a levy pursuant to this subsection (3) during the current school fiscal year, they shall budget for the proceeds of the levy, the deposits and transfers authorized under subsection (3)(f) of this section, and anticipated state aid pursuant to 20-9-525(3) in the district’s building reserve fund budget. Any expenditures of the funds must be made in accordance with the financial administration provisions of this title for a budgeted fund.

(d) When a tax levy pursuant to this subsection (3) is included as a revenue item on the final building reserve fund budget, the county superintendent shall report the levy requirement to the county commissioners by the later of the first Tuesday in September or within 30 calendar days after receiving certified taxable values and a levy on the district must be made by the county commissioners in accordance with 20-9-142.

(e) A subfund in the building reserve fund must be created for the deposit of proceeds from the levy, the deposits and transfers authorized under subsection (3)(f) of this section, and anticipated state aid pursuant to 20-9-525(3).

(f) If the imposition of 10 mills pursuant to subsection (3)(a) is estimated by the trustees to generate an amount less than the maximum levy revenue specified in subsection (3)(a), the trustees may deposit additional funds from any lawfully available revenue source and may transfer additional funds from any lawfully available fund of the district to the subfund provided for in subsection (3)(a), up to the difference between the revenue estimated to be raised by the imposition of 10 mills and the maximum levy revenue specified in subsection (3)(a). The district’s local effort for purposes of calculating its eligibility for state school major maintenance aid pursuant to 20-9-525 consists of the combined total of funds raised from the imposition of 10 mills and additional funds raised from deposits and transfers in compliance with this subsection (3)(f).

(4) (a) A voted levy may be imposed and a subfund must be created with the approval of the qualified electors of the district to provide funding for transition costs incurred when the trustees:

- (i) open a new school under the provisions of Title 20, chapter 6;
- (ii) close a school;
- (iii) replace a school building;

(iv) ~~consolidate~~ *reorganize* with or annex another district under the provisions of Title 20, chapter 6; or

(v) receive approval from voters to expand an elementary district into a K-12 district pursuant to 20-6-326.

(b) Except as provided in subsection (4)(c), the total amount the trustees may submit to the electorate for transition costs may not exceed the number of years specified in the proposition times the greater of 5% of the district's maximum general fund budget for the current year or \$250 per ANB for the current year. The duration of the levy for transition costs may not exceed 6 years.

(c) If the levy for transition costs is for ~~consolidation~~ *reorganization under 20-6-423 or annexation under 20-6-422*:

(i) the limitation on the amount levied is calculated using the ANB and the maximum general fund budget for the districts that are being combined; and

(ii) the proposition must be submitted to the qualified electors in the combined district.

(d) The levy for transition costs may not be considered as outstanding indebtedness for the purpose of calculating the limitation in 20-9-406.

(5) (a) A subfund in the building reserve fund must be created for:

(4) The elector shall mark the ballot and place it in a secrecy envelope.

(5) (a) The elector shall then place the secrecy envelope containing the elector's ballot in a signature envelope and mail it or deliver it in person to a place of deposit designated by the election administrator.

The national average drug acquisition cost price must be the price published in effect for the day the drug claim was billed by the pharmacy.*

(b) *In the event that a particular drug does not have a published national average drug acquisition price, the reimbursement to independent pharmacies must be:*

CHAPTER NO. 475

[HB 808]

AN ACT PROVIDING FOR THE MONTANA BROWNFIELDS REVITALIZATION ACT; PROVIDING DEFINITIONS; AUTHORIZING THE MONTANA BROWNFIELDS FUND; PROVIDING FOR BROWNFIELD REDEVELOPMENT VIABILITY AND ELIGIBILITY; PROVIDING RULEMAKING AUTHORITY; ELIMINATING THE MONTANA PETROLEUM BROWNFIELDS REVITALIZATION ACT; PROVIDING FOR A TRANSFER OF GENERAL FUNDS; PROVIDING A STATUTORY APPROPRIATION; AMENDING SECTIONS 17-7-502 AND 75-11-309, MCA; AND REPEALING SECTIONS 75-11-401, 75-11-402, 75-11-403, 75-11-407, 75-11-408, AND 75-11-409, MCA.

Be it enacted by the Legislature of the State of Montana:

Section 1. Short title. [Sections 1 through 8] may be cited as the "Montana Brownfields Revitalization Act".

Section 2. Findings and intent – purposes. The legislature finds that:

(1) real properties exist across the state where the stigma of hazardous substance and petroleum contamination hinders the development or best use of the property. These properties may be eligible for brownfields funding.

(2) the assessment and cleanup of hazardous substance and petroleum brownfields sites should be encouraged and facilitated to reduce threats to human health and the environment, prepare properties for reuse and redevelopment, and return property to the local tax rolls;

(3) the petroleum tank release cleanup fund established in 75-11-313 does not immediately address all petroleum tank release sites in Montana;

(4) not all sites impacted by hazardous substances are assessed or cleaned up by the Comprehensive Environmental Cleanup and Responsibility Act in chapter 10, part 7, of this title or the federal Comprehensive Environmental Response, Compensation, and Liability Act of 1980, 42 U.S.C. 9601, et seq.

Section 3. Definitions. (1) The definitions used in [sections 1 through 8] are for the purpose of determining the eligibility of sites to receive and

expend federal brownfields funding received by a grant recipient from the United States environmental protection agency under the federal Brownfields Revitalization and Environmental Restoration Act of 2001, Title II of Public Law 107-118.

(2) As used in [sections 1 through 8] unless the context clearly indicates otherwise, the following definitions apply:

(a) "Brownfield site" means an abandoned, idle, blighted, or underutilized property, for which the expansion, redevelopment, or reuse of may be complicated by the presence or potential presence of hazardous substances, pollutants, or contaminants.

(b) "Brownfields redevelopment" means any work or undertaking by a person to acquire a brownfield site and to raze, demolish, remove, reconstruct, renovate, or rehabilitate the site or existing buildings, structures, or other improvements at the site for the purpose of promoting the use of the site for residential, commercial, industrial, or other purposes. The term does not include construction of new facilities on the site for any purpose other than environmental remediation activities.

(c) "Department" means the department of environmental quality provided for in 2-15-3501.

(d) "Eligible entity" means a city, town, county, consolidated city-county, tribal government, economic development organization, nonprofit organization, or state agency that has received federal brownfields funding from the environmental protection agency or other state agency.

(e) "Environmental remediation activities" means:

(i) investigation, analysis, and monitoring of a brownfields site to determine the existence and extent of actual or potential environmental pollution;

(ii) redevelopment planning; or

(iii) abatement, removal, or containment of environmental pollution at a brownfields site.

(f) "Hazardous substance" has the same meaning as provided in 75-10-602.

(g) "Petroleum" or "petroleum product" has the same meaning as provided in 75-11-302.

(h) "Petroleum tank release site" means a site where there has been a release from a petroleum storage tank and assessment or remediation, or both, are being pursued in accordance with Title 75, chapter 11, part 3.

(i) "Reasonable steps" means, as appropriate, stopping continuing releases, preventing threatened future releases, or preventing or limiting human, environmental, or natural resource exposure to previous petroleum, petroleum product, or hazardous substance releases. The term may include limiting access to the property, monitoring known contaminants, and complying with state, local, or both state and local requirements.

(j) "Responsible party" means:

(i) a person responsible for conducting the assessment, investigation, and cleanup at a brownfield site as determined through:

(A) a judgment rendered in a court of law or an administrative order;

(B) an enforcement action by federal authorities or the department; or

(C) a citizen suit, contribution action, or other third-party claim brought against the current owner of a brownfield site; or

(ii) a current owner of a brownfield site who:

(A) dispensed or disposed of petroleum or petroleum product or hazardous substance contamination at the site;

(B) exacerbated existing contamination at the site;

(C) owned the site when any dispensing or disposal of petroleum or hazardous substances by others took place; or

(D) failed to take reasonable steps with regard to contamination at the site.

(k) “Viable responsible party” means a responsible party determined by the department to have the financial capability to conduct environmental remediation activities at a brownfield site.

Section 4. Viability at a petroleum release site. (1) For the purpose of determining the viability of a responsible party at a brownfield site where petroleum contamination is the predominant contaminant, the department shall presume that:

(a) ongoing businesses or companies and government entities are viable unless there is information suggesting that the presumption is not appropriate, and the department determines the information is sufficient to rebut the presumption in a particular case; and

(b) individuals and defunct or insolvent companies are not viable unless there is information suggesting that the presumption is not appropriate, and the department determines the information is sufficient to rebut the presumption in a particular case.

(2) The department may not determine that a responsible party is viable based solely on the fact that the owner or operator of a petroleum tank release site is eligible to be reimbursed by the petroleum tank release compensation board established in 2-15-2108 from the petroleum tank release cleanup fund established in 75-11-313.

(3) It is an applicant’s responsibility to provide the department with sufficient financial information about a responsible party identified in a petroleum brownfields site eligibility application to determine whether the responsible party is a viable responsible party.

Section 5. Eligibility for brownfields funding – determination and limitations. (1) Before an eligible entity may expend federal brownfields funds at a brownfield site, either the United States environmental protection agency or the department shall make a written determination that:

(a) there is no viable responsible party for the contamination as determined pursuant to [section 4];

(b) the brownfield site will not be assessed, investigated, or cleaned up by a responsible party; and

(c) the brownfield site is not subject to an order under section 9003(h) of the federal Solid Waste Disposal Act, 42 U.S.C. 6991b(h), or Title 75, chapter 11.

(2) After the department or the United States environmental protection agency determines that a brownfield site is eligible for federal brownfields funding, the department shall encourage and may not limit the use of an eligible entity’s federal brownfields funding at the site even if the site owner or operator, as defined in 75-11-302, is eligible for funding from the petroleum tank release cleanup fund established in 75-11-313.

(3) The department may not limit the use of money from the petroleum tank release cleanup fund established in 75-11-313 when used as a commitment to a federal brownfields loan to an eligible entity for remediation of petroleum at a brownfield site.

(4) (a) Except as provided in subsection (4)(b), a determination made by the department or the United States environmental protection agency that a brownfield site is eligible for federal brownfields funding does not limit or alter the responsible party’s, owner’s, or operator’s responsibility to assess or remediate:

(i) a petroleum or hazardous substance release in accordance with Title 75, chapter 11; or

(ii) a liability at a facility subject to the Comprehensive Environmental Cleanup and Responsibility Act in accordance with Title 75, chapter 10.

(b) The department shall approve a comprehensive remediation plan and allow for the use of federal brownfields funding at the brownfield site if

the department determines that an eligible entity has proposed to conduct timely and comprehensive environmental remediation activities using federal brownfields funding at a brownfield site that:

(i) is eligible for brownfield funding as determined by the department or U.S. environmental protection agency;

(ii) proposes a remediation plan of environmental remediation activities that meets or exceeds department remediation standards; and

(iii) meets or exceeds financial commitments required by the petroleum tank release compensation board pursuant to Title 75, chapter 11, part 3.

Section 6. Site access. Upon presentation of the proper credentials, an authorized representative of the department may enter any building, property, premises, place, or facility where brownfield redevelopment or environmental remediation activities are being performed or have been performed for the purpose of making an inspection to ensure compliance by any person pursuant to the provisions of [sections 1 through 8] or rules promulgated pursuant to [sections 1 through 8].

Section 7. Rulemaking authority. The department may adopt rules to implement the provisions of [sections 1 through 8] and to:

(1) prescribe the form and content of applications for assistance from the brownfields site redevelopment fund;

(2) apply eligibility criteria for awarding assistance from the brownfields site redevelopment fund;

(3) establish additional terms and conditions for assistance from the brownfields site redevelopment fund;

(4) establish maximum amounts for an individual award of assistance from the brownfields site redevelopment fund, if considered appropriate and necessary for the successful administration of the program;

(5) ensure compliance of the program with the provisions of the Small Business Liability Relief and Brownfields Revitalization Act, Public Law 107-118, and rules promulgated under the act unless these matters are specifically governed by [sections 8]; and

(6) maintain the financial integrity of the program.

Section 8. Brownfields site redevelopment fund – statutory appropriation. (1) It is the intent of the brownfield program to strengthen communities throughout this state and to promote economic development by encouraging environmental remediation activities and brownfields redevelopment of properties blighted by real or perceived contamination.

(2) The brownfields site redevelopment fund is an account in the state special revenue fund for assessment and cleanup of brownfield sites.

(3) The money in the account:

(a) may be deposited through an allocation of money.

(b) must be deposited through money received by the department in the form of legislative appropriations, reimbursements, gifts, or donations from any source that is intended to be used for the purposes of this account.

(5) Any unspent or unencumbered money in the account at the end of a fiscal year must remain in the account.

(6) Interest income on the account must be deposited and remain in the account.

A plan finally approved by the department through any process provided in this subsection (1)(d) is the approved corrective action plan.

(iii) After the department approves a corrective action plan, a local government, or a tribal government, or the board may not impose different corrective action requirements on the owner or operator.

(iv) If the department determines that an owner or operator is failing to properly implement a corrective action plan, it shall notify the board.

(j) The owner or operator shall document, in the manner required by the board, any payments to a third party for bodily injury or property damage caused by a release. The owner or operator shall submit claims and substantiating documents to the board in the form and manner required by the board.

Upon a

written determination by the department that the owner or operator has returned to compliance with the requirements of Title 75, chapter 11, part 5, or rules adopted pursuant to Title 75, chapter 11, part 5, suspended and future claims may be reimbursed according to criteria established by the board. In establishing the criteria, the board shall consider the effect and duration of the noncompliance.

(3) The board shall review each claim received under subsections (1)(i) and (1)(j), make the determination required by this subsection, inform the owner or operator of its determination, and, as appropriate, reimburse the owner or operator from the fund. Before approving a reimbursement, the board shall affirmatively determine that:

(a) the expenses for which reimbursement is claimed:

(i) are eligible costs; and

(ii) were actually, necessarily, and reasonably incurred for the preparation or implementation of a corrective action plan approved by the department or for payments to a third party for bodily injury or property damage; and

(b) the owner or operator:

(i) is eligible for reimbursement under 75-11-308; and

(ii) has complied with this section and any rules adopted pursuant to this section. Upon a determination by the board that the owner or operator has not complied with this section or rules adopted pursuant to this section, all reimbursement of pending and future claims must be suspended. Upon a determination by the board that the owner or operator has returned to compliance with this section or rules adopted pursuant to this section, suspended and future claims may be reimbursed according to criteria established by the board. In establishing the criteria, the board shall consider the effect and duration of the noncompliance.

(4) (a) If an owner or operator disagrees with a board determination under subsection (3), the owner or operator may submit a written request for a hearing before the board.

The notice of determination must advise the owner or operator of the 120-day time limit for submitting a written request for a hearing to the board. Not less than 50 days or more than 60 days after the board serves the notice of determination, the board shall serve on the owner or operator a second notice by certified mail advising the owner or operator of the deadline for requesting a hearing. Service by certified mail is complete on the date shown on the certified mail receipt.

(c) If a written request is received within 120 days, the hearing must be held at a meeting of the board or as otherwise permitted under the Montana Administrative Procedure Act no later than 120 days following receipt of the request or at a time mutually agreed to by the board and the owner or operator.

(d) If a written request is not received within 120 days, the determination of the board is final.

(5) The board shall obligate money for reimbursement of eligible costs of owners and operators in the order that the costs are finally approved by the board.

(6) (a) The board may, at the request of an owner or operator, guarantee in writing the reimbursement of eligible costs that have been approved by the board but for which money is not currently available from the fund for reimbursement.

(b) The board may, at the request of an owner or operator, guarantee in writing reimbursement of eligible costs not yet approved by the board,

including estimated costs not yet incurred. A guarantee for payment under this subsection (6)(b) does not affect the order in which money in the fund is obligated under subsection (5).

(c) When considering a request for a guarantee of payment, the board may require pertinent information or documentation from the owner or operator. The board may grant or deny, in whole or in part, any request for a guarantee.”

(1) Except as provided in 69-3-308, a change may not be made in any schedule, including schedules of joint rates, except as approved by the commission, ~~upon or on the passage of 9 months; or by operation of 69-3-907(1).~~ If the 9-month time period expires prior to commission approval of a schedule, a utility may waive the time period.

(2) Notwithstanding any provision of this title to the contrary, other than rate adjustments made pursuant to 69-3-308, the rates, tolls, or charges set forth in any schedule filed with the commission pursuant to 69-3-301 must become effective and be lawful rates, tolls, or charges for the utility service rendered 9 months after the date upon which the schedule was filed under the rules of practice and procedure for filing as adopted by the commission or upon commission approval, whichever occurs first, unless the utility waives the 9-month time period. However, if the rates, tolls, or charges become effective because of the passage of 9 months, the revenue collected is subject to rebate, plus interest at an annual rate determined by the commission, to the extent that the rates, tolls, or charges ultimately approved by the commission in its final decision produce revenue that is less than that collected under the filed schedules. In the case of an investor-owned utility, the interest rate set by the commission may not exceed the cost of equity capital as last determined by the commission.

(3) The commission may prescribe rules necessary to effectively administer this section.”

Section 5. Section 69-3-305, MCA, is amended to read:

“69-3-305. Deviations from scheduled rates, tolls, and charges.

(1) Except as provided in subsection ~~(5)(a)~~ (4)(a), a public utility may not:

(a) charge, demand, collect, or receive a greater or less compensation for a utility service performed by it within the state or for any service in connection

with a utility service than is specified in the printed schedules, including schedules of joint rates, that may at the time be in force;

(b) demand, collect, or receive a rate, toll, or charge not specified in the schedules; or

(c) grant a rebate, concession, or special privilege to a consumer or user that, directly or indirectly, has or may have the effect of changing the rates, tolls, charges, or payments.

(2) The rates, tolls, and charges named in the printed schedules are the lawful rates, tolls, and charges until the rates, tolls, and charges are changed, as provided in this chapter.

(3) The commission may order refunds or credits of rates, tolls, or charges collected in violation of this section and may order payment of interest at a reasonable rate on the refunded amount.

~~(4) The provisions of this section do not prohibit the sharing of profits or revenues with customers in conjunction with an alternative form of regulation approved under 69-3-809.~~

(5)(4) (a) A provider of regulated telecommunications service may offer, for a limited period of time, rebates, price reductions, or waivers of charges in conjunction with promotions, market trials, or other sales-related activities that are common business practices. Promotional pricing for services to end users does not require advance approval of the commission. Informational price lists must be filed with the commission on or before the date that the promotion begins.

(b) A public utility providing electricity or natural gas may offer grants and subsidized loans to install energy conservation and nonfossil forms of energy generation systems in dwellings.

(c) The commission may define the appropriate scope of promotions, rebates, market trials, and grants and subsidized loans, either by rule or in response to complaints. The commission may determine whether a particular sales activity or grant or subsidized loan program under this subsection (4) is unfairly discriminatory or is not cost-effective. Costs and expenses incurred or revenue foregone with respect to sales activities and grant and subsidized loan programs that the commission determines are unfairly discriminatory or not cost-effective are the responsibility of the provider's shareholders in rates set by the commission.

~~(6)(5)~~ A public utility violating the provisions of this section is subject to the penalty prescribed in 69-3-206. However, this does not have the effect of suspending, rescinding, invalidating, or in any way affecting existing contracts."

(2) Subject to any statutory provision establishing stricter limitations, only active or vested inactive members are eligible to purchase or transfer service credit, membership service, or contributions or to redeposit amounts withdrawn under 19-2-602.

(3) An eligible member who wishes to redeposit amounts withdrawn under 19-2-602 or who is eligible to purchase service credit as provided by the statutes governing the retirement system to which the member belongs may elect to make a lump-sum payment by personal check or rollover of funds from

another eligible plan, to make installment payments, or to make a combination of a lump-sum payment and installment payments.

(4) Installment payments must be made by personal check paid directly to the board unless the member elects to make payments by irrevocable payroll deduction. The minimum installment period for payments is 3 months, and the maximum installment period is 5 years. *If a member making installment payments by personal check ceases to make those payments, the board shall prorate the service credit based on the amount paid.*

(5) To elect installment payments by irrevocable payroll deduction, the member shall file with the board and the member's employer an irrevocable, written application and authorization for payroll deductions. The application and authorization:

(a) must be signed by the member and the member's employer;

(b) must specify the dollar amount of each deduction and the number of deductions to be made, subject to any maximum amounts or duration established by state or federal law;

(c) may not give the member the option of receiving the deduction amounts directly instead of having them paid by the employer to the board; and

(d) must specify that the additional contributions being picked up, although designated as employee contributions, are being paid by the employer directly to the board in lieu of contributions paid directly by the employee.

(6) If the board notifies the employer that a proper written application and authorization has been filed with the board, the employer shall initiate the payroll deduction as follows:

(a) An employer shall pick up the member's elective additional contributions made pursuant to a payroll deduction authorization. (c) The member may not choose to receive the contributed amounts directly instead of having them paid by the employer to the board.

(d) The effective date of the employer pickup and payment pursuant to this section is the date on which the employee's additional contribution is first deducted from the employee's compensation. However, the effective date may not be prior to the date that the member properly completes the written application and authorization for payroll deductions and files it with the board. (e) Installment payments initiated by contract prior to July 1, 1999, may be paid by payroll deduction only if the member files a written application and authorization for payroll deductions pursuant to this section. If the member does not file a written application and authorization for payroll deductions pursuant to this section, the installment contract payments agreed to by the member must be paid by the member directly to the board.

(f) A member may file more than one irrevocable payroll deduction agreement and authorization as long as a subsequent deduction authorization does not amend a previous irrevocable authorization. A member may not prepay an amount under an irrevocable payroll deduction agreement without terminating employment, except when a member becomes a member of another

retirement system by an authorized election and the service purchase is in accordance with 19-2-715.

(7) If a member terminates employment or dies before completing all payments required by a payroll deduction authorization filed pursuant to this section, the deduction authorization expires and the board shall prorate the service credit based on the amount paid unless further payment is made as provided in this subsection. In the case of a termination from employment, the member may make a lump-sum payment for up to the balance of the service credit remaining to be purchased, subject to the limitations of section 415 of the Internal Revenue Code. In the case of death of the member, the payment may be made from the member's estate subject to the limitations of section 415 of the Internal Revenue Code."

However, until the new membership form is filed, the board shall reference the membership form executed by the person prior to initial termination of membership for the same purposes as prior to termination. Beneficiaries designated on that membership form continue to be beneficiaries until the new membership form is filed.

(4) (a) Except as provided in subsections (4)(b) and (4)(c), the beneficiary designation on the most recent membership form filed with the board is effective for all purposes until the member retires.

(b) A member may elect to either override or retain the member's existing beneficiary designation when completing a membership form for temporary or secondary employment with another employer within the same Title 19 retirement system.

(c) When a member retires, the designated beneficiaries or contingent annuitants named on the retirement application become effective.

(5) If a statutory or designated beneficiary predeceases the member or payment recipient, the predeceased beneficiary's share must be paid to the remaining statutory or designated beneficiaries in amounts proportional to each remaining statutory or designated beneficiary's original share.

(6) A statutory or designated beneficiary who renounces an interest in the payment rights of a member or payment recipient will be considered, with respect to that interest, as having predeceased the member or payment recipient.

Section 12. Section 19-3-505, MCA, is amended to read:

"19-3-505. Purchase of previous employment with employer.

(1) Subject to the provisions of this section, a member who has employment for which optional membership was declined or employment with an employer prior to the employer's contract coverage may file a written application with the board to purchase all or a portion of the employment for service credit and membership service. The application must include salary information certified by the member's employer or former employer.

(2) (a) A purchase under this section is subject to the board's approval.

(b) If the board approves the request, the member shall pay all contributions that the member would have contributed during the period of employment as if the employment had been covered by the retirement system and shall pay ~~the regular interest that would have accumulated on the amount to the time of payment~~ *interest at the actuarially assumed rate of return in effect at the time of the request.*

(c) The employer shall establish a policy as to the payment of retroactive employer contributions or retroactive employer contributions and regular interest and apply this policy indiscriminately for all employees and former employees. All employee appeals of discrimination are subject to the determination of the board. All successful appeals obligate the employer to pay the employer and employee contributions with accrued interest for that employee filing the appeal with the board. Each appeal must be heard on

its individual merits and may not bind the employer to pay all retroactive payments for all former and present employees.

(d) If the employer establishes a policy under subsection (2)(c) of nonpayment, the member shall pay the amount not paid by the employer in order to receive service credit and membership service for the period of employment.”

Section 13. Section 19-3-1103, MCA, is amended to read:

“19-3-1103. Disability benefit reduced by earnings. (1) (a) If the recipient of a disability retirement benefit is self-employed or employed in a position not covered by the retirement system, the recipient shall submit to the board an annual earnings statement, and any other documentation requested by the board, covering each month during which the recipient was self-employed or employed in the position.

(b) The amount of the recipient's retirement benefit ~~for each month of employment~~ must be reduced *annually* to an amount that, when added to the compensation earned by the recipient in that occupation, does not exceed the ~~amount of the recipient's monthly~~ *highest average* compensation at the time of the recipient's retirement.

(c) The board shall annually adjust the recipient's ~~monthly~~ *highest average* compensation as it was at the time of retirement by an inflationary factor *equivalent to the consumer price index for all urban consumers* if the recipient has been receiving a disability retirement benefit for more than 36 consecutive months.

(d) If the disability benefit recipient fails to submit the documentation as required under subsection (1)(a), the board may suspend the benefit payments until it receives the documentation.

(2) Benefit adjustments granted by the legislature may not be included in calculations required under this section.”

The retirement benefit for any retiree exceeding this 960-hour limitation in any calendar year after retirement must be temporarily reduced \$1 for each \$1 earned after working 960 hours in that calendar year.

(2) A retired member who is 65 years of age or older but less than 70 1/2 years of age, who has been terminated from employment for at least 90 days, and who returns to employment covered by the retirement system is either subject to the 960-hour limitation of subsection (1) or may earn in any calendar year an amount that, when added to the retiree's current annual retirement benefit, will not exceed the member's annualized highest average compensation, adjusted for inflation as of January 1 of the current calendar year, whichever limitation provides the higher limit on earned compensation to the retiree. Upon reaching the applicable limitation, the retiree's benefits must be temporarily reduced \$1 for each \$1 of compensation earned in service beyond the applicable limitation during that calendar year.

(3) (a) The employer of a retiree returning to employment covered by the retirement system shall certify to the board the number of hours worked by the retiree and the gross compensation paid to the retiree in that employment during any pay period after retirement. The certification of hours and

compensation may be submitted electronically pursuant to rules adopted by the board.

(b) An employer that fails to timely or accurately report the employment of, time worked by, or compensation paid to a retired member as required under subsection (3)(a) is jointly and severally liable with the retired member for repayment to the retirement system of retirement benefits paid to which the member was not entitled, plus interest.

(4) Except as provided in 19-3-412 and 19-3-413, a retiree returning to employment covered by the retirement system may elect to return to active service at any time during this period of employment covered by the retirement system.

(6) If a retired member is employed by an employer in a position that is reportable to the retirement system and the retired member is concurrently working for the employer in another position that is not reportable to the system, the position that is not reportable is considered to be part of the position that is reportable to the retirement system. All earnings of the retired member that are generated by these positions are reportable to the retirement system.

(7) (a) For the purposes of this section, “employment covered by the retirement system” includes:

(i) work performed by a retiree through a professional employer arrangement, an employee leasing arrangement, or a temporary service contractor as those terms are defined in 39-8-102; and

(ii) services performed by a retiree as an independent contractor for an employer participating in the system.

CHAPTER NO. 478

[HB 70]

AN ACT REQUIRING A STUDY OF STATE FIRE SUPPRESSION ISSUES, METHODS, AND COSTS; PROVIDING AN APPROPRIATION; ESTABLISHING REPORTING REQUIREMENTS; PROVIDING FOR CONTINGENT VOIDNESS; AND PROVIDING AN IMMEDIATE EFFECTIVE DATE AND A TERMINATION DATE.

WHEREAS, since the destructive Big Burn of 1910, federal wildfire policy has been to suppress fires at all costs, resulting in forests that are overstocked with fuel; and

WHEREAS, wildfires now consume twice as much land each year on average than in the 1990s, a trend expected to continue; and

WHEREAS, more than one-third of Montana homes are exposed to moderate to high wildfire risk; and

WHEREAS, a variety of factors have exacerbated the risks, including regulatory red tape, incomplete government partnerships, unexplored economic benefits, and unrecognized risk sharing; and

WHEREAS, environmental reviews, endangered species concerns, and pernicious litigation prevent necessary mechanical treatment and prescribed burns, which could lessen ladder and canopy fuels, reduce fuel loads, and improve habitat; and

WHEREAS, profitable markets for shrubs and small-diameter trees may be developed in engineered-wood plants to produce oriented-strand board, biochar, or wood chips; and

WHEREAS, use of prescribed fires as a management tool should be encouraged, perhaps as a recognized property right, expanded liability protections, or certified burning; and

WHEREAS, controlled livestock grazing can be an effective tool for managing fuel loads; and

WHEREAS, as the number of homes in areas with moderate or high wildfire risk has doubled since 1990, volunteer, local, state, and federal authorities are faced with protecting these structures; and

WHEREAS, improved cooperation between states, tribes, and counties can together improve forest health and reduce wildfire risk; and

WHEREAS, use of all resources should be examined to maximize private, local government, and state fire resources; and

WHEREAS, the Montana Legislature, which sets policy for and pays for much of the wildland firefighting on behalf of state taxpayers, has not fully examined these and other related issues since 2009.

Be it enacted by the Legislature of the State of Montana:

Section 1. Study of state fire suppression issues, methods, and costs. (1) The environmental quality council provided for in 5-16-101 shall conduct a comprehensive fire suppression study.

(2) The study must include an investigation of:

(a) firefighting operations in Montana by the state and federal governments, including operations on tribal land and private land, and the management policies affecting the success of those operations;

(b) the efficient use of fire suppression resources, including equipment and firefighters;

(c) the impact of operations on private land and the effective use of private resources to fight fires; and

(d) state and federal forest management and grazing policies and how those policies may potentially affect the number of wildfires, safety risk to firefighters, or fire suppression efforts.

(3) The environmental quality council shall complete the study by September 15, 2026, and report its findings and recommendations, including legislation, to the 70th legislature.

The lottery system shall assign every first-time application or request for expansion of a previously approved plan a number that will be placed into a lottery system draw that will be done by a third party. (b) require each participating school district to submit an annual report demonstrating, in the determination of the board or the board's designee, continued qualification for funding under this section and including a report of progress toward measurable objectives under the school district's transformational learning plan. The school district shall include any decrease or requested increase in the number of participating full-time equivalent educators under subsection (2)(a) for adjustments to its funding. Any increase in funding based on requested increased levels of participation under subsection (2)(a) must be determined in the year in which the request for a funding increase is received and augmented with a lottery system among all first-time applications and annual reports requesting an expansion of a previously approved plan and must be contingent on the availability of funds within any appropriation of the legislature. Section 11. Section 46-23-509, MCA, is amended to read:

"46-23-509. Psychosexual evaluations and sexual offender designations. (1) Prior to sentencing of a person convicted of a sexual offense, a sexual offender evaluator who has a license endorsement as provided for in 37-1-139 shall provide the court with a psychosexual evaluation report recommending one of the following levels of designation for the offender:

(a) level 1, the risk of a repeat sexual offense is low;

(b) level 2, the risk of a repeat sexual offense is moderate;

(c) level 3, the risk of a repeat sexual offense is high, there is a threat to public safety, and the sexual offender evaluator believes that the offender is a sexually violent predator.

(2) Upon sentencing the offender, the court shall:

(a) review the psychosexual evaluation report, any statement by a victim, and any statement by the offender;

(b) designate the offender as level 1, 2, or 3; and

(c) designate a level 3 offender as a sexually violent predator.

(3) An offender designated as a level 2 offender or given a level designation by another state, the federal government, or the department under subsection (5) that is determined by the court to be similar to level 2 may petition the sentencing court or the district court for the judicial district in which the offender resides to change the offender's designation if the offender has enrolled in and successfully completed the treatment phase of either the prison's sexual offender treatment program or of an equivalent program approved by the department. After considering the petition, the court may change the offender's risk level designation if the court finds by clear and convincing evidence that the offender's risk of committing a repeat sexual offense has changed since the time sentence was imposed. The court shall impose one of the three risk levels specified in this section.

(4) If, at the time of sentencing, the sentencing judge did not apply a level designation to a sexual offender who is required to register under this part and who was sentenced prior to October 1, 1997, the department shall designate the offender as level 1, 2, or 3 when the offender is released from confinement.

(5) If an offense is covered by ~~46-23-502(10)(a)(xvii)~~ 46-23-502(10)(a)(xviii), the offender registers under 46-23-504(1)(c), and the offender was given a risk level designation after conviction by another state or the federal government, the department of justice may give the offender the risk level designation assigned by the other state or the federal government. All offenders convicted in another state or by the federal government who are not currently under the supervision of the department or the youth court and were not given a risk level designation after conviction shall provide to the department of justice all prior risk assessments and psychosexual evaluations done to evaluate the offender's risk to reoffend. Any offender without a risk assessment or psychosexual evaluation shall, at the offender's expense, undergo a psychosexual evaluation with a sexual offender evaluator who has a license endorsement as provided for in 37-1-139. The results of the psychosexual evaluation may be requested by the attorney general or a county attorney for purposes of petitioning a district court to assign a risk level designation.

(6) The lack of a fixed residence is a factor that may be considered by the sentencing court or by the department in determining the risk level to be assigned to an offender pursuant to this section.

(7) Upon obtaining information that indicates that a sexual offender who is required to register under this part does not have a level 1, 2, or 3 designation, the offender, the attorney general, the county attorney that prosecuted the offender and obtained a conviction for a sexual offense, or the county attorney for the county in which the offender resides may, at any time, petition the district court that sentenced the offender for a sexual offense or the district court for the judicial district in which the offender resides to designate the offender as level 1, 2, or 3. Upon the filing of the petition, the court may order a psychosexual evaluation report at the petitioner's expense, or order that the results of all prior psychosexual evaluations be provided to all parties. The court shall provide the offender with an opportunity for a hearing prior to designating the offender. The petitioner shall provide the offender, the

attorney general, and the county attorney that prosecuted the offender with notice of the petition and notice of the hearing. As provided in 46-23-506(2)(d), petitions for relief from registration under this part must be filed in the appropriate Montana district court. (1) (a) The boards of trustees of any two or more school districts may enter into a multidistrict agreement to create a multidistrict cooperative to perform any services, activities, and undertakings of the participating districts, *including full and to provide for the joint funding and operation and maintenance of all programs and services of the* participating districts upon the terms and conditions as may be mutually agreed to by the districts subject to the conditions of this section.

(b) A multidistrict agreement may include an agreement through which one district provides culturally rooted instruction aligned to a learning environment for English language learners or an Indian language immersion program to pupils of a district participating in the multidistrict agreement. The costs and other terms of service must be reflected in the multidistrict agreement.

(c) An agreement must include provisions for dissolution of the cooperative, including the conditions under which dissolution may occur and the disposition of any remaining funds that had been transferred to an interlocal cooperative fund in support of the cooperative. An agreement must be approved by the boards of trustees of all participating districts and must include a provision specifying terms upon which a district may exit the multidistrict cooperative. ~~The agreement may be for a period of up to 3 years.~~

(4) The intent of this section is to increase the flexibility and efficiency of school districts without an increase in local taxes. AN ACT CLARIFYING WATER RIGHT ABANDONMENT LAWS TO ADDRESS A REDUCTION IN USE OR THE NONUSE OF AN APPROPRIATION RIGHT DURING PERIODS OF DROUGHT; PROVIDING RULEMAKING AUTHORITY; AND AMENDING SECTION 85-2-404, MCA.

Be it enacted by the Legislature of the State of Montana:

Section 1. Section 85-2-404, MCA, is amended to read:

"85-2-404. Abandonment of appropriation right. (1) If an appropriator ceases to use all or a part of an appropriation right with the intention of wholly or partially abandoning the right or if the appropriator ceases using the appropriation right according to its terms and conditions with the intention of not complying with those terms and conditions, the appropriation right is, to that extent, considered abandoned and must immediately expire.

(2) If an appropriator ceases to use all or part of an appropriation right or ceases using the appropriation right according to its terms and conditions for a period of 10 successive years and there was water available for use, there is a prima facie presumption that the appropriator has abandoned the right for the part not used.

(3) If an appropriator ceases to use all or part of an appropriation right in compliance with a candidate conservation agreement initiated pursuant to 50 CFR 17.32 or because the land to which the water is applied to a beneficial use is contracted under a state or federal conservation set-aside program:

(a) the set-aside and resulting reduction in use of the appropriation right does not represent an intent by the appropriator to wholly or partially abandon the appropriation right or to not comply with the terms and conditions attached to the right; and

(b) the period of nonuse that occurs for part or all of the appropriation right as a result of the contract may not create or may not be added to any previous period of nonuse to create a prima facie presumption of abandonment.

(4) (a) If an appropriator ceases to use all or part of an appropriation right during a drought, the reduction in use or the nonuse of the appropriation right does not by itself represent an intent by the appropriator to wholly or partially abandon the appropriation right or to not comply with the terms and conditions attached to the appropriation right if:

(i) the place of diversion or use is within a county experiencing D1 moderate drought or worse, as designated by the United States drought monitor; and

(ii) the reduction in use or the nonuse is made in compliance with a local, regional, or state drought plan filed with the department that identifies a metric or criterion that compels the voluntary reduction or cessation of water diversions in a geographic area or for water rights included in the drought plan.

(b) The owner of a water right who reduces or ceases all or part of the use of the water right in accordance with this subsection (4) shall file a report on a form prescribed by the department by December 30 of the year in which the water right use was reduced or ceased.

~~(4)~~(5) The lease of an existing right pursuant to 85-2-436 or a temporary change in appropriation right pursuant to 85-2-407 or 85-2-408 does not constitute an abandonment or serve as evidence that could be used to establish an abandonment of any part of the right.

Section 2. Section 46-18-203, MCA, is amended to read:

"46-18-203. Revocation of suspended or deferred sentence. (1) Upon the filing of a petition for revocation showing probable cause that the offender has violated any condition of a sentence, any condition of a deferred imposition of sentence, or any condition of supervision after release from imprisonment imposed pursuant to 45-5-503(4), 45-5-507(5), 45-5-601(3), 45-5-625(4), or 45-5-711, the judge may issue an order for a hearing on revocation. The order must require the offender to appear at a specified time and place for the hearing and be served by delivering a copy of the petition and order to the offender personally. The judge may also issue an arrest warrant directing any peace officer or a probation and parole officer to arrest the offender and bring the offender before the court.

(2) The petition for a revocation must be filed with the sentencing court either before the period of suspension or deferral has begun or during the period of suspension or deferral but not after the period has expired. Expiration of the period of suspension or deferral after the petition is filed does not deprive the court of its jurisdiction to rule on the petition.

(3) The provisions pertaining to bail, as set forth in Title 46, chapter 9, are applicable to persons arrested pursuant to this section.

(4) Without unnecessary delay and no more than 60 days after arrest, the offender must be brought before the judge, and at least 10 days prior to the hearing the offender must be advised of:

(a) the allegations of the petition;

(b) the opportunity to appear and to present evidence in the offender's own behalf;

(c) the opportunity to question adverse witnesses; and

(d) the right to be represented by counsel at the revocation hearing pursuant to Title 46, chapter 8, part 1.

(5) A hearing is required before a suspended or deferred sentence can be revoked or the terms or conditions of the sentence can be modified unless:

(a) the offender admits the allegations and waives the right to a hearing; or

(b) the relief to be granted is favorable to the offender and the prosecutor, after having been given notice of the proposed relief and a reasonable

opportunity to object, has not objected. An extension of the term of probation is not favorable to the offender for the purposes of this subsection (5)(b).

(6) (a) At the hearing, the prosecution shall prove, by a preponderance of the evidence, that there has been a violation of:

(i) the terms and conditions of the suspended or deferred sentence; or

(ii) a condition of supervision after release from imprisonment imposed pursuant to 45-5-503(4), 45-5-507(5), 45-5-601(3), 45-5-625(4), or 45-5-711.

(b) However, when a failure to pay restitution is the basis for the petition, the offender may excuse the violation by showing sufficient evidence that the failure to pay restitution was not attributable to a failure on the offender's part to make a good faith effort to obtain sufficient means to make the restitution payments as ordered.

(7) (a) If the judge finds that the offender has violated the terms and conditions of the suspended or deferred sentence by committing either compliance violations or noncompliance violations, or both, the judge may:

(i) continue the suspended or deferred sentence without a change in conditions;

(ii) continue the suspended sentence with modified or additional terms and conditions, which may include placement in:

(A) a secure facility designated by the department for up to 9 months; or

(B) a community corrections facility or program designated by the department for up to 9 months, including but not limited to placement in a prerelease center, sanction or hold bed, transitional living program, enhanced supervision program, relapse intervention bed, chemical dependency treatment, or 24/7 sobriety program;

(iii) revoke the suspension of sentence and require the offender to serve either the sentence imposed or any sentence that could have been imposed that does not include a longer imprisonment or commitment term than the original sentence; or

(iv) if the sentence was deferred, impose any sentence that might have been originally imposed.

(b) If a suspended or deferred sentence is revoked, the judge shall:

(i) consider any elapsed time, consult the records and recollection of the probation and parole officer, and allow all of the elapsed time served without any record or recollection of violations as a credit against the sentence. *A district court, in its discretion, may deny elapsed time credit for a reasonable period of time related to a violation or multiple violations. A defendant is not entitled to elapsed time credit for time spent in a correctional institution as defined in 45-2-101. If the judge determines that elapsed time should may not be credited, the judge shall state the reasons for the determination in the order.*

~~(ii) Credit must be allowed for time served in a detention center or for home arrest time already served~~ *allow credit for each day of incarceration or home arrest prior to imposition of a revocation sentence that is directly related to the revocation proceedings pursuant to the limitations in 46-18-403(1)(b).*

(c) If the judge finds that the offender has not violated a term or condition of a suspended or deferred sentence, the judge is not prevented from setting, modifying, or adding conditions of probation as provided in 46-23-1011.

(8) If the judge finds that the prosecution has not proved, by a preponderance of the evidence, that there has been a violation of the terms and conditions of the suspended or deferred sentence, the petition must be dismissed and the offender, if in custody, must be immediately released.

(9) All sanction and placement decisions must be documented in the offender's file.

(10) As used in this section:

(a) “absconding” means when an offender deliberately makes the offender’s whereabouts unknown to a probation and parole officer or fails to report for the purposes of avoiding supervision, and reasonable efforts by the probation and parole officer to locate the offender have been unsuccessful; and

(b) “compliance violation” means a violation of the conditions of supervision that is not:

(i) a new criminal offense;

(ii) possession of a firearm in violation of a condition of probation;

(iii) behavior by the offender or any person acting at the offender’s direction that could be considered stalking, harassing, or threatening the victim of the offense or a member of the victim’s immediate family or support network;

(iv) absconding; or

(v) failure to enroll in or complete a required sex offender treatment program or a treatment program designed to treat violent offenders.

(11) The provisions of this section apply to any offender whose suspended or deferred sentence is subject to revocation regardless of the date of the offender’s conviction and regardless of the terms and conditions of the offender’s original sentence.”

Section 3. Section 46-18-403, MCA, is amended to read:

“46-18-403. Credit for incarceration prior to conviction sentencing.

(1) (a) ~~An incarcerated person incarcerated on a bailable offense~~ against whom a judgment of imprisonment is rendered must be allowed credit for each day of incarceration prior to ~~or after conviction~~ *imposition of a sentence that is directly related to the proceedings that caused the incarceration*, except that the time allowed as a credit may not exceed the term of the prison sentence rendered.

(b) For the purposes of subsection (1)(a);:

(i) *credit must be given only when the custody to be credited is attributable to proceedings related to the same conduct for which the defendant has been convicted;*

(ii) *an offender is not entitled to credit against multiple sentences for a single period of custody unless the sentences are imposed concurrently;*

(iii) *an offender is not entitled to credit in a new criminal matter if the offender is currently serving a custodial sentence on a prior offense;*

(iv) *incarceration directly related to a probation or parole hold only reduces the sentence that the person was serving while on probation or parole; and*

(v) *incarceration includes time spent in a correctional institution as defined in 45-2-101 and a secure residential treatment facility under the order of a court if residence is required by court order.*

(2) ~~An incarcerated person incarcerated on a bailable offense~~ who does not supply bail and against whom a fine is levied ~~on conviction of the offense~~ may be allowed a credit for each day of incarceration prior to ~~conviction~~ *imposition of sentence*, except that the amount allowed or credited may not exceed the amount of the fine. The daily rate of credit for incarceration must be established annually by the board of county commissioners by resolution. The daily rate must be equal to the actual cost incurred by the detention facility for which the rate is established.”

(d) If a person satisfied the requirement in subsection (6) prior to the person's appointment or employment and is hired or appointed as a peace officer more than 3 years but less than 5 years after the date that the person satisfied the requirement in subsection (6), the person shall successfully complete the peace officer basic equivalency course, as approved by the council, within 1 year of the person's most recent appointment or employment as a peace officer. If the person is not appointed or employed as a peace officer within 5 years after the date of the person's successful completion of the requirement in subsection (6), the person shall satisfy the requirement in subsection (6) within 1 year of the person's most recent appointment or employment as a peace officer in Montana.

(8) (a) Except as provided in subsection (8)(c), if a peace officer has successfully completed a peace officer basic course that is taught or approved by a federal, state, local, or United States military law enforcement agency, that satisfies the peace officer basic training requirement for that agency, and that the council has reviewed and approved as commensurate with the *a* current peace officer basic course offered at the Montana law enforcement academy pursuant to subsection (6), the peace officer shall successfully complete the peace officer basic equivalency course, as approved by the council, within 1 year of the officer's initial appointment in Montana. If the officer fails the basic equivalency course, the officer must satisfy the requirement in subsection (6) at the next available opportunity.

(c) If the peace officer has had a break in service as a peace officer for more than 5 years, the officer shall complete the requirement of subsection (6) within 1 year of the officer's initial appointment as a peace officer in Montana.

(9) ~~The Montana public safety officer standards and training council~~ may extend the 1-year time requirements of subsections (6) through (8) upon the written application of the appointing authority of the officer. The application must explain the circumstances that make the extension necessary. Factors that the council may consider in granting or denying the extension include but are not limited to illness of the peace officer or a member of the peace officer's immediate family, absence of reasonable access to the basic equivalency course, and an unreasonable shortage of personnel within the department. The council may not grant an extension to exceed 180 days.

(10) A peace officer who has successfully met the training, employment, and educational standards of this section, has successfully met the training and employment standards set by the council, and has completed a 1-year probationary term of employment must be issued a peace officer basic certificate by the council certifying that the peace officer has met all of the basic qualifying peace officer standards of this state.

(11) It is unlawful for a person whose basic certification as a peace officer has been revoked or denied by the Montana public safety officer standards and training council for misconduct to act as a peace officer. It is unlawful for a person whose peace officer basic certification has been suspended by the council to act or be appointed or employed as a peace officer in Montana during the period in which the certification is suspended. A person convicted of violating this subsection is guilty of a misdemeanor, punishable by a term of imprisonment not to exceed 6 months in the county jail or by a fine not to exceed \$500, or both.

(12) *The council may adopt rules to implement the provisions of this section as provided in 2-15-2029. The rules must be adopted pursuant to the Montana Administrative Procedure Act."*

The term includes the area from which overburden or minerals have been removed, the area covered by mining debris, and all additional areas

used in surface mining or underground mining operations that by virtue of mining use are susceptible to erosion in excess of the surrounding undisturbed portions of land.

(37) "Vegetative cover" means the type of vegetation, grass, shrubs, trees, or any other form of natural cover considered suitable at time of reclamation."

Section 2. Section 82-4-335, MCA, is amended to read:

"82-4-335. Operating permit -- limitation -- fees. (1) A person may not engage in mining, ore processing, or reprocessing of tailings or waste material, construct or operate a hard-rock mill, use cyanide ore-processing reagents or other metal leaching solvents or reagents, or disturb land in anticipation of those activities in the state without first obtaining a final operating permit from the department. Except as provided in 82-4-343, a separate final operating permit is required for each complex.

(2) A small miner who intends to use a cyanide ore-processing reagent or other metal leaching solvents or reagents shall obtain an operating permit for that part of the small miner's operation where the cyanide ore-processing reagent or other metal leaching solvents or reagents will be used or disposed of.

(3) (a) Prior to receiving an operating permit from the department, a person shall pay the basic permit fee of \$500. The department may require a person who is applying for a permit pursuant to subsection (1) to pay an additional fee not to exceed the actual amount of contractor and employee expenses beyond the normal operating expenses of the department whenever those expenses are reasonably necessary to provide for timely and adequate review of the application, including any environmental review conducted under Title 75, chapter 1, parts 1 and 2. The department may further define these expenses by rule. Whenever the department determines that an additional fee is necessary and the additional fee will exceed \$5,000, the department shall notify the applicant that a fee must be paid and submit to the applicant an itemized estimate of the proposed expenses. The department shall provide the applicant an opportunity to review the department's estimated expenses. The applicant may indicate which proposed expenses the applicant considers duplicative or excessive, if any.

(b) (i) Subject to subsection (3)(b)(ii), a contractor shall, at the request of the applicant, directly submit invoices of contractor expenses to the applicant.

(ii) A contractor's work is assigned, reviewed, accepted, or rejected by the department pursuant to this section.

(4) The person shall submit an application on a form provided by the department, which must contain the following information and any other pertinent data required by rule:

(a) the name and address of the operator, the engineer of record if applicable, and, if a corporation or other business entity, the name and address of its officers, directors, owners of 10% or more of any class of voting stock, partners, and the like and its resident agent for service of process, if required by law;

(b) the minerals expected to be mined;

(c) a proposed reclamation plan;

(d) the expected starting date of operations;

(e) a map showing the specific area to be mined and the boundaries of the land that will be disturbed, the topographic detail, the location and names of all streams, roads, railroads, and utility lines on or immediately adjacent to the area, and the location of proposed access roads to be built;

(f) the names and addresses of the owners of record and any purchasers under contracts for deed of the surface of the land within the permit area and the owners of record and any purchasers under contracts for deed of all surface

area within one-half mile of any part of the permit area, provided that the department is not required to verify this information;

(g) the names and addresses of the present owners of record and any purchasers under contracts for deed of all minerals in the land within the permit area, provided that the department is not required to verify this information;

(h) the source of the applicant's legal right to mine the mineral on the land affected by the permit, provided that the department is not required to verify this information;

(i) the types of access roads to be built and manner of reclamation of road sites on abandonment;

(j) a plan that will provide, within limits of normal operating procedures of the industry, for completion of the operation;

(k) ground water and surface water hydrologic data gathered from a sufficient number of sources and length of time to characterize the hydrologic regime;

(l) a plan detailing the design, operation, and monitoring of impounding structures, including but not limited to tailings impoundments and water reservoirs, sufficient to ensure that the structures are safe and stable. For a tailings storage facility, this requirement is met by submission of a design document pursuant to 82-4-376, a *panel written* report pursuant to 82-4-377, and a tailings operation, maintenance, and surveillance manual pursuant to 82-4-379 prior to issuance of a draft permit.

(m) a plan identifying methods to be used to monitor for the accidental discharge of objectionable materials and remedial action plans to be used to control and mitigate discharges to surface or ground water;

(n) an evaluation of the expected life of any tailings impoundment or waste area and the potential for expansion of the tailings impoundment or waste site. For a tailings storage facility, this requirement is met by submission of a design document pursuant to 82-4-376, a *panel written* report pursuant to 82-4-377, and a tailings operation, maintenance, and surveillance manual pursuant to 82-4-379 prior to issuance of a draft permit.

(o) an assessment of the potential for the postmining use of mine-related facilities for other industrial purposes, including evidence of consultation with the county commission of the county or counties where the mine or mine-related facilities will be located.

(5) Except as provided in subsection (7), the permit provided for in subsection (1) for a large-scale mineral development, as defined in 90-6-302, must be conditioned to provide that activities under the permit may not commence until the impact plan is approved under 90-6-307 and until the permittee has provided a written guarantee to the department and to the hard-rock mining impact board of compliance within the time schedule with the commitment made in the approved impact plan, as provided in 90-6-307. If the permittee does not comply with that commitment within the time scheduled, the department, upon receipt of written notice from the hard-rock mining impact board, shall suspend the permit until it receives written notice from the hard-rock mining impact board that the permittee is in compliance.

(6) When the department determines that a permittee has become or will become a large-scale mineral developer pursuant to 82-4-339 and 90-6-302 and provides notice as required under 82-4-339, within 6 months of receiving the notice, the permittee shall provide the department with proof that the permittee has obtained a waiver of the impact plan requirement from the hard-rock mining impact board or that the permittee has filed an impact plan with the hard-rock mining impact board and the appropriate county or counties. If the

permittee does not file the required proof or if the hard-rock mining impact board certifies to the department that the permittee has failed to comply with the hard-rock mining impact review and implementation requirements in Title 90, chapter 6, parts 3 and 4, the department shall suspend the permit until the permittee files the required proof or until the hard-rock mining impact board certifies that the permittee has complied with the hard-rock mining impact review and implementation requirements.

(7) Compliance with 90-6-307 is not required for exploration and bulk sampling for metallurgical testing when the aggregate samples are less than 10,000 tons.

(8) A person may not be issued an operating permit if:

(a) that person's failure, or the failure of any firm or business association of which that person was a principal or controlling member, to comply with the provisions of this part, the rules adopted under this part, or a permit or license issued under this part has resulted in either the receipt of bond proceeds by the department or the completion of reclamation by the person's surety or by the department, unless that person meets the conditions described in 82-4-360;

(b) that person has not paid a penalty for which the department has obtained a judgment pursuant to 82-4-361;

(c) that person has failed to post a reclamation bond required by 82-4-305; or

(d) that person has failed to comply with an abatement order issued pursuant to 82-4-362, unless the department has completed the abatement and the person has reimbursed the department for the cost of abatement.

(9) A person may not be issued a permit under this part unless, at the time of submission of a bond, the person provides the current information required in subsection (4)(a) and:

(a) (i) certifies that the person is not currently in violation in this state of any law, rule, or regulation of this state or of the United States pertaining to air quality, water quality, or mined land reclamation; or

(ii) presents a certification by the administering agency that the violation is in the process of being corrected to the agency's satisfaction or is the subject of a bona fide administrative or judicial appeal; and

(b) if the person is a partnership, corporation, or other business association, provides the certification required by subsection (9)(a)(i) or (9)(a)(ii), as applicable, for any partners, officers, directors, owners of 10% or more of any class of voting stock, and business association members."

Section 3. Section 82-4-337, MCA, is amended to read:

"82-4-337. Inspection—issuance of operating permit—modification, amendment, or revision. (1) (a) The department shall review all applications for operating permits for completeness and compliance with the requirements of this part and rules adopted pursuant to this part within:

(i) for rock products, 60 days of receipt of the initial application and within 20 days of receipt of responses to notices of deficiencies. If an applicant for a rock products operating permit responds to a notice of deficiency more than 1 year after its receipt, the department has 60 days to review the response to the notice of deficiency.

(ii) for all other applications not covered under subsection (1)(a)(i), 90 days of receipt of the initial application and within 30 days of receipt of responses to notices of deficiencies.

(b) The department's initial notice must note all deficiency issues, and the department may not in a later notice raise an issue pertaining to the initial application that was not raised in the initial notice. The department shall notify the applicant concerning completeness and compliance as soon as possible.

An application is considered complete and compliant unless the applicant is notified of deficiencies within the appropriate review period.

(c) The review for completeness and compliance is limited to areas in regard to which the department has statutory authority.

(d) When providing notice of deficiencies, the department shall identify each section in this part or rules adopted pursuant to this part related to the deficiency.

(e) When an application is complete and compliant, the department shall:

(i) declare in writing that the application is complete and compliant;

(ii) detail in writing the substantive requirements of this part and how the application complies with those requirements;

(iii) when an application submitted after October 1, 2015, includes a tailings storage facility, verify the receipt of the certified design document pursuant to 82-4-376, the ~~panel~~ *written* report pursuant to 82-4-377, and the tailings operation, maintenance, and surveillance manual pursuant to 82-4-379; and

(iv) issue a draft permit. The department may, as a condition of issuing the draft permit, require that the applicant obtain other permits required by law but not provided for in this part. However, the department may not withhold issuance of the draft permit in the absence of those permits.

(f) Prior to issuance of a draft permit, the department shall inspect the site. If the site is not accessible because of extended adverse weather conditions, the department shall inspect the site at the first available opportunity and may extend the time period prescribed in subsection (1)(a) by a term agreed to by the applicant.

(g) Issuance of the draft permit as a final permit is the proposed state action subject to review required by Title 75, chapter 1.

(h) If the applicant is not notified that there are deficiencies or inadequacies in the application or that the application is compliant within the time period required by subsection (1)(a), the final operating permit must be issued upon receipt of the bond as required in 82-4-338 and pursuant to the requirements of subsection (1)(i) of this section. The department shall promptly notify the applicant of the form and amount of bond that will be required. After the department notifies the applicant of deficiencies in the application within the time period required by subsection (1)(a), no further action by the department is required until the applicant has responded to the deficiency notification.

(i) Except as provided in subsection (1)(h), a final permit may not be issued until:

(i) sufficient bond has been submitted pursuant to 82-4-338;

(ii) the information and certification have been submitted pursuant to 82-4-335(9);

(iii) the department has found that permit issuance is not prohibited by 82-4-335(8) or 82-4-341(7);

(v) the department has made a determination that the application and the final permit meet the substantive requirements of this part and the rules adopted pursuant to this part.

(j) If the department decides to hire a third-party contractor to prepare an environmental impact statement on the application, the department shall prepare a list of no fewer than four contractors acceptable to the department and shall provide the applicant with a copy of the list. The applicant shall provide the department with a list of at least 50% of the contractors from

the department's list. The department shall select its contractor from the list provided by the applicant.

(2) (a) After issuance of a draft permit but prior to receiving a final permit, an applicant may propose modifications to the application. If the proposed modifications substantially change the proposed plan of operation or reclamation, the department may terminate the draft permit and review the application as modified pursuant to subsection (1) for completeness and compliance and issuance of a new draft permit.

(b) The department shall consult with the applicant before placing stipulations in a draft or final permit. Permit stipulations in a draft or final permit may, unless the applicant consents, address only compliance issues within the substantive requirements of this part or rules adopted pursuant to this part. For a stipulation imposed without the applicant's consent, the department shall provide to the applicant in writing the reason for the stipulation, a citation to the statute or rule that gives the department the authority to impose the stipulation, and, for a stipulation imposed in the final permit that was not contained in the draft permit, the reason that the stipulation was not contained in the draft permit.

(c) Within 40 days of the completion of the review required by Title 75, chapter 1, or 1 year from the date the draft permit is issued, whichever is less, the department shall issue its bond determination.

(d) When the department prepares an environmental review jointly with a federal agency acting under the National Environmental Policy Act, the applicant may by written waiver extend the 1-year deadline contained in subsection (1)(i)(iv).

(e) Upon submission of the bond and subject to subsection (1)(i), the department shall issue the final permit.

(3) The final operating permit must be granted for the period required to complete the operation and is valid until the operation authorized by the permit is completed or abandoned, unless the permit is suspended or revoked by the department as provided in this part.

(4) The final operating permit must provide that the reclamation plan may be modified by the department, upon proper application of the permittee or after timely notice and opportunity for hearing, at any time during the term of the permit and for any of the following reasons:

(a) to modify the requirements so that they will not conflict with existing laws;

(b) when the previously adopted reclamation plan is impossible or impracticable to implement and maintain;

(c) when significant environmental problem situations not permitted under the terms of regulatory permits held by the permittee are revealed by field inspection and the department has the authority to address them under the provisions of this part.

(5) (a) The modification of a final operating permit may be a major or minor permit amendment or a permit revision. A modification of the operating permit, including a modification necessary to comply with the requirements of existing law as interpreted by a court of competent jurisdiction must be processed in accordance with the procedures for an application for a permit amendment or revision that are established pursuant to 82-4-342 and this section.

(b) The modification of an operating permit may not be finalized and an existing bond amount may not be increased until the permit modification procedures and analysis described in subsection (5)(a) are completed."

Section 4. Section 82-4-377, MCA, is amended to read:

"82-4-377. Independent review panel -- selection -- duties. ~~(1) An independent review panel shall review the design document required by 82-4-376.~~

CHAPTER NO. 505

[HB 703]

AN ACT EXEMPTING CERTAIN AGENCIES AND DEPARTMENTS FROM AN ANALYSIS OF GREENHOUSE GAS EMISSIONS FROM APPLIANCES, VEHICLES, AND ENGINES; AND PROVIDING RULEMAKING AUTHORITY.

WHEREAS, the purpose of the Montana Environmental Policy Act (MEPA) is to ensure that environmental attributes are fully considered by the Legislature in enacting laws to fulfill constitutional obligations and that the public is informed of the anticipated impacts in Montana of potential state actions; and

WHEREAS, the U.S. Congress has enacted the Clean Air Act and other standards to establish national regulations over greenhouse gas emissions and other energy related matters; and

WHEREAS, the federal Energy Policy and Conservation Act preempts state regulation of gas usage related to covered appliances, as recently referenced in *California Restaurant Association v. City of Berkeley*, 89 F.4th 1094 (9th Cir. 2024); and

WHEREAS, the federal Clean Air Act preempts regulation of mobile sources by states under 42 U.S.C. 7543 and 42 U.S.C. 7507; and

WHEREAS, the federal Clean Air Act preempts state regulation of out-of-state greenhouse gases, as recently referenced in *City of New York v. Chevron Corp.*, 993 F.3d 81 (2d Cir. 2021).

THEREFORE, because the Legislature has no authority to enact laws related to these subjects and a state cannot act contrary to these federal statutes, the purposes of MEPA cannot be fulfilled by analyzing greenhouse gas emissions from these sources. Thus, it is appropriate to exclude these sources from MEPA review.

Be it enacted by the Legislature of the State of Montana:

Section 1. Exemption from environmental review. The department and local building departments are exempt from the provisions of Title 75, chapter 1, parts 1 and 2, for an analysis of greenhouse gases from a covered product or appliance, as defined by 42 U.S.C. 6292, for the adoption or enforcement of the state building code or county, city, and town building codes.

Section 2. Exemptions from environmental review. The department is not required to perform an analysis of greenhouse gas emissions beyond the state's borders under the provisions of Title 75, chapters 1, parts 1 and 2, from any source not subject to state enforcement pursuant to 42 U.S.C. 7543(a) for a new motor vehicle or a new motor vehicle engine and pursuant to 42 U.S.C. 7543(e)(1) for a new nonroad engine or nonroad vehicle.

Section 3. Codification instruction. (1) [Section 1] is intended to be codified as an integral part of Title 50, chapter 60, part 1, and the provisions of Title 50, chapter 60, part 1, apply to [section 1].

(2) [Section 2] is intended to be codified as an integral part of Title 75, chapter 2, part 1, and the provisions of Title 75, chapter 2, part 1, apply to [section 2].

CHAPTER NO. 506

[HB 707]

AN ACT PROVIDING THAT THE DEPARTMENT OF CORRECTIONS SHALL CONSIDER AN INMATE'S FAMILY ATTACHMENTS WHEN MAKING OUT-OF-STATE PLACEMENTS; AND AMENDING SECTION 53-30-106, MCA.

Be it enacted by the Legislature of the State of Montana:

Section 1. Consideration of attachment to family. When an inmate in a state prison is placed in or transferred to a correctional institution located outside of the state, the department shall consider the inmate's attachment to family and the inmate's ability to maintain those attachments.

Section 2. Section 53-30-106, MCA, is amended to read:

"53-30-106. Excessive inmate population – confinement of inmates in other institutions. (1) If the inmate population of a correctional institution or system exceeds the emergency capacity for 30 consecutive days, the director of the department of corrections may declare that the emergency capacity has been exceeded and temporarily stop admissions to the institution or system. The director shall notify each sheriff and district court that new inmates will not be accepted by the department for admission into the institution or system until the inmate population is reduced to 95% or less of the emergency capacity. Persons committed to the department and persons sought to be admitted remain in the department's legal custody but must be kept in a detention center in the jurisdiction holding them. In the event the jurisdiction holding the inmate is at maximum capacity, the inmate may be placed in an available detention center in another jurisdiction. The department shall reimburse that jurisdiction for the cost of detention for the period beyond the normal time of delivery to a correctional institution administered by the department. Reimbursement must be at a rate mutually agreeable to the department and the jurisdiction holding the person. The rate must cover the reasonable costs of the holding jurisdiction. Expenses for medication, medical services, or hospitalization for persons confined in a detention center under this section must be paid by the department.

(2) The department may enter into contracts with the federal government, other states, or the commissioners of counties that have suitable detention centers for confining inmates committed to a correctional institution or system administered by the department, either because a correctional institution or system has exceeded its emergency capacity or because the department has no institution that is adequate for certain inmates.

(3) Within budgetary limits *and in compliance with [section 1]*, the department may also enter into contracts with public or private corporations for the confinement of selected inmates if suitable programs have been established."

Section 3. Codification instruction. [Section 1] is intended to be codified as an integral part of Title 53, chapter 30, part 1, and the provisions of Title 53, chapter 30, part 1, apply to [section 1].

Be it enacted by the Legislature of the State of Montana:

Section 1. Restitution for child of victim – vehicular homicide while under influence – definition. AN ACT REVISING THE TRANSFER OF A MINING OPERATION TO A SUCCESSOR OPERATOR; PROVIDING FOR THE USE OF EMINENT DOMAIN POWERS; PROVIDING RULEMAKING AUTHORITY; AMENDING SECTIONS 82-4-340 AND 82-4-341, MCA; AND PROVIDING AN IMMEDIATE EFFECTIVE DATE.

Be it enacted by the Legislature of the State of Montana:

Section 1. Section 82-4-340, MCA, is amended to read:

“82-4-340. Successor operator. (1) ~~When~~ *Subject to this part, when one operator succeeds to the interest of another in any uncompleted operation by transfer, including sale, assignment, lease, or otherwise, the department may release the first operator from the duties imposed upon on the operator by this*

part;. ~~provided~~ *Provided* that both operators comply with the requirements of this part and the successor operator assumes the duty of the former operator to complete the reclamation of the land ~~and the ability to operate pursuant to the permit or subsequent modifications approved by the department to the permit consistent with this part, in which case~~ the department shall transfer the permit to the successor operator ~~upon~~ *on* department approval of the successor operator's bond ~~and the transfer of property interests~~, as required under this part.

(2) *A transfer by the department to a successor operator pursuant to this section may not affect a lien, claim, encumbrance, or interest in the property subject to operations that the department determines are valid at the time of the transfer and rights and defenses associated with the lien, claim, encumbrance, or interest. This subsection does not apply to a lien, claim, encumbrance, or interest in a property of the original operator or an affiliate or person controlling the operator or affiliate.*

(2)(3) For an operation with a forfeited bond where the department holds a suspended permit pursuant to 82-4-341(8), the department may transfer the permit to a successor operator provided that the successor operator:

(a) complies with the requirements of this part; ~~and~~

(b) assumes the duty of the former operator to complete reclamation *pursuant to this part*;

(c) *operates pursuant to the permit or a subsequent modification approved by the department to the permit; and*

(d) ~~and~~ *submits to the department:*

(i) any additional bond required under 82-4-338; and

(ii) a \$2,000 fee.

(4) *If the department believes there is a potential to transfer a suspended permit, then the department may initiate proceedings in district court for eminent domain of the surface, minerals, or other property interest not held by the United States within or appurtenant to the permit boundary, including ingress and egress to the permit boundary, if:*

(a) *the department makes written findings that it is in the public interest of Montana taxpayers, environmental protection, and reclamation. With the written findings, the right of eminent domain must be considered a public use as included with those listed in 70-30-102. Although not required, the department may consider the following when determining the public interest:*

(i) *the value of the property, fixtures, and potential for operations if the property is transferred, based on an inspection and evaluation by the department or at the department's request prior to initiating eminent domain proceedings pursuant to Title 70, chapter 30;*

(ii) *the existence of tax liens on the property;*

(iii) *the financial liability to the Montana taxpayers for the cost of reclamation or remediation by the department of the operation pursuant to 82-4-341;*

(iv) *whether the county or counties where the permitted operation is located agree that transferring the property interest is in the best interest of the county or counties; and*

(v) *whether there is an immediate environmental need;*

(b) *the property interest is within or appurtenant to the permit boundary of an operator that has been:*

(i) *prohibited from mining pursuant to 82-4-360 for at least 1 year from the date of notice to the operator of the prohibition and the operator does not have a timely, pending appeal pursuant to this part; and*

(ii) *issued a violation letter by the department pursuant to 82-4-361 on a transferred permit;*

(c) the available bond is insufficient for the permitted operation and the amount of the bond forfeited pursuant to 82-4-341 is less than the bond amount calculated pursuant to 82-4-338; and

(d) there is a successor operator who can operate under a permit transferred pursuant to subsection (1). The department and the proposed successor operator may enter into an agreement for the transfer of the property when it is condemned and the department takes possession pursuant to subsection (5).

(5) If the department initiates eminent domain proceedings pursuant to Title 70, chapter 30, and requests immediate possession of the property pursuant to 70-30-311, then the court shall grant the department immediate possession of the property prior to determining compensation.

(6) An eligible successor operator may post the bond required by 70-30-311(3) in accordance with an agreement entered pursuant to 82-4-340(4)(d).

(7) After the department is in possession of the property, the court shall determine compensation pursuant to 70-30-302, except that when determining the value of the property interest the commissioners shall consider:

(a) the greater of the amount:

(i) equal to the difference between the bond amount forfeited pursuant to 82-4-341 and the bond amount calculated pursuant to 82-4-338; or

(ii) necessary to complete site reclamation;

(b) the amount of a tax lien against the property;

(c) the value of mineral interests, development potential, or future mining based solely on the value while in the possession of the original operator, who is prohibited from mining pursuant to 82-4-360; and

(d) other costs incurred by the state to suspend, terminate, or transfer the permit and recover the forfeited bond.

(8) Nothing in this section limits the department's ability to modify the transferred permit or reclamation plan pursuant to this part."

Section 2. Section 82-4-341, MCA, is amended to read:

"82-4-341. Compliance – reclamation by department. (1) The department shall cause the permit area to be inspected at least annually to determine whether the permittee has complied with this part, the rules adopted under this part, or the permit.

(2) The permittee shall proceed with reclamation as scheduled in the approved reclamation plan or as required pursuant to subsection (9). Following written notice by the department noting deficiencies, the permittee shall commence action within 30 days to rectify these deficiencies and shall diligently proceed until the deficiencies are corrected. Deficiencies that also violate other laws that require earlier rectification must be corrected in accordance with the applicable time provisions of those laws. The department may extend performance periods referred to in 82-4-336 and in this section for delays clearly beyond the permittee's control, but only when the permittee is, in the opinion of the department, making every reasonable effort to comply.

(3) Within 30 days after notification by the permittee and when, in the judgment of the department, reclamation of a unit of disturbed land area is properly completed, the department shall provide the public notice and conduct any hearing requested pursuant to 82-4-338. As soon as practicable after notice and hearing, the permittee must be notified in writing and the bond on the area must be released or decreased proportionately to the acreage included within the bond coverage.

(4) The department shall cause the bond to be forfeited if:

(a) reclamation of disturbed land is not pursued in accordance with the reclamation plan and the permittee has not commenced action to rectify deficiencies within 30 days after notification by the department;

(b) reclamation is not properly completed in conformance with the reclamation plan within 2 years after completion or abandonment of operation on any fraction of the permit area or within a longer period that may have been authorized under this part; or

(c) after default by the permittee, the surety either refuses or fails to perform the work to the satisfaction of the department within the time required.

(5) The department shall notify the permittee and the surety by certified mail. If the bond is not paid within 30 days after receipt of the notice, the attorney general, upon request of the department, shall bring an action on behalf of the state in district court.

(6) The department may, with the staff, equipment, and material under its control or by contract with others, take any necessary actions for required reclamation of the disturbed lands according to the existing reclamation plan or a modified reclamation plan if the department makes a written finding that the modifications are necessary to prevent a violation of Title 75, chapter 2 or 5, or to prevent a substantial reclamation failure. Except in an environmental emergency, work provided for in this section must be let on the basis of competitive bidding. The department shall keep a record of all necessary expenses incurred in carrying out the work or activity authorized under this section, including a reasonable charge for the services performed by the state's personnel and the state's equipment and materials used. The surety is liable to the state to the extent of the bond. The permittee is liable for the remainder of the cost. Upon completion of the reclamation, the department shall return to the surety any amount not expended, including any unexpended interest accrued on bond proceeds, unless otherwise agreed to in writing by the surety.

(7) In addition to the other liabilities imposed by this part, failure to commence an action to remedy specific deficiencies in reclamation within 30 days after notification by the department or failure to satisfactorily complete reclamation work on any segment of the permit area within 2 years or within a longer period that the department may permit on the permittee's application or on the department's own motion, after completion or abandonment of operations on any segment of the permit area, constitutes sufficient grounds for cancellation of a permit or license and refusal to issue another permit or license to the applicant. A cancellation action may not be effected while an appeal is pending from any ruling requiring the cancellation of a permit or license.

(8) (a) Except as provided in subsection (8)(e), the department may hold a permit suspended pursuant to 82-4-338 for up to 5 years and place the proceeds from a cash bond forfeited under this section in an interest-bearing account if mining of the ore body identified in the permit or a permit amendment application is not complete. The 5-year period begins on the date the department takes possession of the bond proceeds.

(b) The department may spend bond proceeds from the account during the suspension period to:

(i) perform maintenance, monitoring, and other actions required by the permit;

(ii) abate imminent danger to public health, public safety, or the environment; or

(iii) abate conditions that violate the provisions of Title 75, chapters 2 and 5, or conditions that may cause violations of those provisions.

(c) The department may transfer a permit suspended under this section as provided by 82-4-340 *and the associated property interest pursuant to 70-30-311 to grant the condemnor immediate possession and provide compensation to the property owner pursuant to 70-30-302*. The balance of funds in the account must be retained as a cash bond on behalf of the successor operator.

(d) A transfer by the department to a successor operator pursuant to subsection (2) may not affect a lien, claim, encumbrance, or interest in the property subject to operations, which the department determines is valid at the time of the transfer and rights and defenses associated with the lien, claim, encumbrance, or interest. This subsection (8)(d) does not apply to a lien, claim, encumbrance, or interest in a property of the original operator or an affiliate or person controlling the operator or affiliate.

~~(d)~~(e) The department may revoke a permit suspended under this section if a transfer is not completed within 5 years of the suspension. In the case of a revoked permit, reclamation may proceed pursuant to subsection (6).

~~(e)~~(f) The department may extend a suspension up to 6 months if a potential successor operator is exercising reasonable diligence to complete the transfer. If litigation precludes the transfer, the suspension is stayed until the litigation is resolved.

(g) If the department forfeits a bond pursuant to subsection (8)(a), the operator is liable to the department for the insufficient bond amount, which is the difference between the bond amount forfeited pursuant to 82-4-341 and the bond amount calculated pursuant to 82-4-338. This amount is not subject to a bona fide dispute. The department may initiate cases and proceedings to recover the insufficient bond amount.

(9) (a) If at the time of bond review pursuant to 82-4-338 no mineral extraction or ore processing has occurred on a mine permit area for the past 5 years, the department shall determine whether further suspension of the operation will create conditions that will cause violations of Title 75, chapter 2 or 5, or significantly impair reclamation of disturbed areas. If the department determines in writing that violations of Title 75, chapter 2 or 5, or significant impairment of reclamation will occur, the department shall notify the permittee that the permittee shall, within a reasonable time specified in the notice, abate the conditions or commence reclamation. The department may grant reasonable extensions of time for good cause shown. If the permittee does not abate the conditions or commence reclamation within the time specified in the notice and any extensions, the department shall order either that the condition be abated or that reclamation be commenced.

(b) The permittee may request a hearing on the order by submitting a written request for hearing within 30 days of receipt of the order. A request for hearing stays the order pending a final decision, unless the department determines in writing that the stay will create an imminent threat of significant environmental harm or will significantly impair reclamation.”

If a part of [this act] is invalid in one or more of its applications, the part remains in effect in all valid applications that are severable from the invalid applications.

[HB 732]

AN ACT ESTABLISHING THE PROMPT COST REPORT REIMBURSEMENT ACT; GENERALLY REVISING THE RETROACTIVE ADJUSTMENT PROCESS BY THE DEPARTMENT OF PUBLIC HEALTH AND HUMAN SERVICES FOR COST REPORTS SUBMITTED BY CRITICAL ACCESS HOSPITALS; PROVIDING AN APPROPRIATION; AND PROVIDING AN IMMEDIATE EFFECTIVE DATE AND A RETROACTIVE APPLICABILITY DATE.

WHEREAS, critical access hospitals in Montana participating in the Montana Medicaid program are reimbursed for medical services provided to their communities based on the cost of delivering these services; and

WHEREAS, to effectuate this reimbursement, the critical access hospital submits a cost report to the applicable Medicare administrative contractor identifying the cost of services, which forms the basis for settling interim payments to ensure the Medicare and Medicaid programs have paid the proper amount in reimbursement; and

WHEREAS, the Medicare program performs an interim settlement upon the filing of a cost report with the applicable Medicare administrative contractor; and

WHEREAS, a Medicare administrative contractor periodically performs a desk audit to review previously filed cost reports, and Medicare will perform an additional adjustment as required based upon the final desk audit; and

WHEREAS, the Montana Medicaid program does not perform initial settlements upon the filing of the cost report and instead waits to settle cost reports until the Medicare administrative contractor has performed the final desk audit; and

WHEREAS, Montana Medicaid's practice of waiting to settle cost reports until the final desk audit is performed has resulted in multiple-year delays in settling reimbursement for participating critical access hospitals whose cost reports are selected for a Medicare audit; and

WHEREAS, aligning Montana Medicaid's practice with Medicare's practice will ensure proper fiscal management for the Montana Medicaid program and provide timely and accurate reimbursement to Montana critical access hospitals.

Be it enacted by the Legislature of the State of Montana:

Section 1. Short title. [Sections 1 through 3] may be cited as the "Prompt Cost Report Reimbursement Act".

Section 2. Purpose. (1) The legislature finds that providers of service that participate in medicare and Montana medicaid are required to submit information to achieve the settlement of costs relating to health care social services rendered to beneficiaries. The submitted cost reports cover the providers' fiscal year of operations based on the providers' accounting year.

(2) The legislature finds that to balance prompt reimbursement to providers and maintain Montana medicaid's program integrity, the Montana medicaid program shall align cost-based reimbursement procedures with the procedures utilized by the medicare program. This includes prompt initial settlement upon submission of a provider's cost report and subsequent adjustment after a desk review or audit of the cost report is performed by the applicable medicare administrative contractor.

(3) [Sections 1 through 3] apply to annual cost reports when submitted by a critical access hospital, as defined 50-5-101.

Section 3. Retroactive adjustment and settlement of cost report. (1) (a) To reimburse a provider as quickly as possible, the department of public health and human services shall perform a tentative retroactive adjustment when a cost report is received by the applicable medicare administrative contractor.

(b) Costs must be accepted as reported except for obvious errors or inconsistencies, subject to adjustment by a later audit.

(c) The department shall make an interim settlement of the report and, if applicable, payment to the provider within 240 days after receipt of the cost report by the medicare administrative contractor or within 30 days after receipt of the interim medicaid cost settlement from the medicare administrative contractor, whichever occurs sooner.

(d) In the event of an overpayment, the provider has 60 days from the date of the initial notification indicated by the interim cost settlement to repay the amount of the overpayment, or to have an agreed upon repayment schedule.

(2) (a) Upon receipt of the final desk review or audit of the cost report by the applicable medicare administrative contractor, the department shall perform a final retroactive adjustment and, if applicable, a final settlement of the cost report.

(b) In the event of an overpayment, the provider has 60 days from the date of the initial notification to repay the amount of the overpayment or to have

an agreed upon repayment schedule. In the event of an underpayment, the department will reimburse the provider within 90 days from the date of the initial notification to the provider.

Be it enacted by the Legislature of the State of Montana:

Section 1. Nutrient loading offsets and trading credits. (1) Under a permit issued pursuant to 75-5-401, a point source discharger to state surface waters may receive nutrient loading offsets or trading credits to satisfy permitting requirements, including nutrient effluent limitations established pursuant to this part and nutrient effluent limitations derived from waste load allocations established pursuant to 75-5-703.

(2) Nutrient loading offsets and trading credits may be authorized for increases in or continuation of nutrient discharges when a net decrease in nutrient loading within the United States geological survey-designated 12-digit hydrologic unit code subbasin, or immediately adjacent 12-digit hydrologic unit code subbasin when the project is in close proximity to the adjacent 12-digit hydrologic unit code subbasin, is achieved through reductions from other point sources or nonpoint sources within the subbasin, either up gradient or down gradient of the applicant. The applicant shall quantify and verify reductions from projects based on the methodologies developed by the department pursuant to subsection (4) or based on sufficient and credible site-specific data and methodologies that are reviewed and accepted by the department.

(3) For reductions that satisfy subsections (2) and (4), the offset or trading credit must be measured as:

- (a) 100% of a reduction from point source discharges;
- (b) 80% of a reduction from an up-gradient, nonpoint source discharge; or
- (c) 50% of a reduction from a down-gradient, nonpoint source discharge.

(4) (a) The department shall establish acceptable methodologies, based on readily available watershed characteristics, to determine the reduction in nutrient loading for nonpoint sources, including for:

- (i) riparian fencing programs based on the number of feet of streambank;
- (ii) riparian vegetation programs based on the number of acres vegetated;
- (iii) development of wetlands in areas of irrigation water return flows based on the number of acres associated with the return flows; or
- (iv) removal of septic systems based on the number and size of septic systems removed.

(b) Other projects and methods may be proposed by an applicant or permittee that are supported by science and data modeling and are not contrary to existing data.

(c) The department shall use the methodologies established pursuant to this subsection (4) unless there is clear and convincing evidence that the nutrient loading of the proposed action would be substantially different from that determined by the established methodologies.

Section 2. Directions to department. To implement the provisions of [section 1], the department shall amend:

(1) department circular DEQ-13, Montana's policy for nutrient trading, as adopted in December 2012; and

(b) An action brought under subsection (2) does not preclude a subsequent claim brought by a victim under subsection (1) for restitution, compensatory damages, or 50% of the combined punitive and statutory damages if:

(3) For each unique violation under [section 2], a plaintiff's recovery of statutory damages is limited to one subsection under subsection (1)(e)(i) through (1)(e)(iii).

(4) In an action in which the remedies under subsection (1) are ordered:

(a) compensatory damages for each violation must be paid to the victim; and

(b) the amount of punitive and statutory damages must be apportioned for each violation as follows:

- (B) 35% to a private plaintiff; and
- (C) 15% to the department to be deposited into a state special revenue account to the credit of the department;

AN ACT GENERALLY REVISING LAWS RELATED TO THE BLOCK MANAGEMENT PROGRAM; ALLOWING THE FISH AND WILDLIFE COMMISSION TO ADOPT SIMPLIFIED RULES FOR AGREEMENTS THAT ONLY PROVIDE ACCESS TO ADJACENT PUBLIC LANDS; PROVIDING RULEMAKING AUTHORITY; AND AMENDING SECTION 87-1-265, MCA.

Be it enacted by the Legislature of the State of Montana:

Section 1. Section 87-1-265, MCA, is amended to read:

“87-1-265. Hunting access programs – block management program – private landowner assistance – rules – restriction on landowner liability. (1) There is established a block management program administered by the department to provide landowner assistance that encourages public access to private and public lands for hunting purposes.

(2) The department may also develop and administer alternative programs to the block management program that are designed to promote public access to private and public lands for hunting purposes.

(3) Participation in a hunting access program established under this section is voluntary. A lease, acquisition, or other arrangement for public access to or across private property for hunting purposes must be negotiated through a cooperative agreement between the landowner and the department that will guarantee reasonable access for public hunting. Landowners may also form a voluntary association when development of a unified cooperative agreement is advantageous. A cooperative agreement must contain a detailed description of the conditions for use of the private property, including but not limited to:

(a) hunting access management;

(b) services to be provided to the public;

(c) ranch rules and other restrictions; and

(d) any other management information to be gathered, which must be made available to the public.

(4) Private land is not eligible for inclusion in a hunting access program if outfitting, commercial hunting, or fees charged for private hunting access unreasonably restrict public hunting opportunities.

(5) If the department determines that an agreement may adversely influence game management decisions or wildlife habitat on public lands, then other public land agencies, interested sportspersons, and affected landowners must be consulted. An affected landowner’s management goals and personal observations regarding game populations and habitat use must be considered in development of the agreement.

(6) The commission may adopt rules to implement the provisions of this section, including but not limited to rules that determine tangible benefits to be provided to a landowner who participates in a hunting access program. Benefits are intended to offset potential impacts associated with public hunting access, including but not limited to those associated with general ranch maintenance,

conservation efforts, weed control, fire protection, liability insurance, roads, fences, and parking area maintenance. Factors used in determining benefits may include but are not limited to:

(a) the number of days of public hunting provided by a participating landowner;

(b) wildlife habitat provided;

(c) resident game populations;

(d) number, sex, and species of animals taken; and

(e) access provided to adjacent public lands.

(7) For a proposed agreement that only provides access to adjacent public lands for hunting purposes, the department shall:

(a) notify adjacent public land leaseholders;

(b) ensure the proposed agreement does not violate or interfere with the terms of any adjacent public land lease agreement;

(c) incorporate the relevant terms of an adjacent public land lease agreement into the proposed access agreement; and

(d) allow an adjacent public land leaseholder the opportunity to support or object to the proposed access agreement.

(8) In considering a proposed agreement that only provides access to adjacent public lands for hunting purposes, the commission may:

(a) consider an adjacent leaseholder's support for or objection to a proposed access agreement;

(b) exempt the access agreement from tracking the number of days of public hunting access provided by a participating landowner;

(c) agree to a payment to the landowner that is a flat fee rate and not based on the number of days of public hunting access provided by a participating landowner;

(d) use the amount and opportunity provided by public lands access as factors to determine benefits; and

(e) otherwise implement simplified rules.

~~(7)~~(9) (a) Benefits earned by a landowner who participates in a hunting access program may include but are not limited to those applied in the manner described in subsections ~~(7)(b)~~ (9)(b) and ~~(7)(c)~~ (9)(c).

(b) A landowner may receive direct payments:

(i) for weed control or may direct payments to be made directly to the county weed control board;

(ii) for fire protection or may direct fire protection payments to be made to the local fire district or the county where the landowner resides; and

(iii) to offset insurance costs incurred for allowing public hunting access.

(c) The department may provide assistance in the construction and maintenance of roads, gates, and parking facilities and in the signing of property.

~~(8)~~(10) (a) Except as provided in 87-1-264 and subsection ~~(8)(b)~~ (10)(b) of this section, payments to a landowner who participates in a hunting access program through an annual agreement may not exceed \$50,000 a year, and \$25,000 a year for agreements that only provide access to public land for hunting purposes.

(b) Each landowner who participates in a unified cooperative agreement pursuant to subsection (3) may be eligible for payments not to exceed \$50,000 a year, and \$25,000 a year for agreements that only provide access to public land for hunting purposes.

(9)(11) The restriction on liability of a landowner, agent, or tenant that is provided under 70-16-302(1) applies to a landowner who participates in a hunting access program.”

Section 2. County commissioners authorized to establish predatory animal control program for protection of goats. On the recommendation of an organized association of goat producers in the county,

the board of county commissioners may, either alone or in conjunction with the county commissioners of other counties, establish a predatory animal control program for the protection of goats in the county or counties.

Section 3. County commissioners permitted to require per capita license fee on goats. (1) To defray the expense of protection, the board of county commissioners may require all owners or persons in possession of a goat 9 months of age or older in the county on the regular assessment date of each year, as provided in 15-24-903, to pay a per capita license fee in an amount to be determined by the board. All owners or persons in possession of a goat 9 months of age or older coming into the county after the regular assessment date and subject to the per capita levy under the provisions of Title 15, chapter 24, part 9, are subject to payment of the license fee.

(2) On the order of the board of county commissioners, the license fee may be imposed by entering the name of the licensee on the assessment record of the county by the department of revenue. The license fee is payable to and must be collected by the county treasurer. When levied, the fee is a lien on the property, both real and personal, of the licensee. If the person against whom the license fee is levied does not own real estate against which the license fee is or may become a lien, then the license fee is payable immediately on its levy and the treasurer shall collect the fee in the manner provided by law for the collection of personal property taxes that are not a lien on real estate.

(3) The fees must be placed in a predatory animal control fund, separate from the funds provided for in 81-7-303 and 81-7-603. The money in the predatory animal control fund may be expended by the board of county commissioners for predatory animal control, including bounties paid pursuant to Title 81, chapter 7, part 2. On petition of the resident owners of at least 51% of the goats in the county, as shown by the property tax record of the last preceding assessment, the board shall establish the predatory animal control program and issue licenses and collect fees for the following year in an amount that will defray the cost of administering the program. The petition must be filed with the board on or before the first Monday in December in any year, and a signature on a petition may not be withdrawn by the signer after the hour set for hearing the petition. The license fee set by the board must remain in effect from year to year without change, unless there is filed with the board a petition signed by the resident owners of at least 51% of the goats in the county, as shown by the property tax record of the last assessment preceding the filing of the petition, for termination of the program and elimination of the license fee. On the filing of the petition, the board shall terminate the program and cease levying the license fee.

(2) If the resident owners of at least 51% of the goats in the county file a petition with the board either for an increase in the license fee or a decrease in the license fee then in effect, the board shall set a new license fee to continue from year to year.

Be it enacted by the Legislature of the State of Montana:

Section 1. Section 27-30-101, MCA, is amended to read:

“27-30-101. Definition of *public nuisance*. (1) ~~Anything that is injurious to health, indecent or offensive to the senses, or an obstruction to the free use of property, so as to interfere with the comfortable enjoyment of life or property, or that unlawfully obstructs the free passage or use, in the customary manner, of any navigable lake, river, bay, stream, canal, or basin or any public park, square, street, or highway is a nuisance.~~

(2) ~~Nothing that is done or maintained under the express authority of a statute may be deemed a public or private nuisance.~~

(1) *A public nuisance is:*

(a) *a condition arising out of the use of real property that unlawfully interferes with a public right by endangering communal safety, being indecent to the community, or being offensive to the community; or*

(b) *a condition that unlawfully interferes with the public right to free passage or use, in the customary manner, of a navigable lake, river, bay, stream, canal, or basin or a public park, square, street, road, or highway.*

(2) *The following nonexclusive list of actions or conditions may not be considered a public nuisance or be the basis for a public nuisance cause of action:*

(a) *an action or condition that is lawful;*

(b) *an action or condition that is authorized, approved, licensed, or mandated by statute, ordinance, regulation, permit, license, order, rule, or other similar measure issued, adopted, promulgated, or approved by a government entity. This includes conditions or actions that are subject to an order, notice, or decree issued under 75-10-711 or 75-10-712.*

(c) *noises resulting from the shooting activities at a shooting range during established hours of operation;*

(d) *impairment of the spiritual, cultural, or emotional significance associated with a navigable lake, river, bay, stream, canal, or basin or a public park, square, street, road, or highway;*

(e) *the design, manufacturing, distributing, selling, labeling, or marketing of a product;*

(f) *the aggregation of individual injuries or private rights, including private nuisances; or*

(g) *the design, manufacturing, distributing, selling, labeling, or marketing of firearms, firearm accessories, or ammunition, as defined in 30-20-301, or components of firearms, firearm accessories, or ammunition.*

(3) *An agricultural or farming operation, a place, an establishment, or a facility or any of its appurtenances or the operation of those things is not or does not become a public or private nuisance because of its normal operation as a result of changed residential or commercial conditions in or around its locality if the agricultural or farming operation, place, establishment, or facility has been in operation longer than the complaining resident has been in possession or commercial establishment has been in operation.*

(4) *As used in this chapter, the term “unlawfully interferes” includes but is not limited to actions or conditions that violate a statute, ordinance, regulation, permit, license, order, rule, or other similar measure issued, adopted, promulgated, or approved by a government entity. This includes any statute, ordinance, regulation, permit, license, order, rule, or other similar measure*

issued, adopted, promulgated, or approved by a government entity either before or after [the effective date of this act].

~~(4) Noises resulting from the shooting activities at a shooting range during established hours of operation are not considered a public nuisance.”~~

Section 2. Definition of private nuisance. (1) A private nuisance is a condition arising out of the use of real property that:

(a) is injurious to health or safety, indecent or offensive to the senses of an individual on an adjacent or neighboring property, or

(b) obstructs the free use of an adjacent or neighboring property so as to interfere with the comfortable enjoyment of life or property.

(2) The following may not be considered a private nuisance or be the basis for a private nuisance cause of action:

(a) an action or condition that is authorized, approved, licensed, or mandated by statute, ordinance, regulation, permit, license, order, rule, or other similar measure issued, adopted, promulgated, or approved by a government entity. This includes conditions or actions that are subject to an order, notice, or decree issued under 75-10-711 or 75-10-712; or

(b) noises resulting from the shooting activities on a shooting range during established hours of operation.

(3) An agricultural or farming operation, a place, an establishment, or a facility or any of its appurtenances or the operation of those things is not or does not become a private nuisance because of its normal operation as a result of changed residential or commercial conditions in or around its locality if the agricultural or farming operation, place, establishment, or facility has been in operation longer than the complaining resident has been in possession or commercial establishment has been in operation.

Section 3. Preemption. This chapter abrogates the common law of public nuisance and private nuisance in this state to the extent common law is inconsistent with this chapter.

Section 4. Liability for a public nuisance. (1) A person may be subject to a public nuisance cause of action only if that person proximately caused the public nuisance at the time the public nuisance was created, which includes controlling, or instructing another person to engage in, the activity that proximately caused the public nuisance.

(2) Every successive owner of property who neglects to abate a continuing public nuisance upon or in the use of the property that was created by a former owner is liable for the public nuisance in the same manner as the one who first created it.

(3) No lapse of time can legalize a public nuisance amounting to an actual obstruction of public right.

Section 5. Public nuisance actions by government. (1) A public nuisance cause of action is available to a government entity only if the public nuisance is within the jurisdiction of that government entity. Past, current, or future expenditures made by a government entity related to injunction of or any other response to a public nuisance does not itself confer standing to file or maintain a public nuisance action.

(2) In a public nuisance action brought by a government entity, the only remedies against a public nuisance are:

(a) indictment or information as regulated by Titles 45 and 46;

(b) injunctive relief to enjoin an unlawful activity that is proximately causing a public nuisance; and

(c) monetary and nonmonetary resources, if quantifiable, that a court determines are reasonably necessary to abate the public nuisance based on relevant and reliable cost factors and established by clear and convincing

evidence. All resources provided under this subsection (2) must be spent to abate the public nuisance itself.

(3) Remedies available under this section may not include:

(a) the costs of abating a potential future public nuisance; or

(b) damages of any kind, including economic, noneconomic, and exemplary damages.

(4) For the purposes of this chapter, the term “government entity” means the state, an agency or a political subdivision of the state, a federal entity or agency, or any other governing authority, including a tribal government.

(5) Nothing in this chapter limits the authority of a government entity to order any person to vacate the right-of-way of a public highway of this state classified within the commission-designated highway system or as a state highway, as provided in 60-1-201, or any navigable lake, river, bay, stream, canal, or basin or a public park, square, street, road, or highway.

Section 6. Private cause of action for public nuisance. (1) A public nuisance cause of action is available to a private person only if that person has sustained a special injury proximately caused by the public nuisance and only if the person can show the existence of the special injury by clear and convincing evidence.

(2) A special injury is an injury that is different in kind, not just in degree, from an injury sustained by the general public exercising the same public right. A special injury is not one based upon impairment of the spiritual, cultural, or emotional significance associated with a navigable lake, river, bay, stream, canal, or basin or a public park, square, street, road, or highway.

(3) Financial expenditures made by a private person related to an injunction of, or any other response to, a public nuisance does not constitute a special injury sufficient to confer standing on the person to file or maintain a public nuisance action.

(4) The remedy available to a private person in a public nuisance action is limited solely to compensatory damages for the special injury.

(5) The abatement of a public nuisance pursuant to 27-30-204 does not preclude the right of a person to recover compensatory damages under this section.

(6) Private persons may not bring a class action for special injuries arising out of a public nuisance.

Section 7. Section 27-30-204, MCA, is amended to read:

“27-30-204. Abatement of public nuisance by ~~public—body~~ government entity or officer or injured party. A public nuisance may be abated by ~~any public body~~ *a government entity* or officer authorized by law. A person may abate a public nuisance that is specially injurious to that person by removing or, if necessary, destroying the thing that constitutes the nuisance, *as long as doing so would not constitute without committing a breach of the peace or cause doing unnecessary injury. Nothing in this section alters the remedies to a government entity or private person in a public nuisance cause of action.*”

Section 8. Action for private nuisance. An action for private nuisance may be brought by a person whose property is injuriously affected or whose personal enjoyment of property is lessened by the private nuisance.

Section 9. Liability for private nuisance. (1) A person may be subject to a private nuisance cause of action only if that person, or the person’s agent, proximately caused the private nuisance or, if that person is not available for a private nuisance lawsuit or cannot satisfy a private nuisance judgment, the person who owns or controls the real property where the private nuisance exists.

(2) Every successive owner or controller of real property who neglects to abate a continuing private nuisance upon or in the use of the property that was created under previous ownership is liable for the private nuisance in the same manner as the one who owned or controlled the real property when the private nuisance was created.

Section 10. Remedies for private nuisances. The remedies against a private nuisance are:

(1) injunctive relief to enjoin an activity proximately causing the private nuisance;

(2) monetary and nonmonetary resources, if quantifiable, that a court determines are reasonably necessary to abate the private nuisance based on relevant and reliable cost factors and established by clear and convincing evidence. All resources provided under this subsection must be spent to abate the private nuisance itself.

(3) damages proximately caused by the private nuisance.

Section 11. Emergency abatement of private nuisance by injured party. A person injured by a private nuisance may abate it by removing or, if necessary, destroying the thing that constitutes the private nuisance so long as doing so would not constitute committing a breach of the peace or cause unnecessary injury. When a private nuisance results from a mere omission of the wrongdoer and cannot be abated without entering upon the wrongdoer's land, reasonable notice must be given to the wrongdoer before entering to abate the private nuisance. Nothing in this section alters the remedies available in a private nuisance cause of action.

Section 12. Repealer. The following sections of the Montana Code Annotated are repealed:

27-30-102. Distinction between public and private nuisances.

27-30-103. Action for nuisance.

(2) Nothing in [this act] applies to an action filed by the Montana department of justice within 4 years from October 1, 2025, relating to the design, manufacturing, distributing, selling, labeling, or marketing of opioids. (b) The patient has the right to and is encouraged to obtain from physicians and other direct caregivers relevant, current, and understandable information concerning diagnosis, treatment, and prognosis.

(c) Except in emergencies when the patient lacks decisionmaking capacity and the need for treatment is urgent, the patient is entitled to be informed of information related to the specific procedures and treatments that are recommended or planned, the risks involved that may cause harm to the patient, the possible length of recuperation, and the medically reasonable alternatives and their accompanying risks and benefits.

(d) The patient has the right to know the identity of physicians, nurses, and others involved in the patient's care, as well as whether those involved are students, residents, or other trainees

(e) The patient has the right to know the immediate and long-term financial implications of treatment choices, to the extent the costs are known.

(f) (i) The patient has the right to make decisions about the plan of care prior to and during the course of treatment, to refuse a recommended treatment or plan of care, and to be informed of the medical consequences of the decision.

(ii) When the patient refuses a recommended treatment or plan of care, the patient is entitled to other appropriate care and services that the hospital provides or to transfer to another hospital or discharge to home with impunity and without penalty or threat.

(iii) A hospital shall notify patients of any policy that might affect patient choices within the facility.

(g) (i) The patient has the right to have an advance directive, including but not limited to a living will, health care proxy, or health care power of attorney, concerning treatment or designating a surrogate decisionmaker with the expectation that the hospital will honor the intent of the directive. A hospital shall advise a patient of the patient's rights under state law and hospital policy to make informed medical choices, ask if the patient has an advance directive or surrogate decisionmaker, and include that information in the patient's record.

(ii) The patient has the right to timely information about hospital policy that may limit the hospital's ability to implement fully a legally valid advance directive or surrogate decisionmaker.

(h) The patient has the right to have an advocate or support person of the patient's choosing present in clinically appropriate settings.

(i) The patient has the right to visitation privileges that are no more restrictive for nonfamily members than they are for immediate family members and, in an end-of-life situation, has the right to visitation regardless of the patient's diagnosis. If the diagnosis or condition of a person at the end of life requires specific protocols, the hospital shall make accommodations to facilitate visitation in accordance with the protocols and may not eliminate the opportunity for visitation unless allowing visitation would violate federal requirements and result in loss of payment.

(j) The patient has the right to every consideration of privacy.

(k) The patient has the right to review records pertaining to the patient's medical care and to have the information explained or interpreted as necessary.

(l) (i) The patient has the right to expect that, within its capacity and policies, a hospital will make reasonable response to the patient's request for appropriate and medically indicated care and services. The hospital shall provide evaluation, service, or referral as indicated by the urgency of the case.

(ii) When medically appropriate and legally permissible or on request of the patient, the patient may be transferred to another facility that has accepted the patient for transfer. The patient must have the benefit of complete information and explanation concerning the need for, risks and benefits of, and alternatives to the transfer.

(m) The patient has the right to be informed of the existence of business relationships among the hospital, educational institutions, other health care providers, or payers that may influence the patient's care and treatment.

(n) The patient has the right to consent or decline to participate in proposed research studies or human experimentation affecting care and treatment or requiring direct patient involvement and to have the studies fully explained prior to consent. A patient who declines to participate in research or experimentation is entitled to the most effective care that the hospital can otherwise provide.

(o) The patient has the right to expect continuity of care and care coordination between the patient's regular care provider and hospital care and to be informed by physicians and other caregivers of available and realistic patient care options when hospital care is no longer appropriate.

(p) The patient has the right to be informed of available resources for resolving disputes, grievances, and conflicts, including but not limited to ethics committees, patient representatives, and other available avenues.

(2) Health care facilities shall provide annual training to staff on the patient rights provided under this section."

CHAPTER NO. 541

[SB 25]

AN ACT REGULATING THE USE OF DEEPPAKES IN ELECTION COMMUNICATIONS AND ELECTIONEERING COMMUNICATIONS; PROVIDING DEFINITIONS; PROVIDING EXCEPTIONS; PROVIDING FOR INJUNCTIVE RELIEF, ACTUAL DAMAGES, AND PUNITIVE DAMAGES; PROVIDING FOR THE FILING OF A COMPLAINT WITH THE COMMISSIONER OF POLITICAL PRACTICES; AND PROVIDING PENALTIES.

WHEREAS, the revolutionary innovations in generative artificial intelligence systems capable of producing image, audio, video, text, and multimedia content pose a threat to free and fair elections in the State of Montana; and

WHEREAS, AI-generated content may be used to create deepfakes that falsely depict a candidate's speech or action in order to spread misinformation and disinformation at scale and with unprecedented speed; and

WHEREAS, a deepfake is comparable to forcing a person to say or do something in a video recorded under threat, in which the person appears to say or do something the person would not normally say or do; and

WHEREAS, a voter's opinion of a candidate may be irreparably tainted by a fabricated representation of an officeholder, incumbent, or candidate saying or doing something the person did not say or do; and

WHEREAS, these false, negative portrayals may exist indefinitely once posted on the Internet and permanently damage an officeholder, incumbent, or candidate's reputation and even put the person's safety at risk.

Be it enacted by the Legislature of the State of Montana:

Section 1. Definitions. As used in [sections 1 through 4], unless the context clearly indicates otherwise, the following definitions apply:

(1) (a) "AI-generated content" means image, video, audio, multimedia, or text content that is substantially created or modified by generative artificial intelligence in a manner that materially alters the meaning or significance that a reasonable person understands from the content.

(b) The term does not include image, video, audio, multimedia, or text content that is minimally edited, adjusted, or enhanced by generative artificial intelligence in a manner that does not materially alter the meaning or significance that a reasonable person understands from the content.

(2) “Candidate” has the same meaning as provided in 13-1-101(8) and, for the purposes of [sections 1 through 4], also includes an incumbent or current officeholder.

(3) “Deepfake” means AI-generated content or synthetic media that depicts a candidate or political party with the intent to injure the reputation of the candidate or party or otherwise deceive a voter. A deepfake:

(a) appears to a reasonable person to depict an individual saying or doing something that did not occur in reality; or

(b) provides a reasonable person a fundamentally different understanding or impression of the appearance, action, or speech than a reasonable person would have from the unaltered, original version of the image, audio recording, or video recording.

(4) “Generative artificial intelligence” means an artificial intelligence system capable of generating novel image, video, audio, multimedia, or text content based on prompts or other forms of data provided by a person.

(5) “Synthetic media” means an image, audio recording, or video recording of an individual’s appearance, speech, or conduct that has been created or intentionally manipulated with the use of generative artificial intelligence or other digital technology to create a realistic but false image, audio, or video.

Section 2. Use of deepfakes in election communications and electioneering communications – disclosure requirements – exceptions. (1) (a) Except as provided in subsection (1)(b), a person, corporation, committee, political party, or other entity, working in an official election capacity, may not, within 60 days of the initiation of voting in an election at which a candidate for elective office appears on the ballot, pay for or sponsor the production, creation, or distribution of an election communication or an electioneering communication that the person, corporation, committee, political party, or other entity knew or should have known is a deepfake of a candidate or political party on the ballot.

(b) The prohibition in subsection (1)(a) does not apply to an election communication or electioneering communication that includes a disclosure stating, “This _____ (image/audio/video/multimedia) has been significantly edited by artificial intelligence and depicts speech or conduct that falsely appears to be authentic or truthful”.

(c) The disclosure required in subsection (1)(b) must:

(i) for a printed communication, be stated in bold font with a font size of at least 12 points;

(ii) for a television or video communication, be clearly readable throughout the communication and occupy at least 4% of the vertical picture height;

(iii) for a public internet communication that includes text or graphic components, be viewable without the user taking any action and be large enough to be clearly readable; or

(iv) for an audio component of a communication, be at least 8 seconds in length and be spoken in a clearly audible and intelligible manner at either the beginning or the end of the audio component of the communication.

(2) The prohibition in subsection (1)(a) and the penalties in [sections 3 and 4] do not apply to the following:

(a) a radio or television broadcasting station, including a cable television, satellite television, streaming service operator, or website, or programmer or producer, may broadcast or transmit a deepfake as part of a bona fide newscast, news interview, news documentary, or on-the-spot coverage of a bona fide news event if the broadcast clearly acknowledges through context or a disclaimer, in a manner that can be easily read or heard, that content being broadcast or transmitted may be generated in whole or in part by using

artificial intelligence and may not accurately represent the speech or conduct of the depicted individual;

(b) a radio or television broadcasting station, including a cable television, satellite television, streaming service operator, or website, or programmer, or producer, when it is paid to broadcast a deepfake, or in cases in which federal law requires broadcasters to air advertisements from legally qualified candidates;

(c) a deepfake that constitutes satire or parody;

(d) a distribution platform may publish, post, or distribute an advertisement or a prerecorded phone message if the distribution platform shows that its disclaimer requirements are consistent with the requirements provided in subsections (1)(b) and (1)(c) and that it provided those disclaimer requirements to the person that purchased the distribution of the advertisement or prerecorded phone message by or on the distribution platform; or

(e) a provider of an interactive computer service as defined in 47 U.S.C. 230, or an information service or a telecommunications service, both as defined in 47 U.S.C. 153, for content provided by another party.

Section 3. Injunctive and civil relief. (1) In addition to any other penalties or remedies provided by law, a candidate or political party representing the candidate aggrieved by a violation of [section 2] may maintain an action against any violator in any court of equitable jurisdiction to prevent, restrain, or enjoin the violation.

(2) An action commenced pursuant to subsection (1) must be expedited by the district court and given preference over all other matters currently before the district court upon showing of present or ongoing harm.

(3) If a violation of [section 2] is established, the court shall enjoin and restrain to otherwise prohibit the violation and, in addition, shall assess in favor of the plaintiff and against the defendant the costs of the suit and reasonable attorney fees.

(4) In the action, it is not necessary that actual damages to the plaintiff be alleged or proved, but when alleged and proved, the plaintiff in the action, in addition to injunctive relief and fees and costs of suit, is entitled to recover from the defendant the amount of actual damages sustained by the plaintiff and up to \$10,000 in punitive damages.

(5) In any civil action alleging a violation of [section 2], the plaintiff bears the burden of establishing the violation by clear and convincing evidence.

Section 4. Penalties. (1) A complaint of [section 2] may be filed with the commissioner of political practices pursuant to 13-37-111. A sufficiency finding from the commissioner of an investigation into a complaint filed under 13-37-111 is subject to civil penalties under 13-37-128 imposed by the commissioner or county attorney.

(2) A second sufficiency finding by the commissioner must be referred to the county attorney for misdemeanor prosecution. Upon conviction, a violation is punishable by a fine of not more than \$500, imprisonment in county jail for not more than 6 months, or both.

Be it enacted by the Legislature of the State of Montana:

Section 1. Requirements for attorney fee award request – awards against state. (1) An award of attorney fees must be reasonable. A reasonable claim for attorney fees must include the following:

- (a) the date a task is performed and the name of the timekeeper;
- (b) a specific description of the task, including but not limited to the nature, purpose, or subject of the work performed. Generic descriptors for a task and the work claimed are unreasonable. The description of the task performed must be sufficient for a reasonable person to understand what work is being claimed.

- (c) time that is billed in increments of tenths of an hour, including:

- (i) a statement indicating whether the attorney has or has had a client who pays the hourly rate requested by the attorney; and

- (ii) a detailed list of time spent on each task. Block billing or aggregating of tasks may not be claimed.

- (d) a specific description of the work performed;

- (e) an itemized list of expenses, including receipts from vendors;

If the court elects to grant a rate higher than the rate charged by the attorney representing the state, the court shall provide an explanation

as to why the rate charged by the state does not adequately compensate the attorney for which attorney fees are requested.

(4) In determining the reasonableness of an award of attorney fees, a court may consider factors other than those contained in this section.

(5) The provisions of this section do not apply to claims for attorney fees for an amount less than \$10,000.

Section 2. Section 25-10-711, MCA, is amended to read:

“25-10-711. Award of costs against governmental entity when suit or defense is frivolous or pursued in bad faith. (1) In any civil action brought by or against the state, a political subdivision, or an agency of the state or a political subdivision, the opposing party, whether plaintiff or defendant, is entitled to the costs enumerated in 25-10-201 and reasonable attorney fees as determined by the court if:

(a) the opposing party prevails against the state, political subdivision, or agency; and

(b) the court finds that the claim or defense of the state, political subdivision, or agency that brought or defended the action was frivolous or pursued in bad faith.

(2) Costs may be granted pursuant to subsection (1) notwithstanding any other provision of the law to the contrary. *The award of costs must be reasonable and considered under [section 1].*”

Section 5. Section 30-14-2808, MCA, is amended to read:

"30-14-2808. Consumer personal data -- opt-out -- compliance -- appeals. (1) A consumer must have the right to:

(a) confirm whether a controller is processing the consumer's personal data and access the consumer's personal data, unless such confirmation or access would require the controller to reveal a trade secret;

(b) correct inaccuracies in the consumer's personal data, considering the nature of the personal data and the purposes of the processing of the consumer's personal data;

(c) delete personal data about the consumer;

(d) obtain a copy of the consumer's personal data previously provided by the consumer to the controller in a portable and, to the extent technically feasible, readily usable format that allows the consumer to transmit the personal data to another controller without hindrance when the processing is carried out by automated means, provided the controller is not required to reveal any trade secret; and

(e) opt out of the processing of the consumer's personal data for the purposes of:

(i) targeted advertising;

(ii) the sale of the consumer's personal data, except as provided in 30-14-2812(2); or

(iii) profiling in furtherance of ~~solely~~ automated decisions that produce legal or similarly significant effects concerning the consumer.

(2) A consumer may exercise rights under this section by a secure and reliable means established by the controller and described to the consumer in the controller's privacy notice.

(3) (a) A consumer may designate an authorized agent in accordance with 30-14-2809 to exercise the rights of the consumer to opt out of the processing of the consumer's personal data under subsection (1)(e) on behalf of the consumer.

(b) A parent or legal guardian of a known child may exercise the consumer rights on the known child's behalf regarding the processing of personal data.

(c) A guardian or conservator of a consumer subject to a guardianship, conservatorship, or other protective arrangement, may exercise the rights on the consumer's behalf regarding the processing of personal data.

(4) Except as otherwise provided in this part, a controller shall comply with a request by a consumer to exercise the consumer rights authorized pursuant to this section as follows:

(a) A controller shall respond to the consumer without undue delay, but not later than 45 days after receipt of the request. The controller may extend the response period by 45 additional days when reasonably necessary, considering the complexity and number of the consumer's requests, provided the controller informs the consumer of the extension within the initial 45-day response period and the reason for the extension.

(b) If a controller declines to act regarding the consumer's request, the controller shall inform the consumer without undue delay, but not later than 45 days after receipt of the request, of the justification for declining to act and provide instructions for how to appeal the decision.

(c) Information provided in response to a consumer request must be provided by a controller, free of charge, once for each consumer during any 12-month period. If requests from a consumer are manifestly unfounded, excessive, technically infeasible, or repetitive, the controller may charge the consumer a reasonable fee to cover the administrative costs of complying with the request or decline to act on the request. The controller bears the burden of demonstrating the manifestly unfounded, excessive, technically infeasible, or repetitive nature of the request.

(d) If a controller is unable to authenticate a request to exercise any of the rights afforded under subsections (1)(a) through (1)(d) of this section using commercially reasonable efforts, the controller may not be required to comply with a request to initiate an action pursuant to this section and shall provide notice to the consumer that the controller is unable to authenticate the request to exercise the right or rights until the consumer provides additional information reasonably necessary to authenticate the consumer and the consumer's request to exercise the consumer's rights. A controller may not be required to authenticate an opt-out request, but a controller may deny an opt-out request if the controller has a good faith, reasonable, and documented belief that the request is fraudulent. If a controller denies an opt-out request because the controller believes the request is fraudulent, the controller shall send notice to the person who made the request disclosing that the controller believes the request is fraudulent and that the controller may not comply with the request.

(e) A controller that has obtained personal data about a consumer from a source other than the consumer must be deemed in compliance with the consumer's request to delete the consumer's data pursuant to subsection (1)(c) by:

(i) retaining a record of the deletion request and the minimum data necessary for the purpose of ensuring the consumer's personal data remains deleted from the controller's records and not using the retained data for any other purpose pursuant to the provisions of this part; or

(ii) opting the consumer out of the processing of the consumer's personal data for any purpose except for those exempted pursuant to the provisions of this part.

(5) A controller shall establish a process for a consumer to appeal the controller's refusal to act on a request within a reasonable period after the consumer's receipt of the decision. The appeal process must be conspicuously available and like the process for submitting requests to initiate action pursuant to this section. Not later than 60 days after receipt of an appeal, a controller shall inform the consumer in writing of any action taken or not taken in response to the appeal, including a written explanation of the reasons for the decisions. If the appeal is denied, the controller shall also provide the consumer with an online mechanism, if available, or other method through which the consumer may contact the attorney general to submit a complaint."

"30-14-2812. Data processing by controller – limitations. (1) A controller shall:

(a) limit the collection of personal data to what is adequate, relevant, and reasonably necessary in relation to the purposes for which the personal data is processed, as disclosed to the consumer;

(b) establish, implement, and maintain reasonable administrative, technical, and physical data security practices to protect the confidentiality, integrity, and accessibility of personal data appropriate to the volume and nature of the personal data at issue; and

(c) provide an effective mechanism for a consumer to revoke the consumer's consent under this section that is at least as easy as the mechanism by which the consumer provided the consumer's consent and, on revocation of the consent, cease to process the personal data as soon as practicable, but not later than 45 days after the receipt of the request.

(2) A controller may not:

(a) except as otherwise provided in this part, process personal data for purposes that are not reasonably necessary to or compatible with the disclosed purposes for which the personal data is processed as disclosed to the consumer unless the controller obtains the consumer's consent;

(b) process sensitive data concerning a consumer without obtaining the consumer's consent or, in the case of the processing of sensitive data concerning a known child, without processing the sensitive data in accordance with the Children's Online Privacy Protection Act of 1998, 15 U.S.C. 6501, et seq.;

(c) process personal data in violation of the laws of this state and federal laws that prohibit unlawful discrimination against consumers;

(d) process the personal data of a consumer for the purposes of targeted advertising or sell the consumer's personal data without the consumer's consent under circumstances in which a controller has actual knowledge or

willfully disregards that the consumer is at least 13 years of age but younger than 16 years of age; or

(e) discriminate against a consumer for exercising any of the consumer rights contained in this part, including denying goods or services, charging different prices or rates for goods or services, or providing a different level of quality of goods or services to the consumer.

(3) Nothing in subsection (1) or (2) may be construed to require a controller to provide a product or service that requires the personal data of a consumer that the controller does not collect or maintain or prohibit a controller from offering a different price, rate, level, quality, or selection of goods or services to a consumer, including offering goods or services for no fee, if the consumer has exercised their right to opt out pursuant to this part or the offering is in connection with a consumer's voluntary participation in a bona fide loyalty, rewards, premium features, discounts, or club card program.

(4) If a controller sells personal data to third parties or processes personal data for targeted advertising, the controller shall clearly and conspicuously disclose the processing, ~~as well as the way a consumer may exercise the right to opt out of the processing in its privacy notice and provide access to a clear and conspicuous method outside the privacy notice for a consumer to opt out of the sale or processing. This method may include but is not limited to an internet hyperlink clearly labeled "your opt-out rights" or "your privacy rights" that directly effectuates the opt-out request or takes consumers to a web page where the consumer can make the opt-out request.~~

(5) A controller shall provide consumers with a reasonably accessible, clear, and meaningful privacy notice that includes:

- (a) the categories of personal data processed by the controller;
- (b) the purpose for processing personal data;
- (c) the categories of personal data that the controller *sells to or* shares with third parties, if any;
- (d) the categories of third parties, if any, with which the controller *sells or* shares personal data; and
- (e) an active e-mail address or other mechanism that the consumer may use to contact the controller; ~~and~~
- (f) *an explanation of the rights provided by 30-14-2808(1) and how consumers may exercise their consumer rights, including how a consumer may appeal a controller's decision regarding the consumer's request; and*
- (g) *the date the privacy notice was last updated.*

(6) *The privacy notice must be made available to the public in each language in which the controller provides a product or service that is subject to the privacy notice or carries out activities related to the product or service.*

(7) *The controller shall provide the privacy notice in a manner that is reasonably accessible to and usable by individuals with disabilities.*

(8) *Whenever a controller makes a material change to the controller's privacy notice or practices, the controller shall notify consumers affected by the material change with respect to any prospectively collected personal data and provide a reasonable opportunity for consumers to withdraw consent to any further materially different collection, processing, or transfer of previously collected personal data under the changed policy. The controller shall take all reasonable electronic measures to provide notification regarding material changes to affected consumers, taking into account available technology and the nature of the relationship.*

(9) *A controller is not required to provide a separate Montana-specific privacy notice or section of a privacy notice if the controller's general privacy notice contains all the information required by this section.*

(10) The privacy notice must be posted online through a conspicuous hyperlink using the word “privacy” on the controller’s website homepage or on a mobile device’s application store page or download page. A controller that maintains an application on a mobile device or other device shall also include a hyperlink to the privacy notice in the application’s settings menu or in a similarly conspicuous and accessible location. A controller that does not operate a website shall make the privacy notice conspicuously available to consumers through a medium regularly used by the controller to interact with consumers, including but not limited to mail.

~~(6)~~(11) (a) A controller shall establish and describe in a privacy notice one or more secure and reliable means for consumers to submit a request to exercise their consumer rights pursuant to this part considering the ways in which consumers normally interact with the controller, the need for secure and reliable communication of consumer requests, and the ability of the controller to verify the identity of the consumer making the request.

(b) A controller may not require a consumer to create a new account to exercise consumer rights but may require a consumer to use an existing account.”

Section 7. Section 30-14-2816, MCA, is amended to read:

“30-14-2816. Compliance by controller or processor. (1) Nothing in this part may be construed to restrict a controller’s or processor’s ability to:

(a) comply with federal, state, or municipal ordinances or regulations;

(b) comply with a civil, criminal, or regulatory inquiry, investigation, subpoena, or summons by federal, state, municipal, or other government authorities;

(c) cooperate with law enforcement agencies concerning conduct or activity that the controller or processor reasonably and in good faith believes may violate federal, state, or municipal ordinances or regulations;

(d) investigate, establish, exercise, prepare for, or defend legal claims;

(e) provide a product or service specifically requested by a consumer;

(f) perform under a contract to which a consumer is a party, including fulfilling the terms of a written warranty;

(j) engage in public or peer-reviewed scientific or statistical research in the public interest that adheres to all other applicable ethics and privacy laws and is approved, monitored, and governed by an institutional review board that determines or similar independent oversight entities that determine:

~~(A)~~(i) whether the deletion of the information is likely to provide substantial benefits that do not exclusively accrue to the controller;

~~(B)~~(ii) the expected benefits of the research outweigh the privacy risks; and

~~(C)~~(iii) whether the controller has implemented reasonable safeguards to mitigate privacy risks associated with research, including any risks associated with re-identification;

(k) assist another controller, processor, or third party with any of the obligations under this part; or

(l) process personal data for reasons of public interest in public health, community health, or population health, but solely to the extent that the processing is:

(A)(i) subject to suitable and specific measures to safeguard the rights of the consumer whose personal data is being processed; and

(B)(ii) under the responsibility of a professional subject to confidentiality obligations under federal, state, or local law.

(2) The obligations imposed on controllers or processors under this part may not restrict a controller's or processor's ability to collect, use, or retain personal data for internal use to:

(a) conduct internal research to develop, improve, or repair products, services, or technology;

(b) effectuate a product recall;

(c) identify and repair technical errors that impair existing or intended functionality; or

(d) perform internal operations that are reasonably aligned with the expectations of the consumer or reasonably anticipated based on the consumer's existing relationship with the controller or are otherwise compatible with processing data in furtherance of the provision of a product or service specifically requested by a consumer or the performance of a contract to which the consumer is a party.

(3) The obligations imposed on controllers or processors under this part may not apply when compliance by the controller or processor with this part would violate an evidentiary privilege under the laws of this state. Nothing in this part may be construed to prevent a controller or processor from providing personal data concerning a consumer to a person covered by an evidentiary privilege under the laws of this state as part of a privileged communication.

(4) A controller or processor that discloses personal data to a processor or third-party controller in accordance with this part may not be considered to have violated this part if the processor or third-party controller that receives and processes the personal data violates this part provided, at the time the disclosing controller or processor disclosed the personal data, the disclosing controller or processor did not have actual knowledge that the receiving processor or third-party controller would violate this part. A receiving processor or third-party controller receiving personal data from a disclosing controller or processor in compliance with this part is likewise not in violation of this part for the transgressions of the disclosing controller or processor from which the receiving processor or third-party controller receives the personal data.

(5) Nothing in this part may be construed to:

(a) impose any obligation on a controller or processor that adversely affects the rights or freedoms of any person, including but not limited to the rights of any person:

(i) to freedom of speech or freedom of the press guaranteed in the first amendment to the United States constitution; or

(ii) under Rule 504 of the Montana Rules of Evidence; or

(b) apply to a person's processing of personal data during the person's personal or household activities; or

(c) require a controller or processor to implement an age verification or age-gating system or otherwise affirmatively collect the age of consumers, but a controller that chooses to conduct commercially reasonable age estimation to determine which consumers are minors is not liable for an erroneous age estimation.

(6) Personal data processed by a controller pursuant to this section may be processed to the extent that the processing is:

(a) reasonably necessary and proportionate to the purposes listed in this section; and

(b) adequate, relevant, and limited to what is necessary in relation to the specific purposes listed in this section. The controller or processor must, when applicable, consider the nature and purpose of the collection, use, or retention of the personal data collected, used, or retained pursuant to subsection (2). The personal data must be subject to reasonable administrative, technical, and physical measures to protect the confidentiality, integrity, and accessibility of the personal data and to reduce reasonably foreseeable risks of harm to consumers relating to the collection, use, or retention of personal data.

(7) If a controller processes personal data pursuant to an exemption in this section, the controller bears the burden of demonstrating that the processing qualifies for the exemption and complies with the requirements in subsection (6).

(8) Processing personal data for the purposes expressly identified in this section may not solely make a legal entity a controller with respect to the processing.”

(b) *If the controller fails to correct the violation within 60 days of receipt of the notice of violation, the attorney general may bring an action pursuant to this section.*

(c) ~~If within the 60- day period the controller corrects the noticed violation and provides the attorney general an express written statement that the alleged violations have been corrected and that no such further violations will occur, no action must be initiated against the controller.~~

(4) *Actions brought by the department to enforce this part are subject to the statute of limitations pursuant to 27-2-231.*

(6) No enrollee may be required to repeat a step therapy protocol if the enrollee, while under the enrollee's current or a previous health plan, used the prescription drug required by the step therapy protocol or another prescription drug in the same pharmacologic class with a similar efficacy and side effect profile or with the same mechanism of action and discontinued use of the drug due to lack of efficacy, effectiveness, an adverse event, or contraindication. This section does not apply to cases of fraud, misrepresentation, nonpayment of premium, and exhaustion of benefits or if the member for whom the prior approval was granted is not covered when the service is provided.

CHAPTER NO. 579

[SB 466]

AN ACT ESTABLISHING FACTORS THAT MUST BE CONSIDERED WHEN DETERMINING THE BEST INTERESTS OF A CHILD.

WHEREAS, children and minors are too often an afterthought in policymaking even though every aspect of government policy impacts kids, from health care to transportation. The government has no way to evaluate whether policies would be good or bad for children, and no unified standard to use for that evaluation; and

WHEREAS, due to the age of children and minors and their dependency, maturity, and lack of mechanisms to make the case for their own interests and needs, children depend on adults in society and government to support their health and well-being; and

WHEREAS, without a clear mandate to consider their needs, children will continue to be disregarded in policy decisions that impact their lives and well-being; and

WHEREAS, a “best interests of the child” standard is the priority of policymaking that creates a benchmark through which all policies can be evaluated and would make positive outcomes for children.

Be it enacted by the Legislature of the State of Montana:

Section 1. Best interests of child – factors to consider. (1) In any circumstance in which the best interests of a child must be determined, the following factors, to the extent they are present, must be considered but are not exhaustive:

- (a) the physical and emotional safety of the child;
 - (b) the temperament and developmental needs of the child;
 - (c) the capacity and the disposition of the parents to understand and meet the needs of the child;
 - (d) any relevant and material information obtained from the child, including the informed preferences of the child;
 - (e) the wishes of the child’s parents as to custody;
 - (f) the past and current interaction and relationship of the child with each parent, the child’s siblings, and any other person who may significantly affect the best interests of the child;
 - (g) the importance of family integrity, the emotional ties, and relationships between the child and the child’s parents, siblings, family, household members, or other caregivers;
 - (h) the willingness and ability of each parent to facilitate and encourage continuing parent-child relationship between the child and the other parent as is appropriate, including compliance with any court orders;
 - (i) any manipulation by or coercive behavior of the parents in an effort to involve the child in the parents’ dispute;
 - (j) the ability of each parent to be actively involved in the life of the child;
 - (k) the child’s adjustment to the child’s home, school, and community environments;
 - (l) the capacity of the parents to provide a stable home and adequate food, clothing, and medical care may not be based solely on the socioeconomic status of a parent;
 - (m) the mental and physical health of all individuals involved, except that a disability of a proposed custodial parent or other party, in and of itself, may not be determinative of custody unless the proposed custodial arrangement is not in the best interests of the child;
 - (n) the child’s cultural background;
 - (o) the effect on the child exposed to an offense identified in 45-5-202, 45-5-206, 45-5-213, or 45-5-215 against a partner or family member in the presence of the child by a predominant aggressor;
 - (p) whether the child or a sibling of the child has been abused or neglected, as defined in 41-3-102; and
 - (q) whether the party satisfactorily completes participation in a parenting education program established pursuant to a court directive.
- (2) A court is not required to assign any weight to any of the factors that it considers but shall articulate the basis for its decision.

Section 2. Codification instruction. [Section 1] is intended to be codified as a new part in Title 41, chapter 1, and the provisions of Title 41, chapter 1, apply to [section 1].

operator of any other vehicle approaching from the rear may not overtake and pass the stopped vehicle.

(3) A person may not operate a vehicle through a column of school children crossing a roadway or past a school crossing guard while the crossing guard is directing the movement of children across a roadway and while the crossing guard is holding an official sign in the stop position.

(4) (a) *When the operator of a vehicle is approaching a flashing pedestrian-actuated device at a crosswalk and a pedestrian is present, the operator shall yield the right-of-way, slowing down or stopping if necessary, and remain stopped until the pedestrian has crossed the roadway. The operator may proceed with caution after the pedestrian has completed crossing the roadway.*

(b) *If the vehicle reaches the intersection before the pedestrian-actuated device is engaged, or if the vehicle cannot safely stop before entering the intersection when the pedestrian-actuated device is engaged, then the vehicle may continue through the intersection at a safe speed.*

(6) *For the purposes of this section, the following definitions apply:*

(a) *“Pedestrian-actuated device” means a traffic-control device that, when activated by a pedestrian, begins a timed flashing light sequence to indicate the pedestrian’s presence in the crosswalk. The term includes but is not limited to:*

CHAPTER NO. 582

[SB 544]

AN ACT REVISING INDIVIDUAL INCOME TAX LAWS TO PROVIDE FOR A TRANSITION ADJUSTMENT FOR CERTAIN LOSSES; ALLOWING A TAXPAYER ELECTION TO CLAIM LOSSES THAT WERE NOT PROVIDED

FOR IN 2021 INCOME TAX SIMPLIFICATION LEGISLATION; PROVIDING RULEMAKING AUTHORITY; AND PROVIDING AN IMMEDIATE EFFECTIVE DATE AND A RETROACTIVE APPLICABILITY DATE.

Be it enacted by the Legislature of the State of Montana:

Section 1. Transition – net operating loss and net operating loss carryover – Senate Bill No. 399 (2021) adjustments – rulemaking.

(1) Subject to the provisions of this section, a taxpayer may elect to make a transition adjustment for a Montana net operating loss carryover under section 172(a) of the Internal Revenue Code. The adjustment is the sum of all positive and negative adjustments to a taxpayer's Montana taxable income resulting from a difference in federal and Montana income tax from before January 1, 2024.

(2) If the federal carryover was not the same as the Montana carryover on December 31, 2023:

(a) the difference is a positive adjustment to the taxpayer's Montana taxable income if the Montana carryover was smaller than the federal carryover; and

(b) the difference is a negative adjustment to the taxpayer's Montana taxable income if the Montana carryover was larger than the federal carryover.

(3) Notwithstanding section 67(3)(d), Chapter 503, Laws of 2021, the election provided for in this section must be made on a tax year 2024 income tax return that is filed on or before October 15, 2025, and must include a completed carryforward adjustment form that the department of revenue publishes. A taxpayer may file an amended 2024 income tax return to make this election as long as that amended return and the accompanying carryforward adjustment form are filed on or before October 15, 2025. A taxpayer that makes the election must apply the entire carryforward or carryback toward tax year 2024 as a carryforward adjustment until Montana taxable income is \$0, and then toward each subsequent year until Montana taxable income is \$0 for each subsequent year, not to exceed 7 years. The election does not impact the calculation of a new net operating loss carryover or carryback for tax years after December 31, 2023. The carryforward adjustment for the net operating loss carryforward must be used after any net operating losses that accrue after December 31, 2023.

(4) If a taxpayer does not make the election provided for in this section on or before October 15, 2025, then the taxpayer may not make the carryforward adjustment election, and section 67(3)(d), Chapter 503, Laws of 2021, applies. The department is not permitted to grant extensions to the October 15, 2025, deadline.

(5) The department may prescribe forms requiring information it believes is necessary to administer the adjustment and may adopt rules to implement the transition adjustment provided by this section.

Section 2. Effective date. [This act] is effective on passage and approval.

Section 3. Retroactive applicability. [This act] applies retroactively, within the meaning of 1-2-109, to income tax years beginning after December 31, 2023.

(4) “Division of land” means the segregation of one or more parcels of land from a larger tract held in single or undivided ownership by transferring or contracting to transfer title to a portion of the tract or properly filing a certificate of survey or subdivision plat establishing the identity of the segregated parcels pursuant to this chapter. (12) "Plat" means a graphical representation of a subdivision showing the division of land into lots, parcels, blocks, streets, alleys, and other divisions and dedications.

(13) "Preliminary plat" means a neat and scaled drawing of a proposed subdivision showing the layout of streets, alleys, lots, blocks, and other elements of a subdivision that furnish a basis for review by a governing body.

(14) "Public utility" has the meaning provided in 69-3-101, except that for the purposes of this chapter, the term includes county or consolidated city and county water or sewer districts as provided for in Title 7, chapter 13, parts 22 and 23, and municipal sewer or water systems and municipal water supply systems established by the governing body of a municipality pursuant to Title 7, chapter 13, parts 42, 43, and 44.

(d) prescribe the form and contents of preliminary plats and the documents to accompany final plats;

(e) provide for the identification of areas that, because of natural or human-caused hazards, are unsuitable for subdivision development. The regulations must prohibit subdivisions in these areas unless the hazards can be eliminated or overcome by approved construction techniques or other mitigation measures authorized under 76-3-608(4) and (5). Approved construction techniques or other mitigation measures may not include building regulations as defined in 50-60-101 other than those identified by the department of labor and industry as provided in 50-60-901.

(i) provide for the review of subdivision applications by affected public utilities and those agencies of local, state, and federal government identified during the preapplication consultation conducted pursuant to subsection (1)(q) or those having a substantial interest in a proposed subdivision. A public utility or agency review may not delay the governing body's action on the application beyond the time limits specified in this chapter, and the failure of any agency to complete a review of an application may not be a basis for rejection of the application by the governing body.

(j) when a subdivision creates parcels with lot sizes averaging less than 5 acres, require the subdivider to:

(i) reserve all or a portion of the appropriation water rights owned by the owner of the land to be subdivided and transfer the water rights to a single entity for use by landowners within the subdivision who have a legal right to the water and reserve and sever any remaining surface water rights from the land;

(ii) if the land to be subdivided is subject to a contract or interest in a public or private entity formed to provide the use of a water right on the subdivision lots, establish a landowner's water use agreement administered through a single entity that specifies administration and the rights and responsibilities of landowners within the subdivision who have a legal right and access to the water; or

(B) are a sufficient distance from the centerline of the ditch to allow for construction, repair, maintenance, and inspection of the ditch; and

(C) prohibit the placement of structures or the planting of vegetation other than grass within the ditch easement without the written permission of the ditch owner.

(ii) Establishment of easements pursuant to this subsection (1)(k) is not required if:

(A) the average lot size is 1 acre or less and the subdivider provides for disclosure, in a manner acceptable to the governing body, that adequately notifies potential buyers of lots that are classified as irrigated land and may continue to be assessed for irrigation water delivery even though the water may not be deliverable; or

(B) the water rights are removed or the process has been initiated to remove the water rights from the subdivided land through an appropriate legal or administrative process and if the removal or intended removal is denoted on the preliminary plat. If removal of water rights is not complete upon filing of the final plat, the subdivider shall provide written notification to prospective buyers of the intent to remove the water right and shall document that intent, when applicable, in agreements and legal documents for related sales transactions.

(l) require the subdivider, unless otherwise provided for under separate written agreement or filed easement, to file and record ditch easements for unobstructed use and maintenance of existing water delivery ditches, pipelines, and facilities in the subdivision that are necessary to convey water through the subdivision to lands adjacent to or beyond the subdivision boundaries in quantities and in a manner that are consistent with historic and legal rights;

(m) require the subdivider to describe, dimension, and show public utility easements in the subdivision on the final plat in their true and correct location. The public utility easements must be of sufficient width to allow the physical placement and unobstructed maintenance of public utility facilities for the provision of public utility services within the subdivision.

(n) establish whether the governing body, its authorized agent or agency, or both will hold public hearings;

(p) establish criteria that the governing body or reviewing authority will use to determine whether a proposed method of disposition using the exemptions provided in 76-3-201 or 76-3-207 is an attempt to evade the requirements of this chapter. The regulations must provide for an appeals process to the governing body if the reviewing authority is not the governing body.

(q) establish a preapplication process that:

(i) requires a subdivider to meet with the authorized agent or agency, other than the governing body, that is designated by the governing body to review subdivision applications prior to the subdivider submitting the application;

(ii) requires, for informational purposes only, identification of the state laws, local regulations, and growth policy provisions, if a growth policy has been adopted, that may apply to the subdivision review process;

(iii) requires a list to be made available to the subdivider of the public utilities, those agencies of local, state, and federal government, and any other entities that may be contacted for comment on the subdivision application

and the timeframes that the public utilities, agencies, and other entities are given to respond. If, during the review of the application, the agent or agency designated by the governing body contacts a public utility, agency, or other entity that was not included on the list originally made available to the subdivider, the agent or agency shall notify the subdivider of the contact and the timeframe for response.

(iv) requires that a preapplication meeting take place no more than 30 days from the date that the authorized agent or agency receives a written request for a preapplication meeting from the subdivider; and

(v) establishes a time limit after a preapplication meeting by which an application must be submitted;

The county superintendent's decision must be upheld unless the court finds that the county superintendent's decision constituted an abuse of discretion under this section. *The county superintendent shall notify the department of revenue of the approval of a petition to transfer territory from one school district to another.*

(10) Whenever a petition to transfer territory from one district to another district creates a joint district or affects the boundary of an existing joint district, the petition to transfer territory must be delivered to the county superintendent of the county in which the territory proposed to be transferred is located. The county superintendent shall notify any other county superintendents of counties with districts affected by the petition, and the duties prescribed in this section for the county superintendent must be performed jointly. The decision issued under subsection (8) must be made by a majority of the county superintendents.

(11) A petition seeking to transfer territory out of or into a K-12 district must propose the transfer of territory for both elementary and high school purposes. In the case of a proposed transfer out of or into a K-12 district, a petition that fails to propose the transfer of territory for both elementary and high school purposes is invalid for the purposes of this section.

(12) If a petition to transfer territory is granted under this section, for the 3 years immediately following the transfer:

(a) the taxable value of territory transferred must be divided equally between the school district from which the territory was transferred and the school district to which the property was transferred;

(b) when certifying taxable values pursuant to 15-10-202, the department of revenue shall include half of the certified value of the transferred territory in each school district's certified taxable value;

(c) each school district shall calculate the mills required for its district operational levies, as defined in [section 10], based on the certified taxable value provided under subsection (12)(b); and

(d) when levying taxes for district operational levies pursuant to 20-9-142, the county commissioners shall fix and levy one-half of the number of mills for each district's operational levies on the full taxable value of all property within the transferred territory.

(13) (a) When a petition to transfer territory has been granted for a school district that has paid a reconciliation payment to another school district under [section 12]:

(i) the school district to which the territory has been transferred shall budget and impose a levy for 3 consecutive years following the transfer to generate revenue equal to the most recent reconciliation payment it received from the district from which the territory has been transferred; and

(ii) the school district imposing the levy shall deposit the revenue in its tuition fund and pay the district from which the territory was transferred an amount equal to the revenue raised in subsection (13)(a)(i) for 3 consecutive years following the transfer, with at least half of the annual payment made by December 31 and the remainder by June 15 of the same fiscal year.

(b) The district from which the territory is transferred shall deposit the received payment in its flexibility fund or allocate it among its budgeted funds as determined by the trustees."

(2) If the utility requests a certificate of public convenience and necessity from the commission pursuant to subsection (1), the department may not make a determination regarding the requirements of subsections 75-20-301(1)(a), (1)(d), and (1)(f).

(3) (a) Upon receiving a request from a public utility or entity, the commission shall determine within 300 days whether the construction of the proposed transmission facility is in the public interest and may grant or deny the certificate of public convenience and necessity.

(b) In making a determination, the commission shall consider:

(i) the need for the proposed transmission facility to ensure reliable service for customers;

(ii) the ability of the proposed transmission facility to improve Montana utility customer access to reliable and cost-effective electric generation or storage facilities;

(a) (i) approve or deny, in whole or in part an application for advanced cost approval of a transmission line and facility to give the public utility a presumption in any future rate proceeding that the actual construction costs for that line are prudent if the actual construction costs are less than or equal to the approved costs; or

(ii) to the extent actual costs are greater than approved costs, there is no presumption the actual construction costs for that line are prudent, and the commission shall determine if the costs are prudent and recoverable; and

(b) consider all relevant information until the administrative record in the proceeding is closed for the commission's evaluation of an application.

CHAPTER NO. 600

[SB 335]

AN ACT CREATING THE MONTANA DENTAL INSURANCE TRANSPARENCY AND ACCOUNTABILITY ACT; PROVIDING DEFINITIONS; PROVIDING FOR TRANSPARENCY OF DENTAL INSURANCE PREMIUMS; PROVIDING FOR CERTAIN REBATES; ESTABLISHING REPORTING REQUIREMENTS; PROVIDING RULEMAKING AUTHORITY; AMENDING SECTION 33-18-208, MCA; AND PROVIDING AN EFFECTIVE DATE AND AN APPLICABILITY DATE.

Be it enacted by the Legislature of the State of Montana:

Section 1. Short title – purpose – scope – exceptions. (1) [Sections 1 through 5] may be cited as the “Montana Dental Insurance Transparency and Accountability Act”.

(2) The purpose of [sections 1 through 5] is to:

(a) require that dental insurance coverage has a medical loss ratio that is transparent to the public and fair to covered individuals; and

(b) provide for transparency of the expenditure of dental health care plan premiums and to require annual reports and remediation if the dental loss ratio falls below a certain percentage.

(3) The provisions of [sections 1 through 5] apply to all policies and certificates of individual and group dental insurance offered to, renewed for, or issued to Montana residents by a disability insurer offering dental coverage.

(4) [Sections 1 through 5] do not apply to health insurance coverage that has dental benefits imbedded in the plan in addition to other medical benefits and is subject to the minimum medical loss ratio requirements of Public Law 111-148, the Patient Protection and Affordable Care Act.

(5) [Sections 1 through 5] do not apply to dental care services covered under medicaid or the healthy Montana kids plan provided for in Title 53, chapter 4, part 11.

Section 2. Definitions. As used in [sections 1 through 5], the following definitions apply:

(1) (a) “Dental insurer” means an insurance company licensed to do business in the state that offers coverage for dental services, including excepted benefits as defined in 33-22-140.

(b) The term does not include health insurance coverage described in [section 1(4)].

(2) “Dental loss ratio” means the percentage of premium dollars spent on patient care as calculated pursuant to subsection (3)(b)(i).

(3) (a) “Medical loss ratio” is the minimum percentage of all premium funds collected by an insurer each year that must be spent on actual patient care rather than overhead costs.

(b) The dental loss ratio is calculated by dividing the numerator by the denominator, in which:

(i) the numerator is the sum of the amount incurred for clinical dental services provided to enrollees, the amount incurred on activities that improve dental care quality, and other incurred claims as defined in 45 CFR 158.140(a); and

(ii) the denominator is the total amount of premium revenue, excluding federal and state taxes, licensing and regulatory fees paid, nonprofit community benefit expenditures as defined in 45 CFR 158.162(c), and any other payments required by federal law.

Section 3. Transparency of dental insurance premiums. (1) A dental insurer that issues, sells, or renews a plan, policy, contract, or certificate covering dental services shall file by March 1 of each year with its annual statement a medical dental loss ratio report with the commissioner of securities and insurance that is organized by market and product type and contains similar information required in the 2013 federal medical loss ratio annual reporting form. The filing must also report additional data that includes the number of enrollees, the plan cost-sharing and deductible amounts, the annual maximum coverage limit, and the number of enrollees who meet or exceed the annual coverage limit.

(2) (a) The dental loss ratio reporting year must be for the policy year during which dental coverage is provided by the insurer. All terms used in the dental loss ratio annual report have the same meaning as used in the federal Public Health Service Act, 42 U.S.C. 300gg-18, and 45 CFR, part 158.

(b) If data verification of the dental insurer’s representations in the dental loss ratio annual report is considered necessary, the commissioner shall provide the dental insurer with a notification of the additional information needed within 30 days.

(c) The dental insurer has 30 days from the date of notification to submit to the commissioner all requested data. The commissioner may extend the time for a dental insurer to comply with this subsection (2)(c) on a finding of good cause.

(3) By January 1 of the year after the commissioner receives the dental loss ratio information collected pursuant to [sections 1 through 5], the commissioner shall make the information, including the aggregate dental loss ratio and other data reported pursuant to this section, available to the public in a searchable format on a public website that allows members of the public to compare dental loss ratios among insurers by plan type. The commissioner shall accomplish this by posting the information on the department’s website.

(4) The commissioner shall report biennially the data in this section to the economic affairs interim committee in accordance with 5-11-210.

Section 4. Excess revenue – rebate. (1) The commissioner shall aggregate dental loss ratios for each dental insurer by year pursuant to [section 3] for each market segment in which the dental insurer operates. The commissioner shall calculate an average dental loss ratio for each market segment using aggregate data for a 3-year period, including data for the most recent dental loss ratio reporting year and the data for the two prior dental loss ratio reporting years. Newer experience is subject to reporting standards specified in 45 CFR 158.121.

(2) (a) The commissioner shall calculate an average dental loss ratio for each market segment using the data pursuant to subsection (1), identify as outliers dental plans that fall outside 1 standard deviation of the average dental loss ratio, and report those plans to the legislature as provided in [section 3(4)].

(b) A dental insurer may not be considered an outlier if its dental loss ratio in a market segment is within 3 percentage points of the average dental loss ratio. A higher threshold may be set in unique circumstances as determined reasonable by the commissioner.

(3) The commissioner shall investigate dental insurers that report a dental loss ratio lower than 1 standard deviation from the mathematical average and may take remediation or enforcement actions against them, including ordering them to rebate, in a manner consistent with 45 CFR, part 158, subpart B, all premiums paid above the amounts that would have caused the dental insurer to have achieved the mathematical average of the data submitted in a given year for a given market segment.

(4) The report in subsection (2) is organized to show year-over-year changes in a dental insurer's outlier status relative to meeting the 1 standard deviation outlier standard in subsection (2). If the dental loss ratio for a dental insurer in a market segment does not increase and remains an outlier as described in subsection (2) after 2 consecutive years, barring unique circumstances as determined reasonable by the commissioner, the dental insurer is subject to a minimum dental loss ratio percentage by market segment. The commissioner shall promulgate rules establishing the dental loss ratio percentage based on, at minimum, the average of existing dental insurer loss ratios by market segment in the state to be effective no sooner than 42 months after a dental insurer is determined to be an outlier.

(5) A dental insurer subject to remediation in subsections (3) and (4) shall provide any rebate owing to a policyholder no later than August 1 of the fiscal year following the year for which the ratio described in subsection (1) was calculated. The commissioner may establish alternatives to direct rebates to include premium reductions in the following benefit year.

(6) The commissioner may promulgate rules that create a process to identify dental insurers that increase rates in excess of the percentage increase of the latest dental services consumer price index as reported through the bureau of labor statistics of the United States department of labor.

Section 5. Rulemaking. (1) The commissioner of securities and insurance shall adopt rules to implement the provisions of [sections 1 through 5].

(2) (a) The commissioner shall define by rule:

- (i) expenditures for clinical dental services;
- (ii) activities that improve dental care quality; and
- (iii) overhead and administrative cost expenditures.

(b) Activities conducted by an issuer intended to improve dental care quality may not exceed 5% of net premium revenue.

(3) The definitions promulgated by rule pursuant to this section must be consistent with similar definitions that are used for the reporting of medical loss ratios by insurers offering health insurance coverage in the state. Overhead and administrative costs may not be included in the numerator.

Section 6. Section 33-18-208, MCA, is amended to read:

“33-18-208. Contract to contain agreements – rebates prohibited – life, disability, and annuity contracts. Except as otherwise expressly provided by law *and in [section 4]*, ~~no~~ a person ~~shall~~ *may not* knowingly:

(1) permit or offer to make or make any contract of life insurance, life annuity, or disability insurance or agreement as to such contract other than as plainly expressed in the contract issued thereon;

(2) pay or allow or give or offer to pay, allow, or give, directly or indirectly, as inducement to such insurance or annuity any rebate of premiums payable on the contract or any special favor or advantage in the dividends or other benefits thereon or any paid employment or contract for services of any kind or any valuable consideration or inducement whatever not specified in the contract;

(3) directly or indirectly give or sell or purchase or offer or agree to give, sell, purchase, or allow as inducement to such insurance or annuity or in connection therewith and whether or not to be specified in the policy or contract, any agreement of any form or nature promising returns and profits or any stocks, bonds, or other securities or interest present or contingent therein or as measured thereby of any insurance company or other corporation, association, or partnership or any dividends or profits accrued or to accrue thereon; or

(4) offer, promise, or give anything of value whatsoever not specified in the contract.”

Section 7. Codification instruction. [Sections 1 through 5] are intended to be codified as an integral part of Title 33, chapter 22, and the provisions of Title 33, chapter 22, apply to [sections 1 through 5].

Section 8. Effective date. [This act] is effective June 1, 2025.

Section 9. Applicability. [This act] applies to dental insurance policies, plans, contracts, and certificates issued or renewed on or after January 1, 2026.

[SB 337]

AN ACT REVISING PROPERTY TAXES FOR SUBDIVISION DEVELOPMENT PROJECTS; PROVIDING A TEMPORARY TAX EXEMPTION FOR PROPERTY THAT IS PART OF A RESIDENTIAL SUBDIVISION DEVELOPMENT PROJECT; PROVIDING FOR PREPAYMENT OF PROPERTY TAXES THAT WOULD HAVE BEEN COLLECTED IF THE SUBJECT PROPERTY WAS NOT UNDERGOING RESIDENTIAL SUBDIVISION DEVELOPMENT; PROVIDING FOR TERMINATION OF THE EXEMPTION FOR CERTAIN EVENTS; PROVIDING RULEMAKING AUTHORITY; AMENDING SECTION 15-10-305, MCA; AND PROVIDING AN APPLICABILITY DATE.

Be it enacted by the Legislature of the State of Montana:

Section 1. Temporary exemption for residential subdivision development – rulemaking. (1) Subject to the provisions of this section, property that is undergoing residential subdivision development is temporarily exempt from taxation at the start of the property tax year beginning January 1 after the following conditions are met:

(a) the developer has submitted a timely property tax exemption application to the department and the department has approved the exemption application; and

(b) within 30 days after approval of the exemption application and before January 1 of the property tax year in which the exemption is sought, the developer has submitted a property tax prepayment equal to five times the amount of property taxes and assessments due on the property in the most recent property tax year. The payment is payable to the county treasurer and must be distributed by the treasurer to funds and accounts in the same ratio as property tax collected on the property is distributed.

(2) At the time the exemption is granted, the department shall provide a notice to the clerk and recorder in the county in which the property is located. The clerk shall file the notice when the payment provided for in subsection (1)(b) is made. The notice must indicate that an exemption pursuant to this section has been granted on a form prescribed by the department.

(3) The developer or an interested party shall pay the amount provided for in subsection (1)(b) plus a fee of 5% before January 1 of the property tax year in which the exemption is sought. The payment is payable to the county treasurer and must be distributed by the treasurer to funds and accounts in the same ratio as property tax collected on the property is distributed.

(4) (a) Subject to subsection (4)(b), the temporary exemption applies to all real property in the subdivision that was granted the exemption, including new construction of residential property for a period not to exceed 5 years, regardless of the number of conveyances from the land split, the value of real property and residential real property during the construction process, or a change in ownership.

(b) The exemption expires on any lot that was part of the land split at the start of the property tax year beginning on January 1 after a habitable residential structure has been constructed on the lot.

(5) If subdivision development is complete before the expiration of the period provided for in subsection (4)(a), the temporary exemption expires on December 31 of the year in which the subdivision development is complete. For the purposes of this subsection, subdivision development is complete when at least 95% of the lots that are part of the land split contain a habitable residential structure.

(6) The department may adopt rules to implement the provisions of this section.

Section 2. Section 15-10-305, MCA, is amended to read:

“15-10-305. Clerk and recorder to report mill levy – department to compute and enter taxes. (1) (a) The county clerk and recorder shall by the second Monday in September or within 30 calendar days after receiving certified taxable values notify the department of the number of mills needed to be levied for each taxing jurisdiction in the county. Except as provided in subsection (1)(b), the department shall compute the taxes by multiplying the number of mills times the taxable value of the property to be taxed and shall add any fees or assessments required to be levied against a person owning property. All taxes, fees, and assessments must be itemized for the property listed in the property tax record.

(b) ~~In~~ *Except as provided in [section 1] regarding property that has been granted a residential subdivision property tax exemption, in conveyances that result in a land split, the taxes must be based on the property as assessed on January 1 preceding the conveyance. The department is not required to include the name of the new owner in the computation of the amount of taxes, fees, and assessments to be levied against property that is part of a land conveyance*

if including the new owner's name would cause the department to violate the deadline provided in subsection (2).

(2) The department shall complete the computation of the amount of taxes, fees, and assessments to be levied against the property and shall notify the county clerk and recorder and the county treasurer by the second Monday in October. The treatment plan may include a physician’s prescription of reasonable and appropriate medication that is consistent with accepted medical standards. If the defendant refuses to comply with the treatment plan, the facility may petition the court for an order requiring compliance. The defendant has a right to a hearing on the petition. The court shall enter into the record a detailed statement of the facts upon which an order is made, and if compliance with the individualized treatment plan is ordered, the court shall also enter into the record specific findings that the state has proved an overriding justification for the order and that the treatment being ordered is medically appropriate.~~

(3)(3) (a) *The committing court shall, after receiving notice from the department of public health and human services to the court, the defendant or the defendant’s counsel, and county attorney that a defendant committed to the*

Montana state hospital for a fitness evaluation under 46-14-202 or restoration to fitness under 46-14-221 has been determined to be fit or restored to fitness, order the defendant to be returned to the committing county and set the matter for trial. The committing court shall also, for any incarcerated defendant, within 90 days of ordering commitment, review the defendant's fitness to proceed status related to a commitment ordered under subsection (2). If the court finds that the defendant has not been admitted to an appropriate mental health facility, residential facility, or to the custody of the director of the department of public health and human services under subsection (2) and is still unfit to proceed and that it does not appear that the defendant will become fit to proceed within the reasonably foreseeable future, because the defendant has a mental disorder or mental illness, the court shall assess whether the proceeding against the defendant must be dismissed, except as provided in subsection (4) or whether alternatives to incarceration, if applicable, or to commitment are appropriate under the circumstances, including whether the involuntary administration of medication is necessary.

(b) If the court determines that the defendant lacks fitness to proceed because the defendant has a mental disorder, the proceeding against the defendant must be dismissed and the prosecutor shall petition the court in the manner provided in Title 53, chapter 21, to determine the disposition of the defendant pursuant to those provisions.

(b) (i) If, on review of the defendant's custodial status related to any commitment ordered pursuant to subsection (2), it is determined that an incarcerated defendant requires treatment, including administration of medication, the county attorney may petition the court for an order requiring compliance with treatment, including involuntary administration of medication.

(ii) The defendant has a right to a hearing on the petition. The judge shall appoint a professional person and set a date and hold the hearing on the petition without undue delay. The court shall enter into the record a detailed statement of the facts upon which an order is made, and if involuntary administration of medication or other treatment is ordered, the court shall also enter into the record the specific findings that the state has proved an overriding justification for the order and that the treatment being ordered is medically appropriate. The court may authorize the chief medical officer of a facility or a physician, or the chief medical officer of the department of public health and human services or a physician or advanced practice registered nurse who is under the supervision of or employed by the department of public health and human services, to be designated by the court to administer appropriate medication involuntarily. The department may contract with qualified providers to facilitate treatment within an incarcerative or custodial setting.

(c) (i) On admission to an appropriate mental health facility, residential facility, or to the custody of the director of the department of public health and human services under subsection (2), the facility shall evaluate the defendant and develop an individualized treatment plan to assist the defendant to gain or regain fitness to proceed. The treatment plan may include a physician's prescription of reasonable and appropriate medication that is consistent with accepted medical standards.

(ii) If the defendant refuses to comply with the treatment plan, the facility may involuntarily administer medications to treat a defendant pursuant to the determination of the facility's treatment review committee and involuntary medication review board, if the following criteria are met:

- (A) the defendant suffers from a mental illness or mental disorder;*
- (B) the defendant has been determined to lack fitness to proceed;*

(C) the involuntary administration of medication is in the best medical interests of the defendant;

(D) the defendant is either gravely disabled or poses a likelihood of serious harm to self or others;

(E) the facility has established a treatment review committee and an involuntary medication review board for the involuntary administration of psychotropic medications; and

(F) the policies and procedures relating to the involuntary medication review board require provision to the defendant of a notice of rights and notice of an involuntary medication hearing, an involuntary medication hearing, and an appeal process.

(d) The department of public health and human services shall adopt rules governing treatment review and involuntary administration of medication by a mental health facility, as defined in 53-21-102, a residential facility, as defined in 53-20-102, or the Montana state hospital.

(e) After the initial review of the defendant's custodial status under subsection (3)(a), the court shall review the defendant's custodial status every 30 days or at an interval the court determines appropriate under the circumstances. If on subsequent review the defendant is still unfit, it does not appear that the defendant will become fit within the reasonably foreseeable future, and that alternatives to forensic commitment are not appropriate under the circumstances, the court shall order the proceeding against the defendant dismissed without prejudice and the prosecutor may petition the court in the manner provided in Title 53, chapter 21, to determine the disposition of the defendant pursuant to those provisions.

(e)(f) If the court determines that the defendant lacks fitness to proceed because the defendant has a developmental disability as defined in 53-20-102, the proceeding against the defendant must be dismissed and the prosecutor shall petition the court in the manner provided in Title 53, chapter 20, to determine the disposition of the defendant pursuant to those provisions.

(4)(4) The fact that the defendant is unfit to proceed does not preclude any legal objection to the prosecution that is susceptible to fair determination prior to trial and that is made without the personal participation of the defendant.

(5) Except as provided in subsection (6), the expenses of transporting the defendant to the custody of the director of the department of public health and human services to be placed in an appropriate facility of the department of public health and human services, of the care, custody, and treatment of the defendant at the facility, and of transporting the defendant back are payable by the court or, in district court proceedings, by the office of court administrator.

(6) The cost of care, custody, and treatment at a facility for which the legislature has made a general fund appropriation to the department of public health and human services may not be charged to the office of court administrator.

(5) Except as provided in subsection (6), the expenses of transporting the defendant to the custody of the director of the department of public health and human services to be placed in an appropriate facility of the department of public health and human services, of the care, custody, and treatment of the defendant at the facility, and of transporting the defendant back are payable by the court or, in district court proceedings, by the office of court administrator.

(6) The cost of care, custody, and treatment at a facility for which the legislature has made a general fund appropriation to the department of public health and human services may not be charged to the office of court administrator."

Section 8. Prioritization of admissions. The Montana state hospital shall prioritize admissions for evaluations and treatment as follows:

(1) first priority shall be given to a pretrial defendant who has been ordered committed to be evaluated and treated under 46-14-221;

(2) second priority shall be given to a pretrial defendant charged with a crime of violence, as defined in 46-18-104, with an order of transport to the Montana state hospital; and

(3) as otherwise established by the department by administrative rule.

Section 9. Saving clause. [This act] does not affect rights and duties that matured, penalties that were incurred, or proceedings that were begun before [the effective date of this act].

Section 10. Effective date. [This act] is effective on passage and approval.

"53-21-126. (Temporary) Trial or hearing on petition. (1) The respondent must be present unless the respondent's presence has been waived as provided in 53-21-119(2), and the respondent must be represented by counsel at all stages of the trial. The trial must be limited to the determination of whether or not the respondent is suffering from a mental disorder and requires commitment. At the trial, the court shall consider all the facts relevant to the issues of whether the respondent is suffering from a mental disorder. If the court determines that the respondent is suffering from a mental disorder, the court shall then determine whether the respondent requires commitment. In determining whether the respondent requires commitment and the appropriate disposition under 53-21-127, the court shall consider the following:

(a) whether the respondent, because of a mental disorder, is substantially unable to provide for the respondent's own basic needs of food, clothing, shelter, health, or safety;

(b) whether the respondent has recently, because of a mental disorder and through an act or an omission, caused self-injury or injury to others;

(c) whether, because of a mental disorder, there is an imminent threat of injury to the respondent or to others because of the respondent's acts or omissions; and

(d) whether the respondent's mental disorder, as demonstrated by the respondent's recent acts or omissions, will, if untreated, predictably result in deterioration of the respondent's mental condition to the point at which the respondent will become a danger to self or to others or will be unable to provide for the respondent's own basic needs of food, clothing, shelter, health, or safety. Predictability may be established by the respondent's relevant medical history.

(2) The standard of proof in a hearing held pursuant to this section is proof beyond a reasonable doubt with respect to any physical facts or evidence and clear and convincing evidence as to all other matters. However, the respondent's mental disorder must be proved to a reasonable medical certainty. Imminent

threat of self-inflicted injury or injury to others must be proved by overt acts or omissions, sufficiently recent in time as to be material and relevant as to the respondent's present condition.

(3) The professional person appointed by the court must be present for the trial and subject to cross-examination. The professional person's presence may be accomplished by the use of two-way electronic audio-video communication. The trial is governed by the Montana Rules of Civil Procedure. However, if the issues are tried by a jury, at least two-thirds of the jurors shall concur on a finding that the respondent is suffering from a mental disorder and requires commitment. The written report of the professional person that indicates the professional person's diagnosis may be attached to the petition, but any matter otherwise inadmissible, such as hearsay matter, is not admissible merely because it is contained in the report. The court may order the trial closed to the public for the protection of the respondent.

(4) The professional person may testify as to the ultimate issue of whether the respondent is suffering from a mental disorder and requires commitment. This testimony is insufficient unless accompanied by evidence from the professional person or others that:

(a) the respondent, because of a mental disorder, is substantially unable to provide for the respondent's own basic needs of food, clothing, shelter, health, or safety;

(b) the respondent has recently, because of a mental disorder and through an act or an omission, caused self-injury or injury to others;

(c) because of a mental disorder, there is an imminent ~~threat~~ *danger* of injury to the respondent or to others because of the respondent's acts or omissions; ~~or~~

(d) (i) the respondent's mental disorder:

(A) has resulted in recent acts, omissions, or behaviors that create difficulty in protecting the respondent's life or health;

(B) is treatable, with a reasonable prospect of success;

(C) has resulted in the respondent's refusing or being unable to consent to voluntary admission for treatment; and

(ii) will, if untreated, predictably result in deterioration of the respondent's mental condition to the point at which the respondent will become a danger to self or to others or will be unable to provide for the respondent's own basic needs of food, clothing, shelter, health, or safety. Predictability may be established by the respondent's relevant medical history; *or*

(e) *whether an emergency situation as defined in 53-21-102 exists.*

(5) The court, upon the showing of good cause and when it is in the best interests of the respondent, may order a change of venue.

(6) An individual with a primary diagnosis of a mental disorder who also has a co-occurring diagnosis of chemical dependency may satisfy criteria for commitment under this part.

53-21-126. (Effective July 1, 2025) Trial or hearing on petition.

(1) The respondent must be present unless the respondent's presence has been waived as provided in 53-21-119(2), and the respondent must be represented by counsel at all stages of the trial. The trial must be limited to the determination of whether or not the respondent is suffering from a mental disorder and requires commitment. At the trial, the court shall consider all the facts relevant to the issues of whether the respondent is suffering from a mental disorder. If the court determines that the respondent is suffering from a mental disorder, the court shall then determine whether the respondent requires commitment. In determining whether the respondent requires commitment and the appropriate disposition under 53-21-127, the court shall consider the following:

(a) whether the respondent, because of a mental disorder, is substantially unable to provide for the respondent's own basic needs of food, clothing, shelter, health, or safety;

(b) whether the respondent has recently, because of a mental disorder and through an act or an omission, caused self-injury or injury to others;

(c) whether, because of a mental disorder, there is an imminent ~~threat~~ *danger* of injury to the respondent or to others because of the respondent's acts or omissions; ~~and~~

(d) (i) whether the respondent's mental disorder, as demonstrated by the respondent's recent acts or omissions, will, if untreated, predictably result in deterioration of the respondent's mental condition to the point at which the respondent will:

(A) become a danger to self or to others; or

(B) be unable to provide for the respondent's own basic needs of food, clothing, shelter, health, or safety.

(ii) Predictability may be established by the respondent's relevant medical history; *and*

(e) *whether an emergency situation as defined in 53-21-102 exists.*

(2) The standard of proof in a hearing held pursuant to this section is proof beyond a reasonable doubt with respect to any physical facts or evidence and clear and convincing evidence as to all other matters. However, the respondent's mental disorder must be proved to a reasonable medical certainty. Imminent threat of self-inflicted injury or injury to others must be proved by overt acts or omissions, sufficiently recent in time as to be material and relevant as to the respondent's present condition.

(3) The professional person appointed by the court must be present for the trial and subject to cross-examination. The professional person's presence may be accomplished by the use of two-way electronic audio-video communication. The trial is governed by the Montana Rules of Civil Procedure. However, if the issues are tried by a jury, at least two-thirds of the jurors shall concur on a finding that the respondent is suffering from a mental disorder and requires commitment. The written report of the professional person that indicates the professional person's diagnosis may be attached to the petition, but any matter otherwise inadmissible, such as hearsay matter, is not admissible merely because it is contained in the report. The court may order the trial closed to the public for the protection of the respondent.

(4) The professional person may testify as to the ultimate issue of whether the respondent is suffering from a mental disorder and requires commitment. This testimony is insufficient unless accompanied by evidence from the professional person or others that:

(a) the respondent, because of a mental disorder, is substantially unable to provide for the respondent's own basic needs of food, clothing, shelter, health, or safety;

(b) the respondent has recently, because of a mental disorder and through an act or an omission, caused self-injury or injury to others;

(c) because of a mental disorder, there is an imminent ~~threat~~ *danger* of injury to the respondent or to others because of the respondent's acts or omissions; ~~or~~

(d) (i) the respondent's mental disorder:

(A) has resulted in recent acts, omissions, or behaviors that create difficulty in protecting the respondent's life or health;

(B) is treatable, with a reasonable prospect of success;

(C) has resulted in the respondent's refusing or being unable to consent to voluntary admission for treatment; and

(ii) will, if untreated, predictably result in deterioration of the respondent's mental condition to the point at which the respondent will become a danger to self or to others or will be unable to provide for the respondent's own basic needs of food, clothing, shelter, health, or safety. Predictability may be established by the respondent's relevant medical history; or

(e) whether an emergency situation as defined in 53-21-102 exists.

(5) The court, upon the showing of good cause and when it is in the best interests of the respondent, may order a change of venue.

(6) An individual with a primary diagnosis of a mental disorder who also has a co-occurring diagnosis of chemical dependency may satisfy criteria for commitment under this part.

(7) An individual with a primary diagnosis of Alzheimer's disease, other forms of dementia, or traumatic brain injury may be committed under this part only if the person meets the criteria outlined in subsection (1)(b), (1)(c), or (1)(d)(i)(A)."

Section 6. Section 53-21-127, MCA, is amended to read:

"53-21-127. (Temporary) Posttrial disposition. (1) If, upon trial, it is determined that the respondent is not suffering from a mental disorder or does not require commitment within the meaning of this part, the respondent must be discharged and the petition dismissed.

(2) If it is determined that the respondent is suffering from a mental disorder and requires commitment within the meaning of this part, the court shall hold a posttrial disposition hearing. The disposition hearing must be held within 5 days (including Saturdays, Sundays, and holidays unless the fifth day falls on a Saturday, Sunday, or holiday), during which time the court may order further evaluation and treatment of the respondent.

(3) (a) At the conclusion of the disposition hearing and pursuant to the provisions in subsection (7), the court shall:

(a)(i) subject to the provisions of 53-21-193, commit the respondent to the state hospital or to a behavioral health inpatient facility for a period of not more than 3 months;

(b)(ii) commit the respondent to a community facility, which may include a category D assisted living facility, or a community program or to any appropriate course of treatment, which may include housing or residential requirements or conditions as provided in 53-21-149, for a period of:

(i)(A) not more than 3 months; or

(ii)(B) not more than 6 months in order to provide the respondent with a less restrictive commitment in the community rather than a more restrictive placement in the state hospital if a respondent has been previously involuntarily committed for inpatient treatment in a mental health facility and the court determines that the admission of evidence of the previous involuntary commitment is relevant to the criterion of predictability, as provided in 53-21-126(1)(d), and outweighs the prejudicial effect of its admission, as provided in 53-21-190; or

(c)(ii) commit the respondent to the Montana mental health nursing care center for a period of not more than 3 months if the following conditions are met:

(i)(A) the respondent meets the admission criteria of the center as described in 53-21-411 and established in administrative rules of the department; and

(ii)(B) the superintendent of the center has issued a written authorization specifying a date and time for admission.

(b) *The court may not commit the respondent to a private mental health facility or hospital without the express consent of the facility or hospital.*

(4) Except as provided in subsection ~~(3)(b)(ii)~~ (3)(a)(ii)(A), a treatment ordered pursuant to this section may not affect the respondent's custody or course of treatment for a period of more than 3 months.

(5) In determining which of the alternatives in subsection (3) to order, the court shall choose the least restrictive alternatives necessary to protect the respondent and the public and to permit effective treatment.

(6) The court may authorize the chief medical officer of a facility or a physician designated by the court to administer appropriate medication involuntarily if the court finds that involuntary medication is necessary to protect the respondent or the public or to facilitate effective treatment. Medication may not be involuntarily administered to a patient unless the chief medical officer of the facility or a physician designated by the court approves it prior to the beginning of the involuntary administration and unless, if possible, a medication review committee reviews it prior to the beginning of the involuntary administration or, if prior review is not possible, within 5 working days after the beginning of the involuntary administration. The medication review committee must include at least one person who is not an employee of the facility or program. The patient and the patient's attorney or advocate, if the patient has one, must receive adequate written notice of the date, time, and place of the review and must be allowed to appear and give testimony and evidence. The involuntary administration of medication must be again reviewed by the committee 14 days and 90 days after the beginning of the involuntary administration if medication is still being involuntarily administered. The mental disabilities board of visitors and the director of the department of public health and human services must be fully informed of the matter within 5 working days after the beginning of the involuntary administration. The director shall report to the governor on an annual basis.

(7) Satisfaction of any one of the criteria listed in 53-21-126(1) justifies commitment pursuant to this chapter. However, if the court relies solely ~~upon on any of the criterion~~ criteria provided in 53-21-126(1)(d), the court may require commitment only to a community facility, which may include a category D assisted living facility, or a program or an appropriate course of treatment, as provided in subsection ~~(3)(b)~~ (3)(a)(ii), and may not require commitment at the state hospital, a behavioral health inpatient facility, or the Montana mental health nursing care center.

(8) In ordering commitment pursuant to this section, the court shall *attest that the court has not relied solely on the criteria provided in 53-21-126(1)(d) and shall* make the following findings of fact:

(a) a detailed statement of the facts upon which the court found the respondent to be suffering from a mental disorder and requiring commitment;

(b) the alternatives for treatment that were considered;

(c) the alternatives available for treatment of the respondent;

(d) the reason that any treatment alternatives were determined to be unsuitable for the respondent;

(e) the name of the facility, program, or individual to be responsible for the management and supervision of the respondent's treatment;

(f) if the order includes a requirement for inpatient treatment, the reason inpatient treatment was chosen from among other alternatives;

(g) if the order commits the respondent to the Montana mental health nursing care center, a finding that the respondent meets the admission criteria of the center and that the superintendent of the center has issued a written authorization specifying a date and time for admission;

(h) if the order provides for an evaluation to determine eligibility for entering a category D assisted living facility, a finding that indicates whether:

- (i) the respondent meets the admission criteria;
 - (ii) there is availability in a category D assisted living facility; and
 - (iii) a category D assisted living facility is the least restrictive environment because the respondent is unlikely to benefit from involuntary commitment to facilities with more intensive treatment; and
- (i) if the order includes involuntary medication, the reason involuntary medication was chosen from among other alternatives.
- (9) Any mental health evaluation report of a professional person who evaluated the respondent or patient in connection with the commitment must be filed under seal at the time of the filing of the court's order but must be made available to the mental health facility to which the respondent or patient is committed.*

53-21-127. (Effective July 1, 2025) Posttrial disposition. (1) A respondent must be discharged and the petition dismissed if, upon trial, it is determined that the respondent:

- (a) is not suffering from a mental disorder;
- (b) does not require commitment within the meaning of this part; or
- (c) is suffering from a mental disorder but the respondent's primary diagnosis is Alzheimer's disease, other forms of dementia, or traumatic brain injury and the respondent meets only the commitment criteria outlined in 53-21-126(1)(a) or (1)(d)(i)(B).

(2) If it is determined that the respondent is suffering from a mental disorder and requires commitment within the meaning of this part, the court shall hold a posttrial disposition hearing. The disposition hearing must be held within 5 days (including Saturdays, Sundays, and holidays unless the fifth day falls on a Saturday, Sunday, or holiday), during which time the court may order further evaluation and treatment of the respondent.

(3) (a) At the conclusion of the disposition hearing and pursuant to the provisions in subsection (7), the court shall:

(a)(i) subject to the provisions of 53-21-193, commit the respondent to the state hospital or to a behavioral health inpatient facility for a period of not more than 3 months;

(b)(ii) commit the respondent to a community facility, which may include a category D assisted living facility, or a community program or to any appropriate course of treatment, which may include housing or residential requirements or conditions as provided in 53-21-149, for a period of:

(i)(A) not more than 3 months; or

(ii)(B) not more than 6 months in order to provide the respondent with a less restrictive commitment in the community rather than a more restrictive placement in the state hospital if a respondent has been previously involuntarily committed for inpatient treatment in a mental health facility and the court determines that the admission of evidence of the previous involuntary commitment is relevant to the criterion of predictability, as provided in 53-21-126(1)(d), and outweighs the prejudicial effect of its admission, as provided in 53-21-190; or

(c)(iii) commit the respondent to the Montana mental health nursing care center for a period of not more than 3 months if the following conditions are met:

(i)(A) the respondent meets the admission criteria of the center as described in 53-21-411 and established in administrative rules of the department; and

(ii)(B) the superintendent of the center has issued a written authorization specifying a date and time for admission.

(b) *The court may not commit the respondent to a private mental health facility or hospital without the express consent of the facility or hospital.*

(4) Except as provided in subsection ~~(3)(b)(ii)~~ (3)(a)(ii), a treatment ordered pursuant to this section may not affect the respondent's custody or course of treatment for a period of more than 3 months.

(5) In determining which of the alternatives in subsection (3) to order, the court shall choose the least restrictive alternatives necessary to protect the respondent and the public and to permit effective treatment.

(6) The court may authorize the chief medical officer of a facility or a physician designated by the court to administer appropriate medication involuntarily if the court finds that involuntary medication is necessary to protect the respondent or the public or to facilitate effective treatment. Medication may not be involuntarily administered to a patient unless the chief medical officer of the facility or a physician designated by the court approves it prior to the beginning of the involuntary administration and unless, if possible, a medication review committee reviews it prior to the beginning of the involuntary administration or, if prior review is not possible, within 5 working days after the beginning of the involuntary administration. The medication review committee must include at least one person who is not an employee of the facility or program. The patient and the patient's attorney or advocate, if the patient has one, must receive adequate written notice of the date, time, and place of the review and must be allowed to appear and give testimony and evidence. The involuntary administration of medication must be again reviewed by the committee 14 days and 90 days after the beginning of the involuntary administration if medication is still being involuntarily administered. The mental disabilities board of visitors and the director of the department of public health and human services must be fully informed of the matter within 5 working days after the beginning of the involuntary administration. The director shall report to the governor on an annual basis.

(7) Except as provided in 53-21-126(7), satisfaction of any one of the criteria listed in 53-21-126(1) justifies commitment pursuant to this chapter. However, if the court relies solely on *any of the criterion criteria* provided in 53-21-126(1)(d), the court may require commitment only to a community facility, which may include a category D assisted living facility, or a program or an appropriate course of treatment, as provided in subsection ~~(3)(b)~~ (3)(a)(ii), and may not require commitment at the state hospital, a behavioral health inpatient facility, or the Montana mental health nursing care center.

(8) In ordering commitment pursuant to this section, the court shall *attest that the court has not relied solely on the criteria provided in 53-21-126(1)(d) and shall* make the following findings of fact:

(a) a detailed statement of the facts upon which the court found the respondent to be suffering from a mental disorder and requiring commitment;

(b) the alternatives for treatment that were considered;

(c) the alternatives available for treatment of the respondent;

(d) the reason that any treatment alternatives were determined to be unsuitable for the respondent;

(e) the name of the facility, program, or individual to be responsible for the management and supervision of the respondent's treatment;

(f) if the order includes a requirement for inpatient treatment, the reason inpatient treatment was chosen from among other alternatives;

(g) if the order commits the respondent to the Montana mental health nursing care center, a finding that the respondent meets the admission criteria of the center and that the superintendent of the center has issued a written authorization specifying a date and time for admission;

(h) if the order provides for an evaluation to determine eligibility for entering a category D assisted living facility, a finding that indicates whether:

- (i) the respondent meets the admission criteria;
 - (ii) there is availability in a category D assisted living facility; and
 - (iii) a category D assisted living facility is the least restrictive environment because the respondent is unlikely to benefit from involuntary commitment to facilities with more intensive treatment; and
- (i) if the order includes involuntary medication, the reason involuntary medication was chosen from among other alternatives.
- (9) Any mental health evaluation report of a professional person who evaluated the respondent or patient in connection with the commitment must be filed under seal at the time of the filing of the court's order but must be made available to the mental health facility to which the respondent or patient is committed."*

(ii) the individual causes injury to the individual's self or to others; or

(iii) the individual is an imminent threat to the individual's self or to others.

(b) The 72-hour period begins at the time when the individual is first detained.

(2) The county may authorize transportation to an appropriately licensed facility within the state if there is not an appropriate mental health facility or crisis stabilization facility within the county where the individual is located or the individual's county of residence.

(3) A mental health professional shall evaluate the individual as soon as possible after the individual is admitted for care. The evaluation must occur within the first 24 hours of the 72-hour hold.

(4) The mental health professional shall write a report of the evaluation and shall provide a copy of the report to the individual, the county attorney, and the office of the state public defender. The report must state:

(a) recommendations for further treatment, if any; and

(b) whether it is the opinion of the mental health professional that further commitment, including a petition for commitment under 53-21-121, may be necessary.

(5) During the course of the 72-hour hold, the individual may consent to take any medication to stabilize the individual's mental disorder but may not refuse any lifesaving medication considered necessary by a professional person as defined in 53-21-102.

(6) At any time during the 72-hour hold, the individual may be released if, in the opinion of the mental health professional, the individual no longer requires further treatment.

Section 2. Section 53-21-119, MCA, is amended to read:

"53-21-119. Waiver of rights – right to counsel and right to treatment not waivable. (1) A person may waive the person's rights, or if the person is not capable of making an intentional and knowing decision, these rights may be waived by the person's counsel and friend of respondent, if a friend of respondent is appointed, acting together if a record is made of the reasons for the waiver. The right to counsel may not be waived. The right to treatment provided for in this part may not be waived.

(2) The right of the respondent to be physically present at a hearing may also be waived by the respondent's attorney and the friend of respondent with the concurrence of the professional person and the judge upon a finding supported by facts that:

(a) (i) the presence of the respondent at the hearing would be likely to seriously adversely affect the respondent's mental condition; and

(ii) an alternative location for the hearing in surroundings familiar to the respondent would not prevent the adverse effects on the respondent's mental condition; or

~~(b) the respondent has voluntarily expressed a desire to waive the respondent's presence at the hearing;~~

(1) A respondent's right to counsel and the right to treatment provided for in this part may not be waived.

(2) A respondent's procedural right to be physically present at any hearing as provided in 53-21-115(2) and 53-21-116 may be waived by the court:

(a) at the request of the respondent, on a finding supported by facts that the respondent voluntarily expresses a desire to waive the respondent's presence at the hearing;

(b) at the request of the respondent's counsel, with the concurrence of the professional person and the friend of the respondent, if any, on a finding supported by facts that the presence of the respondent at the hearing is likely to seriously adversely affect the respondent's mental health condition; or

(c) at the request of the county attorney, with the concurrence of the professional person and the friend of the respondent, if any, on a finding supported by facts that the presence of the respondent at the hearing is likely to seriously adversely affect the respondent's mental health condition.

(3) The respondent's rights may otherwise be waived:

(a) by the respondent, if the court finds the respondent is capable of making an intentional or knowing decision; or

(b) by the respondent's counsel and the friend of the respondent, if any, acting together, if a record is based on the reasons for the waiver.

~~(3)(4)~~ *(a) In the case of a minor, provided that a record is made of the reasons for the waiver, the minor's rights may be waived by the mutual consent of the minor's counsel and parents or guardian or guardian ad litem if there are no parents or guardian.*

(b) If there is an apparent conflict of interest between a minor and the minor's parents or guardian, the court shall appoint a guardian ad litem for the minor."

Section 3. Section 53-21-129, MCA, is amended to read:

"53-21-129. Emergency situation – petition – detention – exception.

(1) When an emergency situation as defined in 53-21-102 exists, a peace officer or emergency care provider as defined in 50-6-202 may take any person who appears to have a mental disorder and to present an imminent danger of death or bodily harm to the person or to others or who appears to have a mental disorder and to be substantially unable to provide for the person's own basic needs of food, clothing, shelter, health, or safety into custody only for sufficient time to contact a professional person for emergency evaluation. If possible, a professional person should be called prior to taking the person into custody.

(2) If Except as provided in subsection (5), if the professional person agrees that the person detained is a danger to the person or to others and that an emergency situation as defined in 53-21-102 exists, then the person may be detained and treated until the next regular business day. At that time, the professional person shall release the detained person or file findings with the county attorney who, if the county attorney determines probable cause to exist, shall file the petition provided for in 53-21-121 through 53-21-126 in the county of the respondent's residence. In either case, the professional person shall file a report with the court explaining the professional person's actions.

(3) The county attorney of a county may make arrangements with a federal, state, regional, or private mental facility or with a mental health facility in a county for the detention of persons held pursuant to this section. If an arrangement has been made with a facility that does not, at the time of the emergency, have a bed available to detain the person at that facility, the person may be transported to the state hospital or to a behavioral health

inpatient facility, subject to 53-21-193 and subsection (4) of this section, for detention and treatment as provided in this part. This determination must be made on an individual basis in each case, and the professional person at the local facility shall certify to the county attorney that the facility does not have adequate room at that time.

(4) Before a person may be transferred to the state hospital or to a behavioral health inpatient facility under this section, the state hospital or the behavioral health inpatient facility must be notified prior to transfer and shall state whether a bed is available for the person. If the professional person determines that a behavioral health inpatient facility is the appropriate facility for the emergency detention and a bed is available, the county attorney shall direct the person to the appropriate facility to which the person must be transported for emergency detention.

(5) If the professional person determines that the person meets the requirements for a 72-hour mental health hold prescribed in [section 1], then the requirements of [section 1] apply."

Section 4. Section 53-21-132, MCA, is amended to read:

"53-21-132. Cost of examination and commitment. (1) The cost of psychiatric precommitment examination, detention, treatment, and taking a person who is suffering from a mental disorder and who requires commitment to a mental health facility must be paid pursuant to subsection (2)(a). The sheriff must be allowed the actual expenses incurred in taking a committed person to the facility, as provided by 7-32-2144.

(2) (a) The costs of precommitment psychiatric detention, precommitment psychiatric examination, and precommitment psychiatric treatment of the respondent and any cost associated with testimony during an involuntary commitment proceeding by a professional person acting pursuant to 53-21-123 must be billed to the following entities in the listed order of priority:

(i) the respondent, the parent or guardian of a respondent who is a minor, or the respondent's private insurance carrier, if any;

(ii) a public assistance program, such as medicaid, for a qualifying respondent; or

(iii) the county of residence of the respondent in an amount not to exceed the amount paid for the service by a public assistance program.

(b) The county of residence is not required to pay costs of treatment and custody of the respondent after the respondent is committed pursuant to this part. Precommitment costs related to the use of ~~two-way~~ electronic audio-video communication in the county of commitment must be paid by the county in which the person resides at the time that the person is committed. The costs of the use of ~~two-way~~ electronic audio-video communication from the state hospital for a patient who is under a voluntary or involuntary commitment to the state hospital must be paid by the state. The fact that a person is examined, hospitalized, or receives medical, psychological, or other mental health treatment pursuant to this part does not relieve a third party from a contractual obligation to pay for the cost of the examination, hospitalization, or treatment.

(3) The adult respondent or the parent or guardian of a minor shall pay the cost of treatment and custody ordered pursuant to 53-21-127, except to the extent that the adult or minor is eligible for public mental health program funds.

(4) A community service provider that is a private, nonpublic provider may not be required to treat or treat without compensation a person who has been committed."

Section 5. Section 53-21-140, MCA, is amended to read:

“53-21-140. Use of two-way electronic audio-video communication.

(1) *A respondent's right to be present at a hearing, as provided in 53-21-115(2) and 53-21-116, is satisfied by:*

- (a) the respondent's physical appearance before the court; or*
- (b) in the discretion of the court, by electronic audio-video communication.*

(2) For purposes of this chapter,:

(a) electronic audio-video communication must allow all participants to be observed and heard simultaneously; and

(b) a hearing that is conducted by the use of two-way electronic audio-video communication, allowing all of the participants to be observed and heard by all present simultaneously, is considered to be a hearing in open court.

~~(2) Whenever the law requires that a respondent or patient in any of the hearings provided for in subsection (3) be present before a court, this requirement may, in the discretion of the court, be satisfied either by the respondent's or patient's physical appearance before the court or by two-way electronic audio-video communication. The audio-video communication must operate so that the respondent or patient, the respondent's or patient's counsel, and the judge can see each other simultaneously and converse with each other, so that the respondent or patient and the respondent's or patient's counsel can communicate privately, and so that the respondent or patient and counsel are both present during the two-way electronic audio-video communication. A respondent or patient may request that counsel from the board be present, for consulting purposes only, if the respondent or patient is located at the state hospital.~~

(3) At the discretion of the court, the following hearings may be conducted through two-way electronic audio-video communication:

- (a) the initial hearing provided for in 53-21-122;
- (b) the detention hearing provided for in 53-21-124;
- (c) the trial or hearing on a petition provided for in 53-21-126;
- (d) a hearing on posttrial disposition as provided for in 53-21-127;
- (e) a hearing on the extension of a commitment period as provided for in

53-21-128;

(f) a hearing on rehospitalization of a person conditionally released from an inpatient treatment facility as provided for in 53-21-197;

(g) a hearing on an extension of the conditions of release as provided for in 53-21-198.

~~(4) This section does not abrogate a person's rights under 53-21-115, 53-21-116, or 53-21-117. A respondent or patient, the respondent's or patient's counsel, and a friend of respondent or patient, if any, must be informed of these rights prior to a hearing by two-way electronic audio-video communication in lieu of a hearing in person. A respondent or patient or the respondent's or patient's counsel and a friend of respondent or patient, acting together, may waive any of the rights, as provided under 53-21-119.~~

(5) A two-way electronic audio-video communication may not be used:

(a) in an initial hearing provided for in 53-21-122 if the professional person objects; or

(b) in a hearing referred to in subsections (3)(b) through (3)(g) if a respondent or patient, the respondent's or patient's counsel, or the professional person objects.”

WHEREAS, the 5th and 14th Amendments to the United States Constitution prohibit governments from depriving individuals of their liberty or property interests without due process of the law; and

WHEREAS, this state has established procedures for collecting and maintaining child abuse and neglect investigation records in a central registry that includes the identities of individuals alleged to have abused or neglected a child; and

WHEREAS, the names maintained in Montana's central registry may be disclosed to certain third parties in the course of background checks related to an individual's employment, licensure, and volunteer activities; and

WHEREAS, the disclosures may have a significant negative impact on an individual's liberty and property interests, including the loss or denial of employment and the loss of reputation in the community; and

WHEREAS, the Legislature wishes to ensure that this state's procedures for listing individuals on the central registry comport with constitutional due process requirements.

Be it enacted by the Legislature of the State of Montana:

Section 1. Central registry -- purpose -- determinations.

(1) There is established a statewide central registry to maintain information on individuals who are the subject of substantiated determinations of child abuse or neglect. The information may be made available during a background check of an individual as provided for in 41-3-205 and may affect the individual's ability to volunteer or obtain employment or licensure in areas in which the individual may have unsupervised contact with children, such as child care, foster care, or group home care.

(2) For the purposes of [sections 1 and 2], a determination of child abuse or neglect must be categorized according to the following definitions:

(a) (i) “Substantiated” means that the department has investigated the reported act of child abuse or neglect and determined by a preponderance of the evidence that an act of child abuse or neglect occurred.

(ii) The subject of a substantiated determination may be added to the central registry and must be notified of the consequences of being listed in the central registry, as well as the subject’s rights and procedures for requesting expungement from the central registry.

(b) “Unfounded” means that the department has investigated the reported act of child abuse or neglect and there is no evidence to corroborate the report.

(c) “Unsubstantiated” means that the department has investigated the reported act of child abuse or neglect and is unable to determine by a preponderance of the evidence that an act of child abuse or neglect occurred.

Section 2. Expungement from central registry – report to legislature. (1) An individual listed in the central registry may request to have the individual’s name expunged from the central registry by submitting a written request to the department accompanied by an affidavit sworn to by a person with personal knowledge stating facts sufficient to show that there is good cause for expungement. Good cause includes but is not limited to:

(a) newly discovered evidence that a substantiated report of child abuse or neglect is inaccurate;

(b) evidence that the requester no longer poses a risk and that no significant public purpose is served by continued listing of the requester in the state’s central registry;

(c) evidence that the underlying case on which the substantiated determination was based was closed or dismissed, resulting in reunification, and the requester no longer poses a risk to children;

(d) evidence that circumstances that contributed to the finding of abuse or neglect no longer exist; or

(e) evidence that actions taken by the requester since the incident of abuse or neglect prevent the reoccurrence of abuse or neglect.

(2) (a) An administrator of the department shall review the request within 30 days of receiving the request and determine whether to grant the request.

(b) If the request is granted, the department shall expunge the requester’s name from the central registry within 30 days and shall:

(i) destroy any written electronic or hardcopy records of the department related to the requester’s substantiation determination; and

(ii) notify the requester and other entities, if appropriate, that the expungement process has been completed.

(c) If the request is denied, the department shall notify the requester in writing within 30 days and shall notify the requester of the right to petition the district court for expungement under subsection (3).

(3) (a) An individual whose written request for expungement has been denied by the department pursuant to subsection (2) may petition the district court in the county in which the individual resides, requesting that the court expunge the individual’s name from the central registry. The petition must name the department as a respondent and must be accompanied by an affidavit sworn to by a person with personal knowledge stating facts sufficient to show that there is good cause for expungement as provided in subsection (1).

(b) The court shall hold a hearing on the petition and any response provided by the department unless a hearing is waived by agreement of the parties. At the hearing, the petitioner must be afforded an opportunity to present evidence supporting the petitioner’s request for expungement.

(c) If the court finds that the petitioner has established good cause for expunging the petitioner's name from the central registry, the court shall grant the petition and shall order the department to:

- (i) expunge the petitioner's name from the central registry within 30 days;
- (ii) destroy any written, electronic, or hardcopy records of the department related to the petitioner's substantiation determination; and
- (iii) notify the petitioner, the court, and other entities, if appropriate, that the expungement process has been completed.

(4) An individual who is listed in the central registry shall wait 2 years from the date of the original substantiation determination before requesting expungement.

(5) If an individual's request for expungement under this section is denied, the individual shall wait 2 years before submitting another request for expungement.

(b) The department shall notify all individuals listed in the central registry on [the effective date of this act] of the right to request expungement under this section.

(7) Procedures for the expungement of central registry records, as well as updated phone numbers, addresses, and other contact information for the district court and other relevant parties, must be accessible to the public online and posted in a place that is open for public viewing in child and family services offices.

(8) Nothing in this section constitutes a waiver of any right or remedy otherwise available to an individual seeking expungement under this section.

(9) By September 1 of each year, the department shall report to the children, families, health, and human services interim committee in accordance with 5-11-210 on the following:
